# Dyson Airwrap i.d. Multi-Styler and Dryer User Manual

Model: 599017-01

Brand: Dyson

## Introduction and Overview

The Dyson Airwrap i.d. Multi-Styler and Dryer is engineered to provide versatile styling for straight to wavy hair. This innovative tool leverages the Coanda effect to style hair without relying on extreme heat, helping to prevent heat damage. The Airwrap i.d. is a connected device that can recommend a personalized curling routine based on your hair and styling profile, offering a more efficient and consistent styling experience.
It dries and styles simultaneously, making your routine faster and easier. The complete long version includes six versatile attachments tailored for straight and wavy hair types.

## Setup

To begin using your Dyson Airwrap i.d. and unlock its personalized features, follow these steps:

1. **Connect to the MyDyson™ app:** Download the MyDyson™ app on your mobile device. Hold your device close to the Airwrap i.d. to establish a Bluetooth® wireless connection. A flashing blue light on the device indicates it is ready for pairing.
2. **Set up your personalized hair profile:** Within the MyDyson™ app, you will be prompted to answer basic questions about your hair type (e.g., straight, wavy, curly, coily), length, and desired styling outcomes. This information helps the device tailor its settings.
3. **Power on your Dyson Airwrap i.d.™:** Slide your thumb up on the power button to begin the i.d. curl sequence. The device will intelligently adapt heat, airflow, and timings to match your personalized hair profile.

Once connected and set up, your Airwrap i.d. will tailor its settings to match your profile, ensuring optimal styling results.

## Operating Instructions

For best results, start with freshly washed hair. The Dyson Airwrap i.d. is designed to be used on damp hair, utilizing the Coanda effect for efficient styling.

1. **Pre-dry hair:** Use the Fast dryer attachment to take hair from damp to about 80% dry. This prepares your hair for styling with the other attachments.
2. **Select attachment:** Choose the appropriate attachment for your desired style. For defined curls, use the Conical barrel. For smoothing, use the Smoothing brush.
3. **Style simultaneously:** Power on your Dyson Airwrap i.d.™ and slide your thumb up on the power button to begin the i.d. curl sequence. The device will automatically adjust heat and airflow based on your personalized profile.
4. **Wrap, style, and set your curls:** The Coanda effect will attract and wrap hair around the barrel or brush, allowing for styling with minimal heat. For curls, hold the hair around the barrel until dry, then use the cool shot function to set the curl before releasing.

The device features a fast high-pressure motor and utilizes the Coanda effect to style hair without extreme heat, minimizing damage.

## Attachments Overview

The Dyson Airwrap i.d. Multi-Styler and Dryer Complete Long comes with a variety of attachments designed for different styling needs:

- **Conical barrel:** Engineered for defined curls, styling close to the root.
- **1.6" long barrel:** For creating voluminous curls and waves.
- **Large round volumizing brush:** Designed to create even more styles and add volume.
- **Soft smoothing brush:** For smoothing hair and reducing frizz.
- **Dryer + Flyaway smoother:** A versatile attachment that can be used for pre-drying hair and smoothing flyaways.
- **Fast dryer:** For quickly taking hair from wet to damp.
- **Filter cleaning brush:** To maintain the device's performance by cleaning the filter.

- **Dyson Airwrap i.d. multi-styler and dryer:** The main device body.
- **Presentation case:** A complimentary Dyson-designed case for storing and protecting your styler and attachments.

## Maintenance

Regular maintenance ensures optimal performance and longevity of your Dyson Airwrap i.d. Multi-Styler and Dryer:

- **Clean the filter:** The device includes a filter cleaning brush. Regularly clean the filter to prevent blockages and maintain consistent airflow. Refer to the app or included guide for detailed instructions on filter cleaning frequency and method.
- **Clean attachments:** Wipe down attachments with a soft, damp cloth after each use to remove any hair product residue. Ensure attachments are completely dry before storing.
- **Proper storage:** Store the Dyson Airwrap i.d. and its attachments in the provided presentation case to protect them from dust and damage.

## Troubleshooting

If you encounter any issues with your Dyson Airwrap i.d. Multi-Styler and Dryer, consider the following common troubleshooting steps:

- **Device not powering on:** Ensure the device is properly plugged into a functioning power outlet. Check the power switch on the device.
- **Weak airflow or overheating:** This often indicates a clogged filter. Refer to the maintenance section for instructions on how to clean the filter.
- **Attachments not working correctly:** Ensure the attachment is securely connected to the main device body. Check for any visible obstructions or damage to the attachment.
- **Connectivity issues with MyDyson™ app:** Ensure Bluetooth is enabled on your mobile device and the app is updated to the latest version. Try restarting both the device and the app.

For persistent issues, refer to the detailed troubleshooting guide within the MyDyson™ app or contact Dyson customer support.
