PETKIT P591

PETKIT P591 Smart Pet Feeder with 1080P HD Camera and Dual Hopper - Instruction Manual

Model: P591 | Brand: PETKIT

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your PETKIT P591 Smart Pet Feeder. This device is designed to automate your pet's feeding schedule, offering convenience and peace of mind. Key features include a 1080P HD camera for live monitoring, intelligent night vision, dual 5L hoppers for different food types, app control for scheduling up to 10 meals daily, and a Fresh Lock system to maintain food freshness.

SAFETY INFORMATION

- Ensure the device is placed on a stable, level surface.
- Use only dry pet food with a size of 12mm or less to prevent blockages.
- Keep the power cord away from pets to prevent chewing.
- Do not immerse the main unit in water. Only removable parts are washable.
- Keep out of reach of children.
- For indoor use only.

PACKAGE CONTENTS

Verify that all components are present in the package:

- PETKIT P591 Smart Pet Feeder Main Unit
- Stainless Steel Bowl (x2)
- Power Adapter and Anti-Bite Cable
- Desiccant Bags
- Instruction Manual (this document)

AI Capturing

Le système de suivi alimenté par l'IA capture les mouvements de l'animal et les enregistre sous forme d'images et de vidéos, que vous pouvez consulter par catégorie sur la ligne de temps.

*La visualisation des images est gratuite.

*Il y a une période d'essai gratuite de 7 jours pour revoir les vidéos sauvegardées (stockage dans le nuage). Ensuite, vous pouvez choisir de vous abonner pour regarder les vidéos sauvegardées.

SETUP GUIDE

1. Assembly

1. Place the main feeder unit on a flat, stable surface.
2. Insert the stainless steel bowls into their designated slots at the base of the feeder.
3. Open the top lid by pressing the release button.
4. Locate the desiccant compartment under the lid. Insert a fresh desiccant bag to maintain food freshness. Close the compartment securely.
5. Fill the dual hoppers with dry pet food. Ensure the food size is appropriate (under 12mm).
6. Close the top lid firmly until it clicks into place.

2. Power Connection

- Connect the power adapter to the feeder's power port located at the back or bottom.
- Plug the adapter into a wall outlet.
- For backup power during outages, install 4 D-cell alkaline batteries (not included) in the battery compartment at the bottom of the unit.

3. App Download and Connection

1. Download the "PETKIT" app from your smartphone's app store (iOS or Android).
2. Create an account or log in.
3. Follow the in-app instructions to add your PETKIT P591 Smart Pet Feeder. Ensure your phone is connected to a 2.4 GHz Wi-Fi network.
4. The app will guide you through the pairing process, which may involve pressing a button on the feeder to initiate pairing mode.

Note: The feeder supports 2.4 GHz Wi-Fi networks only. If your router is dual-band, ensure your phone is connected to the 2.4 GHz band during setup.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

1. Scheduling Meals via App

- Open the PETKIT app and select your P591 feeder.
- Navigate to the "Feeding Plan" section.
- Set up to 10 meals per day, specifying the time and portion size (1 to 10 portions per hopper).
- The dual hopper design allows for separate scheduling of different food types or for multiple pets.

2. Manual Feeding

- Open the PETKIT app and select your P591 feeder.
- Navigate to the "Feeding Plan" section.
- Set up to 10 meals per day, specifying the time and portion size (1 to 10 portions per hopper).
- The dual hopper design allows for separate scheduling of different food types or for multiple pets.

3. Camera Monitoring and Two-Way Audio

- Access the live camera feed through the PETKIT app to monitor your pet.
- The 1080P HD camera with 140° wide-angle lens and intelligent night vision provides clear visuals day and night.
- Use the two-way audio feature to speak to your pet or record a 20-second custom voice message that plays at meal times.
- The camera can detect and analyze remaining food in the bowl.
- Privacy protection: The camera can be turned on/off or scheduled via the app.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not connecting to Wi-Fi	Incorrect Wi-Fi password, 5GHz network, or weak signal.	Ensure correct 2.4GHz Wi-Fi password. Move feeder closer to router. Restart router and feeder.
Food not dispensing	Food blockage, empty hopper, or incorrect schedule.	Check food levels. Clear any blockages in the dispenser. Verify feeding schedule in the app.
Camera not working	Poor Wi-Fi connection, camera turned off in app, or privacy cover closed.	Check Wi-Fi signal strength. Ensure camera is enabled in app settings. Open the camera privacy cover.
Power outage	No power from outlet.	If backup batteries are installed, the feeder will continue to operate. Ensure batteries are fresh.
