

FITE ON USB-5.5ROUND-008

FITE ON Micro USB Charging Cable Instruction Manual

Model: USB-5.5ROUND-008

INTRODUCTION

This manual provides instructions for the FITE ON Micro USB Charging Cable, designed to supply power to compatible electronic devices. This cable features robust construction and integrated safety protections to ensure reliable and efficient charging.

PRODUCT FEATURES

- **Universal Input Voltage:** 100-240VAC 50/60Hz, suitable for worldwide use.
- **Output:** 5V for consistent power delivery.
- **Safety Protections:** Includes Over-Voltage Protection (OVP), Over-Current Protection (OCP), and Short Circuit Protection (SCP) to safeguard your devices.
- **Cable Length:** 3.2 feet (1.0 meter) for convenient use.
- **Durable Construction:** Made with thickened PVC material for tensile resistance and extended lifespan.
- **Quiet Operation:** Designed for efficient charging without emitting physical noise.

Stable And Secure Design

Steady Output Voltage and Current, No Damage to the Makeup Mirror.

No Physical Noise Will Be Emitted Out When Charging.

Figure 1: Intelligent Identification and Protection Features. This image highlights the internal circuitry of the Micro USB connector, showing icons for Over-Temp Protection, Over-Current Protection, Over-Voltage Protection, and Over-Circuit Protection, indicating the cable's built-in safety mechanisms.

SETUP

1. **Identify Ports:** Locate the Micro USB charging port on your device and a compatible USB-A port on your power source (e.g., wall adapter, computer, power bank).
2. **Connect to Power Source:** Insert the USB-A end of the charging cable into the USB-A port of your power adapter or device. Ensure a secure connection.
3. **Connect to Device:** Insert the Micro USB end of the charging cable into the Micro USB port of your electronic device. Ensure the connector is oriented correctly to avoid damage.
4. **Verify Connection:** Confirm that both ends of the cable are fully inserted. Your device should indicate that it is charging (e.g., a charging icon or LED indicator).

Universal Compatibility

See more compatible models in the description.

OPERATING INSTRUCTIONS

Once the cable is properly connected as described in the Setup section, the charging process will begin automatically. The cable is designed to deliver a stable 5V output, ensuring efficient power transfer to your device.

- Ensure the power source is active and providing power.
- Monitor your device's charging indicator to confirm charging is in progress.
- The cable's intelligent identification feature automatically adjusts current to prevent battery damage from fast charging.

