

Frigidaire EFIC240

Frigidaire EFIC240 Countertop Artisanal Sphere Ice Machine User Manual

Model: EFIC240 | Brand: Frigidaire

1. INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient use of your Frigidaire EFIC240 Countertop Artisanal Sphere Ice Machine. Please read all instructions carefully before operating the appliance and retain this manual for future reference.

2. IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury. This appliance is for household use only.

- Ensure the appliance is placed on a stable, level surface.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Unplug the appliance from the outlet when not in use, before cleaning, and before servicing.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Keep children away from the appliance during operation.
- Use only potable water in the ice maker.
- This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. SETUP AND INSTALLATION

3.1 Unpacking

Carefully remove all packaging materials and inspect the ice maker for any damage. Ensure all components are present:

- Icemaker unit
- Ice Bin
- Ice Scoop
- Drip Tray

3.2 Placement

Place the ice maker on a flat, stable surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit. The compact design allows for placement under most standard cabinets.

Dimensions:

Depth: 16.75 inches

Width: 9.76 inches

Height: 16.26 inches

Frigidaire is a pending or registered trademark of Electrolux Home Products and used under license from Electrolux Home Products, Inc.

Image: The Frigidaire EFIC240 ice machine shown with its depth (16.75 in), width (9.76 in), and height (16.3 in) clearly indicated by dashed lines and measurements.

3.3 Initial Cleaning

Before first use, clean the interior of the ice maker. The unit features an automated self-cleaning function. Refer to the 'Maintenance' section for detailed instructions on using this feature.

3.4 Water Filling

The Frigidaire EFIC240 does not require a direct water hookup. Simply fill the internal water reservoir with potable water. Ensure the water level does not exceed the maximum fill line.

4. OPERATING INSTRUCTIONS

4.1 Control Panel Overview

The ice maker features an intuitive digital control panel located on the top of the unit. This panel provides indicators and controls for various functions.

Image: A hand pressing a button on the top control panel of the Frigidaire EFIC240. The panel displays icons for 'Ice Full Notification', 'Add Water Notification', 'Automated Self-cleaning', and 'Select Large Or Small Nuggets'.

The control panel includes indicators for:

- **Power:** Indicates the unit is on.
- **Ice Full:** Illuminates when the ice bin is full.

- **Add Water:** Illuminates when the water reservoir needs refilling.
- **Clean:** Activates the self-cleaning cycle.

4.2 Ice Production

After filling the water reservoir and plugging in the unit, press the 'Ice' button to begin the ice-making process. The machine is designed to produce up to 84 sphere-shaped ice pieces per day. The first batch of ice spheres is typically ready within 30 minutes.

ARTISANAL SPHERE SHAPED ICE MAKER

PRODUCES UP TO 84 SPHERES OF ICE DAILY

Image: The Frigidaire EFIC240 ice maker on a countertop, with sphere-shaped ice visible in its transparent window. Next to it, a wine glass contains a single sphere ice, and another sphere ice rests on the counter.

FAST ICE PRODUCTION

Produces up to 84 beautifully crafted ice spheres daily, with the first spheres ready in just 30 minutes

Image: The Frigidaire EFIC240 ice machine with its front ice collection drawer partially open, revealing several sphere-shaped ice pieces inside.

4.3 Ice Collection

The ice maker features a transparent viewing window and a convenient drawer for accessing the ice. The ice basket has a capacity for approximately 10 sphere ice pieces. When the 'Ice Full' indicator illuminates, the ice production will pause until ice is removed.

Image: A hand using ice tongs to retrieve a sphere-shaped ice piece from the ice basket of the Frigidaire EFIC240 ice machine. The image highlights the viewing window, automated self-cleaning feature, large ice basket, and included ice tongs.

4.4 Important Note on Ice Storage

This appliance is an ice maker, not a freezer. The ice produced will melt if left in the ice bin for extended periods. For long-term storage, transfer the ice spheres to a freezer immediately after production.

5. MAINTENANCE AND CLEANING

5.1 Automated Self-Cleaning

The Frigidaire EFIC240 is equipped with an automatic self-cleaning function to ensure fresh-tasting ice and maintain optimal hygiene. To activate, ensure the water reservoir is filled, then press the 'Clean' button on the control panel. Follow any on-screen prompts or refer to the full instructions in the detailed product manual (if provided separately).

5.2 Regular Cleaning

For best performance and hygiene, regular manual cleaning is recommended:

- **Exterior:** Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Water Reservoir:** Periodically drain and rinse the water reservoir. Use a mild detergent and warm water if necessary, then rinse thoroughly.
- **Ice Bin and Scoop:** Wash the ice bin and scoop with warm, soapy water, then rinse and dry completely before returning to the unit.

5.3 Storage

If the ice maker will not be used for an extended period, perform a self-cleaning cycle, drain all water from the reservoir, and dry the interior thoroughly. Store the unit in a clean, dry place.

6. TROUBLESHOOTING

Review the following common issues and solutions before contacting customer support.

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; Power not connected; Unit malfunction.	Fill water reservoir; Ensure unit is plugged in and power is on; Contact support if problem persists.
'Add Water' indicator is on.	Water reservoir is empty or low.	Refill the water reservoir with potable water up to the maximum fill line.
'Ice Full' indicator is on.	Ice bin is full.	Remove ice from the bin. The unit will resume ice production automatically.
Ice melts quickly in the bin.	The unit is an ice maker, not a freezer.	Transfer ice spheres to a freezer for long-term storage immediately after production.
Unit is unusually loud during operation.	Normal operation noise; Obstruction in fan/pump.	Some operational noise is normal. Check for any obstructions or contact support if noise is excessive or unusual.

7. SPECIFICATIONS

Feature	Detail
Brand	Frigidaire
Model Name	EFIC240
Product Dimensions (D x W x H)	16.75" x 9.76" x 16.26"
Ice Production Capacity	Up to 84 sphere ice pieces per day
Voltage	115 Volts
Refrigerant	R290a
Manufacturer	Curtis International Ltd

Feature	Detail
UPC	058465834692
Material	Plastic
Item Weight	27 pounds
Included Components	Icemaker, Ice Bin, Ice Scoop, Drip Tray
Color	Grey

8. WARRANTY INFORMATION

For detailed warranty information, please refer to the warranty card included with your product or visit the official Frigidaire website. Keep your purchase receipt as proof of purchase for any warranty claims.
