

## BOBLOV KJ23Pro

# BOBLOV KJ23Pro 2K Body Camera Instruction Manual

Model: KJ23Pro

Brand: BOBLOV

## 1. INTRODUCTION AND OVERVIEW

The BOBLOV KJ23Pro 2K Body Camera is a versatile and robust device designed for high-definition video and photo capture in various environments. Featuring 2K video recording and 38MP photo resolution, it ensures clear and detailed evidence collection. Equipped with a powerful 4000mAh battery, it supports up to 15 hours of continuous recording at 1080P, making it suitable for extended use. Its night vision capability, enhanced by five IR lights, provides superior visibility in low-light conditions. The camera is built with an IP66 waterproof design, offering durability for law enforcement, security personnel, and outdoor enthusiasts.

## 4. SETUP

### 4.1 Initial Charging

Before first use, fully charge the BOBLOV KJ23Pro body camera. Connect the USB-C charging cable to the camera and the other end to the provided wall charger adapter or car charger. A full charge typically takes approximately 4 hours.

### 4.2 Power On/Off

- **To Power On:** Long press the Power On/Off button (usually located at the bottom side of the camera) for a few seconds until the screen illuminates.

- **To Power Off:** Long press the Power On/Off button again until the screen shuts down.

## 4.3 Memory

The KJ23Pro comes with internal memory (e.g., 256GB as per product title). If your model supports external memory, ensure a compatible A1 Micro SD card (up to 128GB) is inserted correctly before use. You can format the SD card via the camera's menu settings.

# 5. OPERATING INSTRUCTIONS

---

## 5.1 Button Functions

Familiarize yourself with the camera's buttons for optimal operation:

- **Power On/Off Button:** Long press to power on/off. Short press acts as a return key in the menu.
- **Return Button:** Short press to return to the previous menu/screen.
- **Light Button:** Short press to turn on/off the white illuminator/red laser. Long press to turn on/off IR lights.
- **Video Button:** Short press to start/stop video recording.
- **Audio Button:** Short press to start/stop audio recording. Long press to lock the camera.
- **Photo Button:** Short press to take a photo. Long press to activate red-blue warning lights.
- **Menu Button:** Accesses settings and playback options.
- **Left/Right Buttons:** Navigate through menu options and playback files.
- **OK Button:** Confirms selection in the menu or starts playback.

## 5.2 Recording Video and Audio

With the camera powered on, press the **Video Button** to start recording. The screen will display recording time. Press the **Video Button** again to stop. For audio-only recording, press the **Audio Button**.

## 5.3 Taking Photos

While the camera is on, press the **Photo Button** to capture a still image.

## 5.4 Playback and File Management

To review recorded files, press the **Menu Button** to enter the playback mode. Use the **Left/Right Buttons** to navigate through videos, photos, or audio files. Press **OK Button** to play/view a selected file. You can also delete files from this menu.

## 7. SPECIFICATIONS

Feature	Detail
Brand	BOBLOV
Model Name	KJ23Pro

Video Capture Resolution	2K
Photo Sensor Technology	CMOS
Special Feature	Night Vision
Connectivity Technology	USB
Video Capture Format	MP4
Battery Capacity	4000mAh
Continuous Recording Time	Up to 15 hours (1080P)
Waterproof Rating	IP66
Internal Memory	256GB (as per product title, optional 32GB/128GB models may exist)

## 8. MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid abrasive cleaners or solvents.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the camera regularly, especially if it will be stored for an extended period.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures.
- **Firmware Updates:** Check the BOBLOV official website periodically for any available firmware updates to ensure optimal performance and new features.

## 9. TROUBLESHOOTING

---

- **Camera Not Turning On:** Ensure the battery is charged. Connect to a power source and try again. If the issue persists, perform a factory reset via the menu if accessible.
- **Recording Issues:** Check if the internal memory is full. If so, transfer files to a computer and delete them from the camera, or format the memory card. Ensure the memory card is properly inserted.
- **Poor Video/Photo Quality:** Verify that the resolution and quality settings are set to your desired levels (e.g., 2K for video, 38MP for photos). Ensure the lens is clean.
- **Night Vision Not Working:** Check if the IR lights are enabled in the settings. Ensure there are no obstructions blocking the IR lights.

## 10. WARRANTY AND SUPPORT

---

For warranty information, technical support, or service inquiries, please refer to the documentation included with your product or visit the official BOBLOV website. Keep your purchase receipt as proof of purchase for warranty claims.
