VEVOR WK320017

VEVOR Shower Corner Caddy Tension Pole User Manual

Model: WK320017

INTRODUCTION

The VEVOR Shower Corner Caddy Tension Pole is designed to provide efficient and organized storage in your bathroom or washroom. This multi-functional tension pole features an adjustable height range from 56 inches to 114 inches, allowing it to adapt to various ceiling heights. Constructed from rust-proof stainless steel, it ensures durability and long-lasting performance in wet environments. The innovative buckle locking device simplifies installation and provides strong load-bearing support for your toiletries.

SAFETY INFORMATION

- **Installation Surface:** Ensure the installation surface (floor and ceiling) is flat, stable, and capable of supporting the tension pole and its contents. Do not install on slanted or suspended ceilings, as this may compromise stability and lead to collapse.
- **Load Capacity:** Do not exceed the maximum load-bearing capacity of 11.9 lbs (5.4 kg) per tray. Overloading can cause the caddy to become unstable or detach.
- **Secure Placement:** After installation, verify that the pole is firmly tensioned between the floor and ceiling. Periodically check the tension to ensure continued stability.
- **Children and Pets:** Keep small children and pets away from the tension pole during installation and ensure it is securely installed to prevent accidental tipping or injury.
- **Maintenance:** Regularly inspect the pole and trays for any signs of wear, damage, or corrosion. Replace any damaged

components immediately.

PACKAGE CONTENTS

Before beginning assembly, please verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact VEVOR customer support.

- 1 x 11.5" x 8.4" x 2.7" / 292 x 213 x 71 mm Tray 1
- 1 x 11.5" x 8.4" x 4" / 292 x 213 x 101 mm Tray 2
- 2 x 10.4" x 7.6" x 2.8" / 264 x 193 x 71 mm Tray 3
- 1 x Toothbrush Holder
- 1 x \varnothing 0.8" x 12.6" / 22 x 320 mm Support Rod 1
- 1 x \varnothing 1" x 18.8" / 25 x 480 mm Support Rod 2
- 5 x \varnothing 1" x 18.5" / 25 x 471.6 mm Support Rod 3
- 2 x Non-Slip Base
- 4 x Buckles
- 1 x User Manual

HOLE-FREE INSTALLATION

Not Easy to Slip & Damage the Wall

SETUP AND INSTALLATION

Follow these steps for a secure and stable installation of your VEVOR Shower Corner Caddy Tension Pole. No tools are required for assembly.

1. **Assemble the Pole:** Connect the various support rod sections together to achieve the desired height. Ensure all connections are secure. The pole is adjustable from 56" to 114" high.

ADJUSTABLE HEIGHT FROM 56" TO 114"

Available for Any Corner of
Your Bathroom

From 56" To 114"

Figure 3: The tension pole's adjustable height range and suitability for various bathroom corners.

2. **Attach Non-Slip Bases:** Securely attach the non-slip bases to both ends of the assembled pole. These bases provide stability and prevent slipping.
3. **Position the Pole:** Place the top non-slip base against the ceiling in your desired corner. Ensure the bottom non-slip base is firmly on the floor.
4. **Tension the Pole:** Push the bottom section of the pole downwards while twisting the upper section. This action engages the internal spring mechanism, creating tension between the floor and ceiling. Continue until the pole is firmly secured and stable.

BUILT OF RUST-PROOF MATERIAL

Waterproof, Corrosion-Resistant & Durable

Figure 4: Illustration of the tensioning mechanism and non-slip base for secure, hole-free installation.

5. **Install Buckles:** Attach the buckle clips to the pole at your desired heights for the trays. The innovative buckle design allows for easy and secure attachment.
6. **Attach Trays:** Slide the trays onto the installed buckle clips. Ensure they click into place securely. You can adjust the height of each tray by pressing the release button on the buckle and sliding the tray up or down.

7. **Add Accessories:** Attach the toothbrush holder and towel rack to the trays as desired.

OPERATING INSTRUCTIONS

Once installed, the VEVOR Shower Corner Caddy is ready for use. Its multi-layer design provides ample storage for various items.

- **Placing Items:** Distribute items evenly across the four spacious trays to maintain balance and stability. The raised guardrails on each tray help prevent items from falling.
- **Adjusting Tray Height:** To reposition a tray, simply press the release button on its buckle and slide the tray to the desired height. Release the button to lock it in place.
- **Using Accessories:** Utilize the dedicated toothbrush holder for toothbrushes and toothpaste, and the towel rack for small towels or washcloths.

MAINTENANCE

To ensure the longevity and appearance of your VEVOR Shower Corner Caddy, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the stainless steel pole and trays regularly with a soft cloth and mild soap or a non-abrasive bathroom cleaner. Rinse thoroughly with water to remove any soap residue.
- **Drying:** The trays are designed with drainage holes to prevent water pooling. Ensure proper ventilation in your shower area to allow the caddy to dry completely after use, which helps maintain its rust-proof properties.
- **Inspection:** Periodically check the tension of the pole and the security of the trays. If the pole feels loose, re-tension it as described in the "Setup and Installation" section.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, scouring pads, or harsh chemical solutions, as these can damage the finish and compromise the rust-proof coating.

TROUBLESHOOTING

If you encounter any issues with your VEVOR Shower Corner Caddy, refer to the following common problems and their solutions:

Problem	Possible Cause	Solution
Pole is not stable or keeps falling.	Insufficient tension; improper assembly of pole sections; uneven installation surface.	Ensure all pole sections are securely connected. Re-tension the pole by pushing down on the bottom section and twisting the top section until it is firmly secured. Verify that the floor and ceiling surfaces are flat and suitable for tension mounting.
Trays slide down or are not secure.	Buckle not properly engaged; tray overloaded.	Ensure the buckle is fully closed and locked onto the pole. Reduce the weight on the tray if it exceeds the 11.9 lbs (5.4 kg) maximum load capacity.

Problem	Possible Cause	Solution
Pole height does not match shower space.	Incorrect number of pole sections used.	The pole's height is adjusted by adding or removing sections. If your shower height falls between standard section lengths, you may need to adjust the combination of sections to achieve the best fit. The tension mechanism provides fine-tuning within a small range.
Rust spots appear on the caddy.	Accumulation of water or soap residue; damage to protective coating.	Clean the caddy regularly and ensure it dries completely. Avoid using abrasive cleaners or tools that could scratch the surface. If damage occurs, consider applying a rust-inhibiting clear coat suitable for stainless steel.

SPECIFICATIONS

Feature	Detail
Model Number	WK320017
Brand	VEVOR
Material	Stainless Steel
Color	Black
Adjustable Height Range	56" to 114" (142.24 cm to 289.56 cm)
Product Dimensions (D x W x H)	12.7" x 9.1" x 114" (32.3 cm x 23.1 cm x 289.56 cm)
Net Weight	4.5 lbs (2.05 kg)
Maximum Weight Recommendation	11.9 lbs (5.4 kg) per tray
Number of Trays	4
Special Features	Adjustable Height, Rust-Proof, Innovative Buckle Design, Strong Load-Bearing, Draining Trays, Hole-Free Installation
