Hasuit LB-05

Hasuit Twin Pink Loft Bed with LED Lights Instruction Manual

Model: LB-05

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Hasuit Twin Pink Loft Bed with LED Lights. Please read all instructions carefully before assembly and use to ensure safe and proper operation. Retain this manual for future reference.

Important Safety Information

- Always secure the anti-toppling device to the wall for stability. Failure to do so may result in injury.
- Be cautious of sharp edges and pinch points during assembly and use.
- Do not exceed the maximum weight recommendation of 400 pounds to prevent instability and potential structural failure.
- Ensure all bolts and screws are tightened securely before use and periodically check for tightness.
- Only use mattresses up to 6 inches thick on the upper bed to maintain guardrail effectiveness.

SETUP AND ASSEMBLY

The loft bed comes with a detailed assembly instruction manual. Each part is numbered to facilitate quick and accurate assembly. It is recommended to have two people for assembly.

1. **Unpack and Identify Parts:** Lay out all components and match them with the parts list in the included manual.
2. **Assemble Frame:** Follow the step-by-step instructions in the provided manual to assemble the main metal frame. Ensure all connections are secure.
3. **Install Guardrails:** Attach the full-length guardrails to the upper bed frame as instructed. These are crucial for safety.
4. **Attach Ladder:** Secure the square ladder to the designated position on the bed frame.
5. **Install Clothes Rack:** Attach the integrated clothes rack to the side of the bed frame.
6. **Apply Non-slip Pads:** Place the non-slip foot pads on the bottom of each leg to protect your floor and increase stability.

7. **Secure Anti-Toppling Device:** This is a critical safety step. Firmly fix the anti-toppling device to the wall using appropriate hardware (not always included, may require specific wall anchors). This prevents the bed from tipping over.
8. **Install LED Lights:** Adhere the RGB LED light strips to the desired locations, typically under the bed frame, and connect them to the controller and power adapter.

OPERATION

RGB LED Lights

The integrated RGB LED light strips offer customizable lighting options to enhance your room's ambiance. They can be controlled via a physical controller or a dedicated mobile application.

- **Color Selection:** Choose from over 60,000 colors to match your mood or decor.
- **Brightness Adjustment:** Adjust the light intensity to your preference.

- **Multiple Modes:** Access various lighting modes, including static colors, dynamic effects, and custom styles.
- **Voice Control Mode:** When activated, the LED lights will change color in rhythm with sound.
- **Music Mode:** When activated, the LED lights will change color in rhythm with music.
- **Timing Function:** Set schedules for the lights to turn on or off automatically.
- **App Control:** Download the specified application to control all features from your smartphone.

Clothes Rack

The integrated clothes rack provides a convenient space for hanging clothes, towels, or other items, helping to keep your room organized.

MAINTENANCE

- **Cleaning:** For the metal frame, wipe with a dry cloth. Avoid abrasive cleaners. The manufacturer recommends "Dry Clean Only" for general product care, which typically refers to the fabric components if any, but for the metal frame, a dry cloth is suitable.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten as

necessary to maintain structural integrity and safety.

- **Anti-Toppling Device:** Regularly check the anti-toppling device to ensure it is still securely fastened to the wall and the bed frame.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose connections; Anti-toppling device not secured; Uneven floor.	Ensure all bolts and screws are fully tightened. Verify the anti-toppling device is firmly attached to both the bed and the wall. Place shims under bed legs if the floor is uneven.
Squeaking or noise during movement.	Loose connections; Metal parts rubbing.	Re-tighten all assembly hardware. Apply a small amount of silicone lubricant to contact points where metal parts may rub.
LED lights not working.	Power connection issue; Faulty controller/adaptor; Damaged light strip.	Check if the power adaptor is securely plugged into an outlet and the LED strip. Ensure the controller is properly connected. If issues persist, contact customer support.

SPECIFICATIONS

- **Brand:** Hasuit
- **Model Number:** LB-05
- **Size:** Twin
- **Color:** Pink
- **Product Dimensions:** 77.95"L x 42.32"W x 72.74"H
- **Item Weight:** 59.5 Pounds
- **Weight Limit:** 400 Pounds
- **Special Features:** RGB LED Lights, Anti-toppling Device, Clothes Rack, Full-Length Guardrail, Triangular Structure
- **Material:** Metal
- **Assembly Required:** Yes
- **Recommended Mattress Thickness:** Up to 6 inches
