GEPLAD Night light 2700k

GEPLAD 6-Pack LED Night Light User Manual

MODEL: NIGHT LIGHT 2700K (2700K WARM WHITE)

Product Overview

The GEPLAD 6-Pack LED Night Light provides warm, ambient illumination for various indoor spaces. Designed for convenience, these plug-in lights feature a compact design and automatic dusk-to-dawn operation, enhancing visibility and safety in your home.

Setup and Installation

These night lights are designed for simple plug-and-play installation. No wiring or complex setup is required.

1. **Unpack:** Carefully remove the night lights from their packaging.
2. **Select Location:** Choose a standard wall outlet in an indoor area where ambient light is desired, such as bedrooms, bathrooms, nurseries, hallways, or kitchens. Ensure the outlet is easily accessible and not obstructed.
3. **Plug In:** Insert the night light directly into a standard 120V AC wall outlet. The compact design ensures that adjacent outlets remain accessible for other devices.
4. **Adjust Orientation (Optional):** The plug features a 90-degree rotatable design, allowing you to adjust the orientation of the night light to best suit your outlet configuration and desired light direction. Gently rotate the plug pins to the preferred vertical or horizontal position before plugging into the outlet.

Image: The night light's plug can be rotated 90 degrees to accommodate different outlet orientations, ensuring flexibility in placement.

Operating Instructions

The GEPLAD LED Night Light features an integrated photocell sensor for automatic operation.

- **Automatic On/Off:** Once plugged into a live outlet, the night light will automatically turn on when the ambient light in

the room is low (at dusk) and turn off when sufficient light is detected (at dawn).

- **Light Sensor:** The built-in photocell sensor detects light levels. Ensure the sensor is not obstructed by furniture, curtains, or other objects for optimal performance.
- **Non-Dimmable:** This night light provides a fixed brightness of 200 lumens and is not dimmable.

Image: The night light automatically turns off at dawn and turns on at dusk, demonstrating its intelligent light sensing capability.

Maintenance

The GEPLAD LED Night Light requires minimal maintenance.

- **Cleaning:** To clean the night light, unplug it from the outlet. Use a soft, dry cloth to gently wipe the surface. Do not use liquid cleaners, abrasive materials, or solvents, as these may damage the unit.
- **Bulb Replacement:** The LED bulbs are integrated and designed for long-term use. They are not user-replaceable.
- **Storage:** If storing the night lights, keep them in a cool, dry place away from direct sunlight and moisture.

Troubleshooting

Problem	Possible Cause	Solution
Night light does not turn on at dusk.	<ul style="list-style-type: none">• No power to the outlet.• Ambient light is too bright.• Sensor is obstructed.	<ul style="list-style-type: none">• Check if the outlet is functional by plugging in another device.• Ensure the room is sufficiently dark for the sensor to activate.• Clear any obstructions from the light sensor located on the front of the unit.
Night light remains on during daylight hours.	<ul style="list-style-type: none">• Ambient light is insufficient.• Sensor is obstructed.	<ul style="list-style-type: none">• Ensure the room receives adequate daylight for the sensor to detect brightness.• Clear any obstructions from the light sensor.
Light output is not as expected.	<ul style="list-style-type: none">• Incorrect color temperature expectation.• Unit malfunction.	<ul style="list-style-type: none">• This model provides 2700K warm white light at 200 lumens. Verify this matches your expectation.• If the unit is still not functioning correctly after troubleshooting, contact customer support.

Specifications

Model Name	Night light 2700k
Light Source Type	LED
Color Temperature	2700 Kelvin (Warm White)
Brightness	200 Lumens
Power Source	AC (120 Volts)
Sensor Technology	Photocell (Dusk to Dawn)
Product Dimensions	1.1"D x 1.1"W x 2.44"H (2.8cm D x 2.8cm W x 6.2cm H)
Item Weight	3.2 ounces (per unit)
Material	Plastic
Included Components	6 LED Night Lights
Special Features	Compact Design, Energy Efficient, Non-Dimmable, Plug In

Indoor/Outdoor Usage	Indoor Only
Water Resistance Level	Not Water Resistant

Safety Information

- For indoor use only. Do not expose to water or moisture.
- Do not disassemble or modify the night light. There are no user-serviceable parts inside.
- Avoid placing the night light near heat sources or in direct sunlight, which may affect sensor performance.
- Keep out of reach of children and pets.
- Ensure the night light is securely plugged into the outlet.
- Do not use with extension cords or power strips unless specifically rated for such use.
