INSTALLATION GUIDE

Proper installation is crucial for the safety and functionality of your Cumbor Baby Gate. This gate requires drilling for secure hardware mounting.

Before You Begin:

- **Measure Your Opening:** Ensure your opening is between 29.2 and 43 inches wide. Measure both the top and bottom mounting points.
- **Gather Tools:** You will need an electric drill, appropriate drill bits (5/64" for wood/drywall, 5/16" for concrete/brick), a stud finder (for drywall), a pencil, and a tape measure.
- **Identify Wall Material:** The type of wall material (drywall with stud, wooden wall, concrete, or brick) will determine the specific hardware and drill bits needed.

Step-by-Step Installation:

- 1. Position Templates:** Place the provided installation templates vertically on both sides of your opening. Ensure they are parallel and the distance to both edges is the same. The bottom of the template should be approximately 2 inches from the floor.
- 2. Mark Drill Holes:** Using a pencil, mark the 5 designated drill holes on each template.
- 3. Pre-Drill Holes:** Remove the templates. Using the appropriate drill bit for your wall material, pre-drill holes at the marked locations.
- 4. Install Mounting Brackets:** Secure the gate's mounting brackets to the wall using the provided screws. For drywall, ensure screws are anchored into studs. For concrete/brick, use wall anchors.
- 5. Attach Gate:** With assistance, lift the gate and align it with the installed mounting brackets. Secure the gate to the brackets using the remaining screws.
- 6. Adjust Width:** The gate features adjustable panels. Loosen the hexagon screws on the gate's top and bottom bars, slide the panels to fit your opening width (29.2-43 inches), and then tighten the screws securely.
- 7. Adjust Height (if needed):** The metal pipe on the hinge side can be adjusted. Loosen the screws on the pipe slightly until it can be moved up and down. Align the two locks on the gate with the metal pipe's height to the same level, then tighten the screws firmly in place.
