## BOBLOV KJ23Pro

# BOBLOV KJ23Pro 2K Body Camera

## USER MANUAL

### 1. Product Overview

The BOBLOV KJ23Pro is a high-performance 2K body camera designed for various applications, including law enforcement, security, and outdoor activities. It features a 2K video resolution, 38MP photo clarity, and a robust 4000mAh battery providing up to 15 hours of continuous recording. Equipped with five IR lights, it offers superior night vision capabilities. The camera is also IP66 waterproof, ensuring durability in diverse environments. This manual provides detailed instructions for setting up, operating, and maintaining your KJ23Pro body camera.

The BOBLOV KJ23Pro 2K Body Camera shown alongside its magnetic mount accessories, including the camera unit, a suction cup mount, and the two-piece magnetic clip system.

### 2. What's in the Box

Verify that all components are present in the package:

- Camera Body
- Battery
- USB Cable
- User Manual

- Curved Adhesive Mount
- Magnets (for magnetic mount)

### 3. Setup

---

#### 3.1 Charging the Battery

Before first use, fully charge the camera's 4000mAh battery. Connect the camera to a power source using the provided USB cable. The charging indicator light will show the charging status. A full charge provides up to 15 hours of continuous recording at 1080P resolution.

## Built-in 4000mAh Large Battery

Recording time 15Hs (Test data)

A close-up view of the BOBLOV KJ23Pro body camera, illustrating its built-in 4000mAh battery capacity, which provides up to 15 hours of continuous recording.

### 3.2 Installing the Magnetic Mount

The BOBLOV KJ23Pro comes with a universal magnetic suction back clip for secure attachment to clothing. This mount consists of two pieces: an "Inside" clip and an "Outside" clip.

1. **Separate the Clips:** Gently pull apart the two magnetic clips.
2. **Attach Camera to Outside Clip:** Slide the body camera's clip into the designated slot on the "Outside" clip.
3. **Position Inside Clip:** Place the "Inside" clip underneath your clothing (e.g., shirt, jacket, vest) at the desired mounting location.
4. **Align and Magnetize:** Align the "Outside" clip (with the camera attached) over the "Inside" clip on the exterior of your clothing. The strong magnets will attract, securing the camera in place. Ensure correct orientation for maximum magnetic force.

# Distinguish Inside and Outside to Install

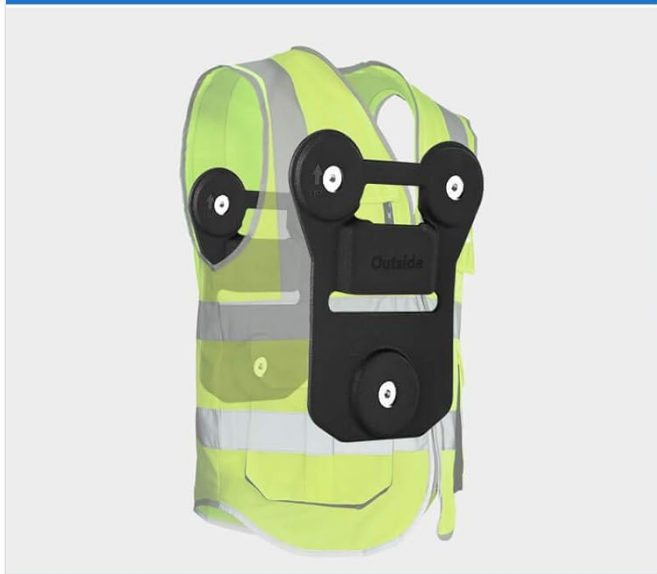

An illustration detailing the two distinct parts of the magnetic mount: the 'Inside' piece that goes under clothing and the 'Outside' piece that attaches to the camera.