Intelligent Identification

Automatically adjust the current to avoid damage to the battery by fast charging

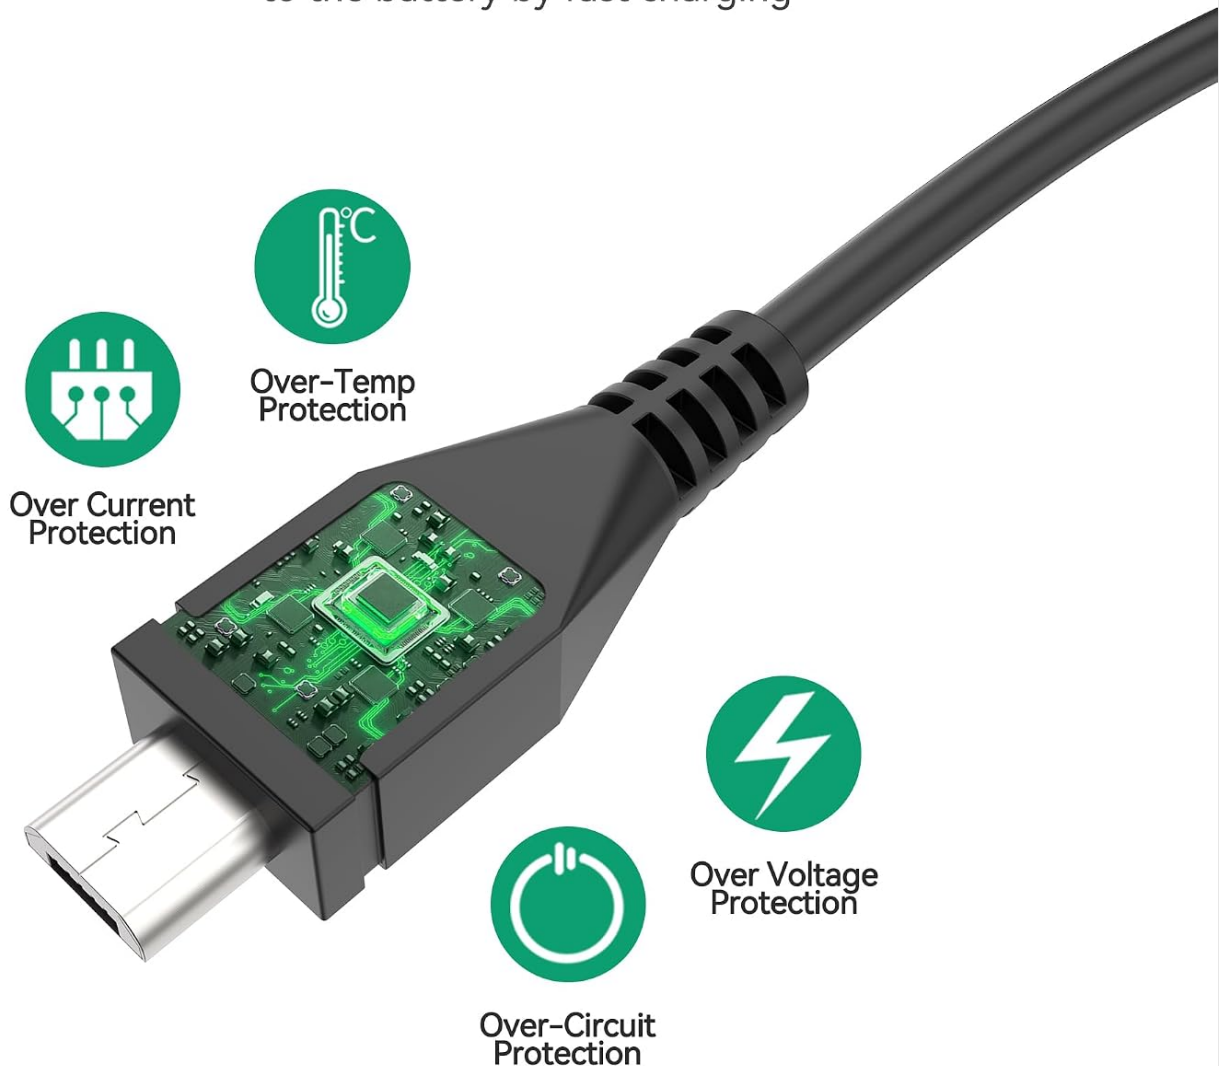

Figure 3: Stable and Secure Design. This image shows the Micro USB charging cable plugged into a wall outlet and connected to a lighted makeup mirror, emphasizing a stable and secure charging connection.

MAINTENANCE

- **Cleaning:** Disconnect the cable from all power sources and devices before cleaning. Wipe the cable gently with a dry, soft cloth. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable at sharp angles to prevent internal wire damage.
- **Handling:** Always grasp the connector ends when plugging or unplugging the cable, rather than pulling on the cable itself, to prevent strain and damage to the connectors.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device not charging.	Loose connection, faulty power source, incompatible device.	Ensure both ends of the cable are securely connected. Try a different USB power adapter or port. Verify your device uses a Micro USB port for charging.
Slow charging.	Low-power USB port, damaged cable, device issue.	Use a higher-power USB wall adapter (e.g., 5V/2A). Inspect the cable for visible damage. Test with another Micro USB cable if available.
Cable or device gets hot during charging.	Overload, faulty device, environmental factors.	Disconnect immediately. Ensure the charging environment is well-ventilated. The cable has built-in over-temperature protection, but excessive heat may indicate a device or power source issue.

SPECIFICATIONS

- **Model:** USB-5.5ROUND-008
- **Brand:** FITE ON
- **Connector Type:** USB-A to Micro USB
- **Input Voltage:** 100-240VAC, 50/60Hz (World Wide)
- **Output:** 5V
- **Cable Length:** 3.2 feet (1.0 meter)
- **Material:** Thickened PVC
- **Protection Features:** Over-Voltage Protection (OVP), Over-Current Protection (OCP), Short Circuit Protection (SCP)
- **Compatible Devices:** Lighted Makeup Mirrors (e.g., AMZTOLIFE TC1022 TCM3 bk01 DMM, LUXFURNI Starry7XLW Starry 7XL), and other devices requiring Micro USB 5V charging.
- **Certifications:** RoHS, UL (Specification Met)
- **Indoor/Outdoor Usage:** Indoor
- **Manufacturer:** Shenzhen Sunshine Technological Co.,Ltd.
