

BTHFST 8 Drawers

BTHFST 8-Drawer White Dresser User Manual

Model: 8 Drawers | Brand: BTHFST

INTRODUCTION

Thank you for choosing the BTHFST 8-Drawer White Dresser. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read it thoroughly before beginning assembly and keep it for future reference.

This modern dresser features eight spacious drawers, a sturdy engineered wood construction, and a clean white finish, designed to complement various room styles including bedrooms, living rooms, closets, hallways, and entryways.

IMPORTANT SAFETY INFORMATION

- **Anti-Tipping Device:** Always install the included anti-tipping device to prevent serious injury from furniture tip-over. This is crucial for households with children.
- **Assembly:** Assemble the dresser on a soft, clean surface to prevent scratches. Ensure all parts are present and undamaged before starting.
- **Weight Capacity:** Do not overload drawers or the top surface. Refer to specifications for weight limits.
- **Stability:** Place the dresser on a level surface. Uneven surfaces can compromise stability.
- **Children Safety:** Do not allow children to climb on drawers or the dresser. Keep small parts away from children during assembly.

PACKAGE CONTENTS

Your BTHFST 8-Drawer Dresser package typically contains two boxes. Please verify all components against the parts list provided in your assembly instructions before beginning. If any parts are missing or damaged, contact customer service immediately.

PRODUCT DIMENSIONS

Please Note:

Your order contains 2 packages and may arrive on separate days

This image displays the overall dimensions of the dresser and indicates that the product ships in two separate packages, which may arrive on different days.

SETUP AND ASSEMBLY

Assembly is required for this dresser. Please follow the detailed instructions provided in the separate assembly manual included with your product. All necessary tools are typically included. For optimal results, two people are recommended for assembly.

Key Assembly Features:

- **Premium Metal Slide Rails:** Ensure smooth and quiet operation of the drawers. Install according to the assembly guide.
- **Handy Curved Handles:** The integrated curved handles are part of the drawer front design.

This image highlights the design of the handy curved handles and the premium metal slide rails, which contribute to the smooth functionality of the drawers.

OPERATING INSTRUCTIONS

The BTHFST 8-Drawer Dresser is designed for convenient storage. To operate the drawers, simply pull the integrated curved handle to open and push to close. The premium metal slide rails ensure smooth movement.

Storage Capacity:

Each of the eight drawers offers ample space for organizing various items such as clothing, accessories, toys, and more. The large tabletop can also be used for decorative items, photos, or lamps.

CARE AND MAINTENANCE

- **Cleaning:** Wipe the dresser surface with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as they may damage the finish.
- **Spills:** Clean spills immediately to prevent staining.
- **Sunlight:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration.
- **Humidity:** Maintain a stable humidity level in the room to prevent warping or cracking of the engineered wood.
- **Drawer Rails:** Periodically check the metal slide rails for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers do not slide smoothly.	Misaligned rails, debris in rails, or lack of lubrication.	Check rail alignment and tighten screws. Clean rails of any debris. Apply a small amount of silicone lubricant to the rails.
Dresser feels unstable or wobbly.	Uneven floor, loose assembly screws, or anti-tipping device not installed.	Ensure the dresser is on a level surface. Tighten all assembly screws. Install the anti-tipping device securely to the wall.
Drawer does not close completely.	Obstruction in the drawer, misaligned rails, or overloaded drawer.	Remove any obstructions. Check and adjust rail alignment. Reduce the load in the drawer.
