SETUP AND INITIAL USE

Unboxing

1. Carefully remove the sunglasses from their protective case.
2. Inspect the sunglasses for any visible damage or manufacturing defects.
3. Remove any protective films or tags from the lenses and frame.

Initial Fit

Place the sunglasses on your face. The temples should rest comfortably behind your ears, and the nose pads should sit evenly on your nose bridge without pinching or slipping. If the fit is too loose or too tight, minor adjustments can often be made by an optical professional.

OPERATING INSTRUCTIONS

Wearing Your Sunglasses

- Always use both hands to put on and take off your sunglasses to prevent bending the frame or loosening the hinges.
- Ensure the lenses are clean before wearing for optimal vision and protection.

Proper Handling

Avoid placing your sunglasses face down on hard surfaces to prevent scratching the lenses. When not in use, always store them in their protective case.

MAINTENANCE AND CARE

Cleaning Your Lenses and Frame

- Use the provided microfiber cleaning cloth to gently wipe away smudges and dust.
- For a more thorough cleaning, rinse the sunglasses under lukewarm water. Apply a small drop of mild soap (avoid harsh chemicals) to the lenses and gently rub with your fingertips.
- Rinse thoroughly and dry with a clean, soft, lint-free cloth.
- Avoid using paper towels or clothing, as these can scratch the lenses.

Storage

Store your sunglasses in their original protective case when not in use. Avoid leaving them in direct sunlight or extreme heat (e.g., on a car dashboard), as this can damage the frame and lens coatings.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Loose Screws	Normal wear and tear.	Gently tighten with a small optical screwdriver. Avoid over-tightening. If unsure, consult an optical professional.
Emblem/Logo Detachment	Impact or manufacturing defect.	Contact Gucci customer support or an authorized dealer for repair. Avoid attempting to reattach with strong adhesives yourself, as this may void the warranty.
Scratched Lenses	Improper cleaning or storage.	Minor scratches may be polished by an optical professional. Deep scratches often require lens replacement. Prevent by always using the provided cleaning cloth and case.
