

DICTAC LIW-01

DICTAC LED Double Bed 160x200 Metal Frame Instruction Manual

Model: LIW-01

1. SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- **Sharp Edges:** Exercise caution during assembly and handling to avoid injury from sharp edges.
- **Weight Capacity:** Do not exceed the maximum load capacity of **450 kg** for this bed frame. Overloading can cause damage and potential injury.
- **Stable Surface:** Assemble the bed on a flat, stable surface.
- **Children:** Keep small parts away from children during assembly.
- **Regular Checks:** Periodically check all connections and fasteners to ensure they remain tight.

2. PRODUCT OVERVIEW

The DICTAC LED Double Bed 160x200 Metal Frame is designed for comfort and functionality. It features a sturdy metal construction, an integrated LED headboard, and convenient power options.

Key Features:

- **Integrated LED Headboard:** Adjustable brightness, color, and lighting modes via APP, button, or remote control. Over 60,000 colors available, with timer and music synchronization functions.
- **Built-in Power Strip:** Includes 2 USB ports (5V/2.1A) and 2 power outlets (250V/16A) for convenient charging of electronic devices.
- **Ample Under-bed Storage:** 32 cm (approximately 12.6 inches) of clearance provides significant space for storage boxes, suitcases, or other items.
- **Sturdy Metal Frame:** Constructed from engineered wood and metal for durability and stability, supporting up to 450 kg.
- **Anti-Noise Design:** Equipped with EVA anti-vibration strips to minimize creaking between metal slats, ensuring a quiet sleep environment.
- **Mattress Stability:** Raised headboard and footboard design prevents the mattress from sliding.
- **Easy Assembly:** Simplified steps and clearly labeled parts for straightforward installation.

3. PACKAGE CONTENTS

Before beginning assembly, ensure all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Headboard with LED lighting, 2 USB ports, and 2 power outlets
- Bed frame components (side rails, support beams, center support)
- Metal slats
- Reinforced bed feet with anti-slip pads
- Assembly hardware (screws, bolts, washers, Allen key)
- Instruction manual
- Remote control for LED lights

4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward. It is recommended to have two people for easier and safer assembly.

Preparation:

- Clear an open space for assembly.
- Lay out all components and hardware. Refer to the parts list in the included instruction manual to identify each piece.
- Keep the provided Allen key and any other tools handy.

Assembly Steps (General Guide):

1. **Assemble the Headboard:** Attach the wooden shelf and LED strip to the metal headboard frame. Connect the power cable for the LED and power strip.
2. **Attach Side Rails:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure.
3. **Install Center Support:** Assemble and install the central support beam(s) and their legs.
4. **Place Slats:** Lay the metal slats across the bed frame. Ensure the EVA anti-vibration strips are correctly positioned to prevent noise. Secure the slats as per the detailed instructions.
5. **Attach Feet:** Securely attach all reinforced bed feet, ensuring the anti-slip pads are in place.
6. **Final Check:** Double-check all screws and bolts to ensure they are tightened.

5. OPERATING INSTRUCTIONS

5.1 LED Headboard Lighting:

The LED strip integrated into the headboard offers customizable lighting options.

- **Power On/Off:** Use the button on the LED controller, the remote control, or the dedicated mobile application to turn the lights on or off.
- **Color Selection:** Choose from over 60,000 colors via the mobile application. The remote control offers a selection of preset colors.
- **Brightness Adjustment:** Adjust the light intensity using the remote control or the mobile application.
- **Lighting Modes:** Select various dynamic lighting modes, including flash, fade, strobe, and smooth transitions.

- **Music Synchronization:** In music sync mode (via APP), the LED lights will change color and pattern in rhythm with music played on your connected device.
- **Timer Function:** Set a timer for the lights to automatically turn off after a specified duration using the mobile application.

5.2 USB Ports and Power Outlets:

The integrated power strip provides convenient access to charging and power.

- **USB Charging:** Connect your smartphones, tablets, or other USB-powered devices to the 2 USB ports (5V/2.1A) for charging.
- **Power Outlets:** Use the 2 standard power outlets (250V/16A) to power lamps, alarm clocks, or other small electronic appliances.
- **Power Connection:** Ensure the bed's main power cable is securely plugged into a wall outlet for the LED lights, USB ports, and power outlets to function.

6. MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your bed frame.

- **Cleaning:** Wipe the metal and engineered wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Dusting:** Regularly dust the headboard shelf and frame to prevent buildup.
- **Fastener Checks:** Periodically (e.g., every 3-6 months) check all bolts and screws and tighten them if necessary to maintain structural integrity and prevent creaking.
- **LED Care:** The LED strip is designed for long-term use. If issues arise, contact customer support. Do not attempt to repair the LED strip or power unit yourself.

7. TROUBLESHOOTING

If you encounter any issues with your DICTAC LED Double Bed, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Bed frame creaks or is unstable	Loose fasteners; uneven floor; missing EVA strips.	Tighten all bolts and screws. Ensure the bed is on a level surface. Verify all EVA anti-vibration strips are correctly installed between metal slats.
LED lights not working	Power cable disconnected; remote control battery low; controller malfunction.	Check if the bed's power cable is securely plugged into a wall outlet. Ensure the LED controller cable is connected. Replace remote control batteries. If issues persist, contact support.
USB ports or power outlets not working	Bed's main power cable disconnected; device not properly connected.	Ensure the bed's main power cable is securely plugged into a functional wall outlet. Verify devices are correctly plugged into the USB ports or outlets.
Mattress slides on the frame	Mattress not properly seated; footboard/headboard not preventing movement.	Ensure the mattress is centered and fully seated within the frame. The raised footboard and headboard are designed to prevent sliding; verify they are correctly assembled.

If these solutions do not resolve the issue, please contact DICTAC customer support for further assistance.

8. SPECIFICATIONS

Feature	Detail
Brand	DICTAC
Model Number	LIW-01
Size	160x200cm (Double Bed)
Material	Engineered Wood, Metal
Product Dimensions (L x W x H)	200 x 160 x 90 cm