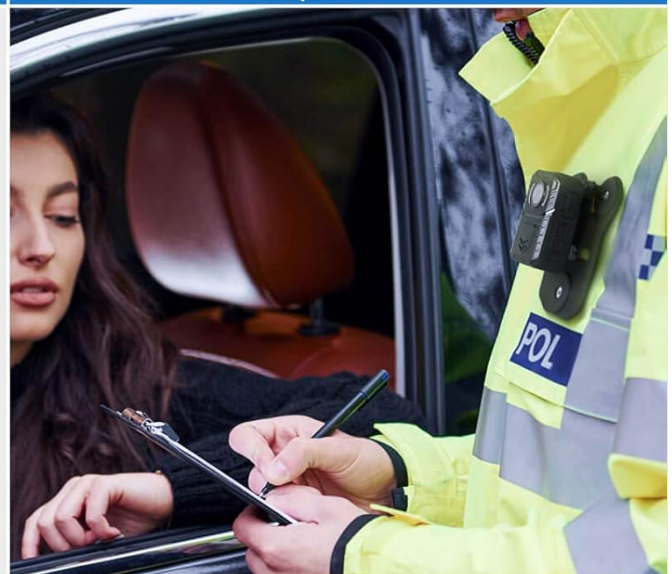

Step 1: Depart the two clips

Step2: Get the body camera pull in the "Outside" Clip

Step3: Put "inside" clip in the clothes

Step4: Magnet the two clips, and get camera work

A step-by-step visual guide demonstrating how to install the BOBLOV magnetic body camera mount, from separating the clips to attaching the camera to clothing.

# Strong Magnetic Force

Six magnets attract each other to form the strongest Power

A visual representation highlighting the strong magnetic attraction between the BOBLOV body camera and its magnetic mount, powered by six internal magnets.

## 4. Operating the Camera

### 4.1 Power On/Off

- **Power On:** Press and hold the Power button for a few seconds until the camera powers on.
- **Power Off:** Press and hold the Power button until the camera shuts down.

### 4.2 Video Recording

To start recording video, press the Video Record button. Press it again to stop recording. The camera supports 2K video resolution for clear and detailed footage.

# Capture in 2K Clarity

Enjoy stunning images for high-definition viewing

An image depicting a police officer wearing the BOBLOV KJ23Pro body camera, emphasizing its capability to capture video in 2K resolution for high-definition viewing.

## 4.3 Taking Photos

To capture a still image, press the Photo button. The camera captures photos at 38MP resolution.

## 4.4 Night Vision

The KJ23Pro is equipped with five high-intensity IR lights for enhanced night vision. The camera automatically activates night vision in low-light conditions or can be manually toggled. This feature ensures clear recordings even in complete darkness.

# Default to Loop Recording

## Support long video fragment

### Vedio Length

30min  
(MAX)

15min

10min  
(Default)

5min

0

The BOBLOV KJ23Pro body camera with its five IR lights activated, showcasing its night vision capability for clear footage in low-light conditions.

### 4.5 Loop Recording

The camera supports loop recording, which allows continuous recording by overwriting the oldest files when the storage is full. You can set the video fragment length to 5, 10, 15, or 30 minutes (maximum). The default setting is 10 minutes.

# Night Vision Capability

Ensure clear footage in the lowest light conditions.

A visual representation of the loop recording feature on the BOBLOV KJ23Pro, showing selectable video segment lengths of 5, 10, 15, and 30 minutes.

## 4.6 Playback and File Transfer

To view recorded files directly on the camera, navigate through the menu using the control buttons. To transfer files to a computer, connect the camera via the provided USB cable. The camera will appear as a removable disk, allowing you to access and copy your video and photo files.

## 5. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the camera body and lens. Avoid abrasive materials or harsh chemicals.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For optimal battery life, avoid fully discharging the battery frequently. Charge the camera regularly, even if not in use, to maintain battery health.
- **Water Resistance:** The camera has an IP66 waterproof rating, meaning it is protected against powerful water jets. While durable, avoid submerging the camera in water.

## 6. Troubleshooting

Problem	Possible Cause	Solution
Camera does not power on.	Low battery; camera frozen.	Charge the battery fully. If frozen, perform a soft reset (refer to specific button combination in full manual if available, otherwise, hold power button for extended period).
Recording stops unexpectedly.	Storage full; low battery.	Transfer files to a computer to free up space. Recharge the battery.
Poor video/photo quality.	Dirty lens; low light conditions (without night vision).	Clean the camera lens. Ensure night vision is active in dark environments.
Magnetic mount feels weak.	Incorrect orientation of magnetic clips.	Ensure the "Inside" and "Outside" clips are oriented correctly as shown in the setup section. The magnetic force is strongest when aligned properly.

## 7. Specifications

Feature	Detail
Brand	BOBLOV
Model Name	KJ23Pro
Video Capture Resolution	2K
Photo Sensor Technology	BSI CMOS
Battery Capacity	4000mAh
Continuous Recording Time	Up to 15 hours (at 1080P)
Special Feature	Night Vision (Five IR Lights)
Connectivity Technology	USB
Video Capture Format	MP4
Waterproof Rating	IP66
