## JONR P20 Pro Mop

# JONR P20 Pro Replacement Mop Instruction Manual

Model: P20 Pro Mop

## INTRODUCTION

---

This manual provides essential information for the proper installation, use, and maintenance of your JONR P20 Pro Replacement Mop. Please read these instructions carefully to ensure optimal performance and longevity of the product. The JONR P20 Pro Replacement Mop is designed for use with the JONR P20 PRO Robot Vacuum Cleaner.

## SETUP AND INSTALLATION

---

Follow these steps to correctly install the replacement mop onto your JONR P20 PRO robot vacuum cleaner.

1. **Preparation:** Ensure your JONR P20 PRO robot vacuum cleaner is powered off and disconnected from its charging dock before beginning installation.
2. **Remove Old Mop:** Gently detach the worn or dirty mop cloth from the designated mop attachment area on the underside of the robot vacuum.
3. **Attach New Mop:** Align the JONR P20 Pro Replacement Mop with the attachment points on the robot vacuum. Press firmly to secure it in place. Ensure the mop is evenly attached and lies flat.

# Keep Your Floors Cleaner at All Times

A hand is shown installing a JONR P20 Pro Replacement Mop onto the underside of a JONR robot vacuum cleaner. This image demonstrates the simple process of attaching the mop for use.

The replacement mop is designed for easy installation, allowing for quick changes when needed.

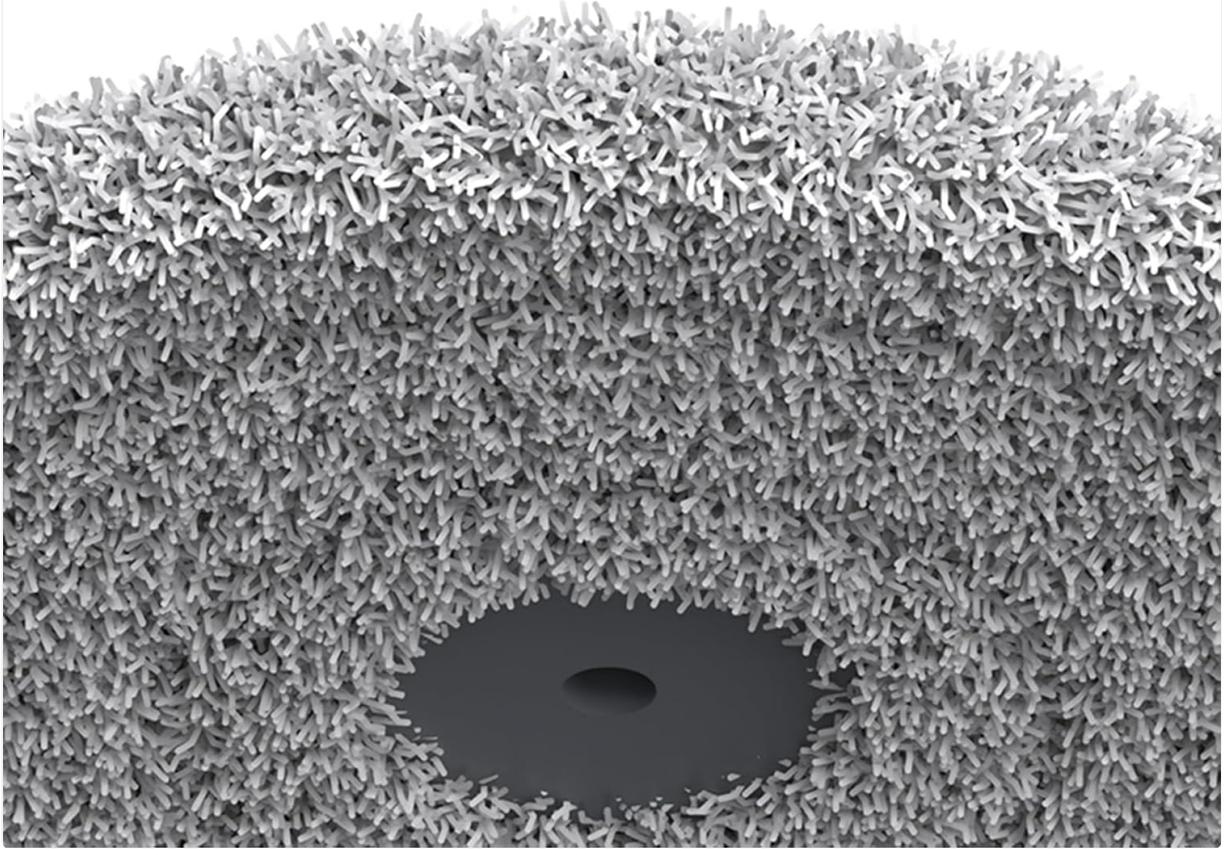

## OPERATING INSTRUCTIONS

---

Once installed, the JONR P20 Pro Replacement Mop works in conjunction with your robot vacuum to clean various hard floor surfaces.

- **Floor Compatibility:** This mop is best suited for smooth surfaces such as wooden floors, ceramic tiles, laminate floors, marble floors, and other sealed hard floors.
- **Cleaning Performance:** The mop cloth is made of polyester and nylon, designed to remove ultra-fine dust and dirt effectively. It features a dual-function zone and vibration zone for powerful cleaning.
- **Water Absorption:** The mop material offers strong water absorption, ensuring efficient cleaning and quick drying.

## MAINTENANCE

---

Regular maintenance of your replacement mop ensures consistent cleaning performance and extends its lifespan.

- **Cleaning the Mop:** The mop cloths are washable and reusable. They support both hand washing and machine washing. After each use, it is recommended to clean the mop to remove accumulated dirt and debris.
- **Washing Instructions:** For machine washing, use a gentle cycle with mild detergent. Air dry the mop completely before reattaching it to the robot vacuum. Avoid using bleach or harsh chemicals.
- **Replacement Frequency:** To maintain high cleaning performance, replace the mop cloth every 3-6 months, depending on usage frequency and cleaning needs.

# Easy to Install

## JONR original brush

Two JONR P20 Pro Replacement Mops are shown being placed into a washing machine, demonstrating their machine washable and reusable nature.

## TROUBLESHOOTING

If you encounter issues with your JONR P20 Pro Replacement Mop, consider the following:

- **Poor Cleaning Performance:** Ensure the mop is clean and properly attached. If the mop is old or heavily worn, replace it with a new one.
- **Mop Not Staying Attached:** Verify that the mop is correctly aligned and firmly pressed onto the attachment points of the robot vacuum. Check for any debris obstructing the attachment mechanism.
- **Excessive Wear:** If the mop wears out faster than expected, review your cleaning frequency and floor types. Ensure the mop is only used on recommended smooth hard floor surfaces.
