## SETUP AND USAGE

The GROWNSY Baby Carrier is designed for easy and intuitive use. Follow these steps to ensure a secure and comfortable fit for both you and your baby.

### Wearing the Carrier

1. **Secure the Waistbelt:** Wrap the waistbelt around your natural waist. Fasten the buckle securely. Ensure it is snug but comfortable.
2. **Position the Main Panel:** The main panel of the carrier should hang down in front of you, like an apron.
3. **Insert Baby:** Gently place your baby into the carrier, ensuring their legs are in the ergonomic "M" position (knees higher than bottom).
4. **Shoulder Straps:** Bring one shoulder strap over your shoulder. The straps are designed to cross over your back for even weight distribution.
5. **Fasten Back Buckle:** Reach behind you and fasten the back buckle, connecting the two shoulder straps. Adjust for a snug fit.
6. **Adjust Fit:** Tighten all straps (shoulder and waist) until the carrier feels secure and the baby is snug against your body. Ensure the baby's airway is clear and visible.

## Adjustable Head & Neck Support

The carrier features a foldable head and neck support pad. For newborns or sleeping babies, keep the pad extended for full head support. For older babies who can hold their head up, you can fold the pad down by unsnapping the buttons, allowing them more visibility.

## Carrying Positions

The GROWNSY Baby Carrier supports both inward-facing (for newborns and younger infants) and outward-facing (for older infants with good head control) positions. Adjust the head support as needed for each position.
