KOSPET TANK T3 Ultra

KOSPET Tank T3 Ultra Smartwatch User Manual

Model: TANK T3 Ultra | Brand: KOSPET

INTRODUCTION

The KOSPET Tank T3 Ultra is a robust and feature-rich smartwatch engineered for durability and performance in challenging conditions. It combines military-grade toughness with advanced smart features, including comprehensive health tracking, multi-sport modes, precise GPS navigation, and seamless Bluetooth connectivity. This manual provides essential information for setting up, operating, and maintaining your KOSPET Tank T3 Ultra smartwatch.

SETUP GUIDE

1. App Installation

To unlock the full potential of your KOSPET Tank T3 Ultra, download the "KOSPET FIT" application on your smartphone. The app is available on both Google Play Store for Android devices and Apple App Store for iOS devices.

1. Open the Google Play Store (Android) or Apple App Store (iOS) on your smartphone.
2. Search for "KOSPET FIT".
3. Download and install the application.

2. Device Pairing

After installing the app, follow these steps to pair your smartwatch with your phone:

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the KOSPET FIT app and navigate to the "Device" section.
3. Tap "Add a new device" and select "TANK T3 Ultra" from the list of available devices.
4. Confirm the pairing request on both your smartphone and the smartwatch.

3. Notification Setup

To receive messages and app notifications on your smartwatch:

- Ensure the KOSPET FIT app is running and has the necessary permissions.
- In the KOSPET FIT app, go to "Notifications" or "Message Reminder" settings.
- Enable notifications for the desired applications (e.g., Instagram, YouTube, Facebook, LINE, WhatsApp).
- For iOS users, ensure "Show Previews" is set to "Always" or "When Unlocked" in your phone's notification settings for the KOSPET FIT app.

OPERATING INSTRUCTIONS

Military-Grade Durability

The KOSPET Tank T3 Ultra is built to military standards (MIL-STD-810H), having passed 15 rigorous tests for extreme conditions. This includes resistance to high and low temperatures, altitude, low pressure, dust, salt spray, and liquid contamination, making it suitable for outdoor sports and harsh working environments.

5ATM Waterproof & Professional Swimming Mode

The smartwatch features a fully sealed metal body, providing 5ATM dynamic waterproofing (up to 50m depth) and IP69K static waterproofing. It is safe for swimming, diving, and surfing. The unique Pro SWOLF swimming mode includes practical data logging and professional data analysis functions, making it an ideal partner for sports enthusiasts.

GPS, Altitude, Barometer & Compass

The T3 Ultra smartwatch integrates with 6 satellite positioning systems for reliable coverage and fast positioning (8-45 seconds), 2-3 times faster than conventional single-band 4-satellite smartwatches. It also includes a compass, barometer, and altimeter sensor to display current altitude and atmospheric pressure, aiding in outdoor navigation and exploration.

MAINTENANCE

To ensure the longevity and optimal performance of your KOSPET Tank T3 Ultra smartwatch, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch body and strap with a soft, damp cloth. For stubborn dirt, use a mild soap solution and rinse thoroughly with clean water. Ensure the watch is completely dry before charging or prolonged storage.
- **Avoid Extreme Conditions:** While the watch is military-grade durable, prolonged exposure to extreme temperatures (above 70°C or below -40°C) or direct sunlight can affect its components and battery life.
- **Charging:** Use only the provided charging cable. Ensure the charging contacts on the watch and cable are clean and dry.

before charging to prevent corrosion.

- **Storage:** When not in use for extended periods, store the watch in a cool, dry place. It is recommended to charge the battery to about 50% before storing to preserve battery health.
- **Water Exposure:** After swimming in saltwater or chlorinated water, rinse the watch with fresh water and dry it thoroughly.

TROUBLESHOOTING

If you encounter issues with your KOSPET Tank T3 Ultra, refer to the following common troubleshooting steps:

Problem	Possible Cause / Solution
Watch not turning on	Battery might be depleted. Connect to charger and allow it to charge for at least 30 minutes before attempting to power on.
Cannot pair with phone	<ul style="list-style-type: none">• Ensure Bluetooth is enabled on your phone.• Make sure the watch is within range of your phone.• Restart both the watch and your phone.• Clear Bluetooth cache on your phone (Android).• Forget the device in your phone's Bluetooth settings and try pairing again.
Notifications not received	<ul style="list-style-type: none">• Check notification permissions for the KOSPET FIT app on your phone.• Ensure "Message Reminder" is enabled in the app.• Disable any "Do Not Disturb" or "Power Saving" modes on your phone or watch.• For iOS, check "Show Previews" setting for KOSPET FIT app notifications.
Inaccurate GPS tracking	Ensure you are in an open area with clear sky view for optimal GPS signal reception. Allow the watch to acquire a stable GPS signal before starting an activity.
Short battery life	<ul style="list-style-type: none">• Frequent GPS usage, continuous heart rate monitoring, and AOD (Always-On Display) consume more power.• Reduce screen brightness or disable AOD if not needed.• Limit background app refresh for KOSPET FIT on your phone.

If the issue persists, please contact KOSPET customer support for further assistance. You can find contact information on the official KOSPET website or through the KOSPET FIT app.
