Weight: 21.1 lbs  
Power: 500W

Comprehensive user guide for the Frigidaire Gallery Countertop Nugget Ice Maker (EFIC201BLACK), detailing product features, setup, ice making process, maintenance, troubleshooting tips, and specifications.

## Frigidaire Gallery 33 Lbs. Countertop Ice Maker

Model: EFIC201BLACK

### PRODUCT OVERVIEW

Elevate your beverages with the Frigidaire nugget ice maker, delivering restaurant-quality ice directly to your kitchen. This countertop nugget ice maker transforms ordinary beverages into extraordinary delights with its chewable nugget ice. Indulge in soft yet crunchy nuggets that enhance the flavor and presentation of your favorite drinks. With an intelligent control panel and high ice production capacity of up to 33 lbs per day, you'll never run out of ice. Discover the perfect balance of convenience and

luxury with the Frigidaire nugget ice machine.

## Key Features

- **Crunchy, Chewable Nuggets:** Enjoy restaurant-quality, addictively chewable nugget textured ice.
- **Quick & Powerful:** Produces the first batch of ice in only 10-15 minutes.
- **High Capacity:** Capable of producing up to 33 lbs. of ice per day, with a bin that holds 3 lbs. at a time.
- **Perfect Size:** Compact design fits easily on your countertop or slides beneath kitchen cabinets.
- **Intelligent Control Panel:** Easy-to-use touch controls for ice making and cleaning functions.
- **Auto Self-Cleaning:** Built-in cleaning function helps maintain hygiene and fresh-tasting ice.
- **Important Note:** This ice maker is designed to produce ice, not store it. The unit does not keep ice frozen once it's made. To prevent melting, transfer the ice to your freezer promptly after it is produced.

## WHAT'S IN THE BOX

---

Upon unboxing your Frigidaire Gallery Ice Maker, please ensure all components are present and undamaged:

- Icemaker Unit
- Ice Bin
- Ice Scoop
- Drip Tray

## SETUP INSTRUCTIONS

---

### Unpacking

1. Carefully remove the ice maker from its packaging.
2. Remove all packing materials, tape, and protective film.
3. Clean the ice bin, ice scoop, and water reservoir with warm, soapy water before first use. Rinse thoroughly.

### Placement

1. Place the ice maker on a flat, stable surface away from direct sunlight and heat sources.
2. Ensure there is at least 5 inches (12.7 cm) of clearance around the unit for proper ventilation. This is crucial for efficient operation and to prevent overheating.
3. Do not place the unit near appliances that produce heat, such as ovens or dishwashers.
4. Plug the unit into a grounded electrical outlet.

## OPERATING INSTRUCTIONS

---

### Filling the Water Reservoir

1. Open the top lid of the ice maker.
2. Locate the water reservoir opening.
3. Pour clean, potable water into the reservoir up to the MAX fill line. Do not overfill.
4. Close the top lid securely.

Image: Top view of the Frigidaire Gallery Ice Maker showing the access point for filling the water reservoir.

## **Making Ice**

1. Ensure the unit is plugged in and the water reservoir is filled.
2. Press the 'Ice' button on the control panel to start ice production. The 'Power' indicator light will illuminate.
3. The first batch of nugget ice will be ready in approximately 10-15 minutes.
4. The 'Ice Full' indicator light will illuminate when the ice bin is full, and the unit will automatically pause production.
5. If the 'Add Water' light illuminates, the water reservoir is low and needs refilling.

## Ice Storage

It is important to note that this ice maker is designed for ice production, not long-term storage. The unit does not have a freezer function to keep ice frozen. For extended storage, transfer the produced nugget ice to your freezer immediately after it is made.

## MAINTENANCE AND CLEANING

---

Regular cleaning ensures optimal performance and hygiene of your ice maker.

### Regular Cleaning

1. **Daily:** Empty any remaining water from the reservoir and wipe down the interior of the ice bin with a clean cloth.
2. **Weekly:** Perform the auto self-cleaning cycle. Ensure the water reservoir is filled with clean water, then press the 'Clean' button on the control panel. Follow any specific instructions in the full user manual for detailed cleaning.

3. **Monthly:** For thorough cleaning and descaling, use a mixture of water and vinegar (or a specialized ice maker cleaning solution) in the reservoir and run the auto self-cleaning cycle multiple times. Rinse thoroughly afterwards by running several cycles with fresh water.
4. Always unplug the unit before performing any manual cleaning.

## TROUBLESHOOTING

---

If you encounter any issues with your ice maker, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
'Add Water' light is on	Water reservoir is empty or low.	Fill the water reservoir with clean, potable water up to the MAX line.
'Ice Full' light is on	Ice bin is full.	Remove ice from the bin. The unit will resume production automatically.
No ice production	Unit not plugged in; water reservoir empty; ice bin full; air vents blocked.	Ensure unit is plugged in. Fill water reservoir. Empty ice bin. Check for proper ventilation around the unit.
Ice tastes strange or has odor	Unit needs cleaning; water quality issue.	Perform a thorough cleaning cycle. Use distilled or filtered water.
