SETUP INSTRUCTIONS

Your Settab Cloud Modular Sectional Couch is designed for hassle-free setup with no assembly required. The components are vacuum-packed for efficient shipping.

1. **Unpack the Boxes:** Carefully open the shipping boxes. The sofa components will be tightly rolled and vacuum-sealed in plastic.
2. **Remove Plastic Packaging:** Using caution, cut and remove the plastic wrapping from each sofa component. As air enters, the cushions will begin to expand rapidly.
3. **Allow for Full Expansion:** The sofa components typically take 3-7 days to fully expand and mold to their intended shape. During this period, you can gently pat the sofa to help speed up its expansion. Steaming or using a hairdryer on a low setting can also assist in fluffing the fabric and cushions.
4. **Arrange Components:** Once fully expanded, arrange the modular pieces in your desired configuration (e.g., U-shape, L-shape, or separate seating).

CARE AND MAINTENANCE

Proper care will extend the life and appearance of your Settab sectional couch.

- **Regular Cleaning:** Vacuum regularly using an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, which can spread the stain. Use a mild fabric cleaner designed for corduroy, testing on an inconspicuous area first.
- **Fluffing Cushions:** Periodically fluff and rotate cushions to maintain their shape and even out wear.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sun or use curtains/blinds.
- **Professional Cleaning:** For deep cleaning or stubborn stains, consult a professional upholstery cleaner.

TROUBLESHOOTING

While your Settab sectional is designed for durability and ease of use, here are some common considerations:

- **Cushion Firmness:** New memory foam cushions may feel firmer initially. They will soften with use over time. Ensure adequate expansion time (3-7 days) as mentioned in the setup section.
- **Fabric Appearance:** The plush corduroy fabric may show slight variations in pile direction, which is normal for this material. Regular brushing or vacuuming can help maintain a uniform appearance.
- **Movement of Modular Pieces:** If individual pieces tend to shift, consider placing a non-slip rug pad underneath or using furniture connectors (not included) to secure them together.
