sharge P2

sharge Power Bank 10000mAh 30W Portable Charger (Model P2) User Manual

1. PRODUCT OVERVIEW

The sharge P2 Power Bank is a compact and powerful 10000mAh portable charger designed for various electronic devices. It features 30W fast charging capabilities, a built-in USB-C cable, and additional USB-C and USB-A ports for versatile charging. Its design prioritizes portability and convenience, making it suitable for travel and daily use.

Image 1.1: The sharge P2 Power Bank, showcasing its compact design and built-in cable.

Key Features:

- **30W Fast Charging:** Supports two-way quick charging for compatible devices.
- **Built-in USB-C Cable:** Integrated cable for convenient charging and recharging.
- **Multiple Ports:** Includes one built-in USB-C cable, one USB-C port, and one USB-A port for charging up to three devices simultaneously.
- **10000mAh Capacity:** Provides multiple charges for smartphones and other small devices.
- **Portable Design:** Lightweight and compact, ideal for travel.
- **Airline Safe:** Complies with airline regulations for portable power banks.

2. SETUP

2.1 Initial Charging of the Power Bank

Before first use, fully charge your sharge P2 Power Bank. The power bank can be recharged using its built-in USB-C cable or the dedicated USB-C port. Connect the power bank to a compatible 30W power adapter (not included) for optimal charging speed. A full charge typically takes approximately 3.5 hours.

2.2 Power Indicator

The power bank uses an LED ring around the power button to indicate its charge level. Refer to the device's packaging or quick start guide for specific interpretations of the LED light patterns (e.g., solid, blinking, color changes) to understand the current battery status.

3. OPERATING INSTRUCTIONS

3.1 Charging Your Devices

The sharge P2 Power Bank allows you to charge up to three devices simultaneously using its built-in USB-C cable, the additional USB-C port, and the USB-A port.

- **Using the Built-in USB-C Cable:** Extend the built-in USB-C cable and connect it directly to your compatible device (e.g., iPhone 15/16/17, Galaxy S25, iPad, Pixel 9).
- **Using the USB-C Port:** Connect a separate USB-C to USB-C cable (not included) to the power bank's USB-C port and then to your device.
- **Using the USB-A Port:** Connect a standard USB-A cable (not included) to the power bank's USB-A port and then to your device.

3.2 Low Current Mode for Small Devices

For charging low-power devices such as wireless earbuds (e.g., AirPods) or smartwatches (e.g., Apple Watch), it may be necessary to activate the power bank's Low Current Mode. This mode ensures a stable and appropriate charging current for devices with smaller battery capacities, preventing the power bank from automatically shutting off due to low power draw. Refer to the specific instructions provided with your power bank for how to activate this mode, typically involving a double-press or long-press of the power button.

4. MAINTENANCE

To ensure the longevity and optimal performance of your sharge P2 Power Bank, follow these maintenance guidelines:

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Avoid using harsh chemicals or abrasive materials.
- **Avoid Moisture:** Do not expose the power bank to water or high humidity.
- **Handle with Care:** Avoid dropping or subjecting the power bank to strong impacts.

5. TROUBLESHOOTING

If you encounter issues with your sharge P2 Power Bank, refer to the following common troubleshooting steps:

- **Power Bank Not Recharging:**
 - Ensure the charging cable (built-in or external) is securely connected to both the power bank and the power adapter.
 - Verify that the power adapter is functioning correctly and connected to a live power outlet.
 - Try using a different power adapter or cable to rule out a faulty accessory.
- **Devices Not Charging or Charging Slowly:**
 - Check that the power bank has sufficient charge indicated by the LED ring.
 - Ensure all cables are securely connected to both the power bank and the device.
 - For low-power devices (e.g., earbuds, smartwatches), activate the Low Current Mode as described in Section 3.2.
 - If charging is slow, ensure your device and cable support fast charging, and that the power bank is adequately charged.
 - Try using a different port on the power bank or a different charging cable.
- **Power Bank Automatically Shuts Off:**
 - This can occur if the connected device draws very low current. Activate Low Current Mode for such devices.
 - Ensure the power bank is not overheating. Disconnect devices and allow it to cool down if it feels excessively warm.

6. SPECIFICATIONS

Model Name	P2
Brand	sharge
Battery Capacity	10000 Milliamp Hours

Connector Type	USB Type A, USB Type C
Number of Ports	2 (plus 1 built-in cable)
Output Current	3 Amps
Voltage	20 Volts
Power Source	Corded Electric
