Coleman 2214183

Coleman Pro Heavy-Duty 25-Quart Hard Cooler

MODEL: 2214183

INTRODUCTION

This manual provides essential information for the proper use and care of your Coleman Pro Heavy-Duty 25-Quart Hard Cooler. Designed for durability and extended cooling performance, this cooler is suitable for various outdoor activities. Please read these instructions thoroughly to ensure optimal performance and longevity of your product.

KEY FEATURES

- **36-Can Capacity:** Holds up to 36 cans without ice, providing ample storage for beverages.
- **3-Day Ice Retention:** Features a fully insulated lid and body with extra-thick walls (up to 2 inches) to maintain cold temperatures for up to 3 days.
- **Lightweight Design:** Approximately 15% lighter than rotomolded coolers of comparable capacity, enhancing portability.
- **Padded Carrying Strap:** Allows for comfortable transport of the cooler, even when fully loaded.
- **Stainless Steel Latch:** Enables one-handed opening and secure closing of the lid.
- **Oversized Drain Plug:** An extra-wide, attached drain plug facilitates fast and easy emptying without the risk of misplacing the plug.
- **Have-A-Seat Lid:** The sturdy lid is designed to support weight, serving as an additional seating option.
- **Non-Slip Feet:** Provides stability and prevents the cooler from sliding during transport or use.
- **Tie-Down Slots:** Integrated slots allow for secure fastening of the cooler.

- **Antimicrobial Liner:** Helps prevent the growth of odor-causing bacteria, mold, and mildew.

SETUP

Initial Cleaning

1. Before first use, wash the interior and exterior of the cooler with mild soap and warm water.
2. Rinse thoroughly and dry completely.
3. Ensure the drain plug is securely closed before adding contents.

Pre-Chilling (Recommended)

For optimal ice retention, pre-chill your cooler before loading it with food and beverages. This can be done by:

- Placing a bag of ice or ice packs inside the empty cooler for several hours prior to use.
- Storing the cooler in a cool environment overnight.

OPERATING INSTRUCTIONS

Loading the Cooler for Maximum Ice Retention

- **Use Block Ice:** Block ice melts slower than cubed ice. A combination of both can be effective.
- **Pack Tightly:** Minimize air space inside the cooler by packing items closely. Use towels or crumpled newspaper to fill gaps if necessary.
- **Layering:** Place a layer of ice at the bottom, then add items, and cover with more ice. Cold air sinks, so a top layer of ice is crucial.
- **Pre-Chilled Items:** Ensure all items placed in the cooler are already cold. Adding warm items will melt the ice faster.
- **Limit Opening:** Open the lid only when necessary and close it quickly to prevent cold air from escaping.

Stays Cold

Fully insulated lid and body designed to keep food and drinks cold up to 3 days

**FITS UP TO
36 CANS**

Using the Drain Plug

The oversized drain plug is located on the side of the cooler for convenient water removal.

1. To drain water, unscrew the cap of the drain plug.
2. Tilt the cooler slightly to facilitate complete drainage.
3. Once drained, securely screw the cap back onto the plug to prevent leaks.

Utilizing the Have-A-Seat Lid

The robust lid of the Coleman Pro Hard Cooler is designed to function as an extra seat. Ensure the cooler is placed on a stable, flat surface before using the lid for seating.

Securing the Cooler

The cooler includes tie-down slots for secure transport. Use appropriate straps (not included) to fasten the cooler in vehicles, boats, or other locations to prevent movement.

MAINTENANCE

Cleaning

Regular cleaning helps maintain the cooler's performance and hygiene.

- After each use, empty all contents and drain any melted ice water.
- Wash the interior and exterior with mild soap and warm water. A soft cloth or sponge is recommended.
- For stubborn stains or odors, a solution of baking soda and water can be used.
- Rinse thoroughly with clean water.
- Allow the cooler to air dry completely with the lid open to prevent mildew and odors.
- The antimicrobial liner helps prevent odor, mildew, and mold, but regular cleaning is still essential.

COLEMAN PRO HARD COOLER FEATURES

Stays Cold Up To

5 Days

Fully insulated lid and body designed to keep food and drinks cold up to 5 days.

Image: The cooler's interior, featuring the antimicrobial liner designed to inhibit the growth of odor-causing bacteria.

Storage

Store the cooler in a cool, dry place with the lid slightly ajar to allow for air circulation and prevent moisture buildup.

TROUBLESHOOTING

- **Issue: Ice melts too quickly.**
Solution: Ensure the cooler was pre-chilled. Use block ice or a higher ice-to-content ratio. Minimize lid openings. Ensure the lid latch is securely closed.
- **Issue: Lid does not seal properly.**
Solution: Check for any debris or obstructions around the lid gasket. Ensure the latch is fully engaged.
- **Issue: Unpleasant odor inside the cooler.**
Solution: Thoroughly clean the cooler with mild soap and water, then rinse and air dry with the lid open. For persistent odors, use a baking soda and water paste, let it sit, then rinse.

SPECIFICATIONS

Feature	Detail
Brand	Coleman
Model Name	Cooler
Item Model Number	2214183
Capacity	25 Quarts (approximately 25 Liters)
Can Capacity	36 cans (without ice)
Ice Retention	Up to 3 days
Material	Plastic
Color	Blue Sky
Item Weight	11 pounds (approximately 5 Kilograms)
Product Dimensions	13.78 x 17.72 x 17.72 inches
Special Features	Antimicrobial, Insulated, Leak Proof, Spacious
Recommended Uses	Boating, Camping, Fishing, Picnic, Tailgating
