SETUP

Placement

Place the dishwasher on a stable, flat, and heat-resistant surface near a power outlet and a drainage point.

Water Supply Options

The HAVA Countertop Dishwasher offers two methods for water supply:

1. **Built-in 5 L Water Tank:** For hassle-free installation without plumbing. Simply open the water inlet on top of the unit and pour water using the provided pitcher until the tank is full.
2. **Faucet Connection:** Connect the provided inlet hose to a compatible faucet for continuous water supply.

Drainage

Connect the drain hose to the designated outlet on the dishwasher. Position the other end of the drain hose into a sink or a bucket for wastewater collection. Ensure the hose is not kinked or blocked.

OPERATING INSTRUCTIONS

Loading Dishes

Arrange dishes in the redesigned dish rack, ensuring they do not obstruct the spray arms. Place cutlery in the cutlery basket. For optimal cleaning, scrape off large food particles before loading.

Adding Detergent

Open the detergent dispenser and add the recommended amount of dishwasher detergent. Close the dispenser securely.

Selecting a Wash Program

The dishwasher features 8 wash programs to suit various cleaning needs. Use the touch screen interface to select your desired program:

- **Normal:** For daily dishware with typical food soil.
- **Quick:** For lightly soiled dishes that need a fast wash.
- **ECO:** Energy and water-efficient cycle for normal loads.
- **Strong:** For heavily soiled pots, pans, and dishes.
- **Glass:** Gentle cycle for delicate glassware.
- **Fruit:** Specialized program for washing fruits.
- **Self-Clean:** For cleaning the dishwasher's interior.
- **Dry:** Drying function for dishes.

Additional Functions

- **Child Lock:** Engages to prevent accidental operation by children.
- **Delayed Start:** Allows you to set a delayed start time for up to 18 hours.

Starting a Cycle

After loading dishes, adding detergent, and selecting a program, press the Start button to begin the wash cycle.

MAINTENANCE

Cleaning the Filter

Regularly clean the filter to ensure optimal performance. Remove the filter assembly, rinse it under running water to remove food particles, and reassemble.

Water Softener Maintenance

Periodically check and refill the water softener salt compartment as needed, especially if you notice water spots on your dishes. Refer to the water softener section for instructions on adding salt.

Exterior Cleaning

Wipe the exterior of the dishwasher with a soft, damp cloth. Avoid abrasive cleaners.

TROUBLESHOOTING

If you encounter issues with your dishwasher, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Dishwasher does not start	Power cord unplugged; Door not closed properly; Child lock engaged.	Check power connection; Ensure door is latched; Deactivate child lock.
Dishes not clean	Improper loading; Clogged spray arms; Insufficient detergent; Clogged filter.	Reload dishes correctly; Clean spray arms; Add more detergent; Clean filter.
Water not draining	Drain hose kinked or blocked; Clogged drain filter.	Check and clear drain hose; Clean drain filter.
Water spots on dishes	Hard water; Low rinse aid; Water softener salt low.	Adjust water softener setting; Refill rinse aid; Add water softener salt.

For issues not listed here, please contact customer support.
