# Beliani Tela Shower Cabin 567871 Instruction Manual

Model: 567871 | Brand: Beliani

## 1. PRODUCT OVERVIEW

---

This manual provides instructions for the installation, operation, and maintenance of your Beliani Tela Shower Cabin. This shower cabin features tempered safety glass and double sliding doors, designed for modern bathrooms.

**Product Type:** Shower Cabin

**Main Material:** Tempered Safety Glass

**Secondary Material:** Aluminum

**Shape:** Square

**Door Opening:** Sliding

**Finish:** Glossy

## 2. SAFETY INFORMATION

---

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in injury or damage to the product.

- Always wear appropriate personal protective equipment (PPE) during installation, including safety glasses and gloves.
- Ensure the installation area is level and structurally sound to support the weight of the shower cabin (approximately 42 kg).
- Handle glass panels with extreme care. Tempered glass is strong but can shatter if struck at the

edges.

- Do not overtighten screws or fittings, as this can damage components.
- Keep children and pets away from the installation area.
- If you are unsure about any part of the installation process, consult a qualified professional.

### 3. PACKAGE CONTENTS

---

The package includes:

- 1 x Shower Cabin (glass panels, aluminum profiles, hardware)

**Note:** The shower tray and bath accessories are **not** included and must be purchased separately.

### 4. SETUP AND INSTALLATION

---

Installation and assembly are required for this product. The estimated assembly time is 90-120 minutes for two people.

#### 4.1 Pre-Installation Checks

- Verify all components are present and undamaged.
- Ensure the floor and walls where the cabin will be installed are clean, dry, and level.
- Confirm that the dimensions of your bathroom space accommodate the shower cabin (80 cm x 80 cm x 185 cm).

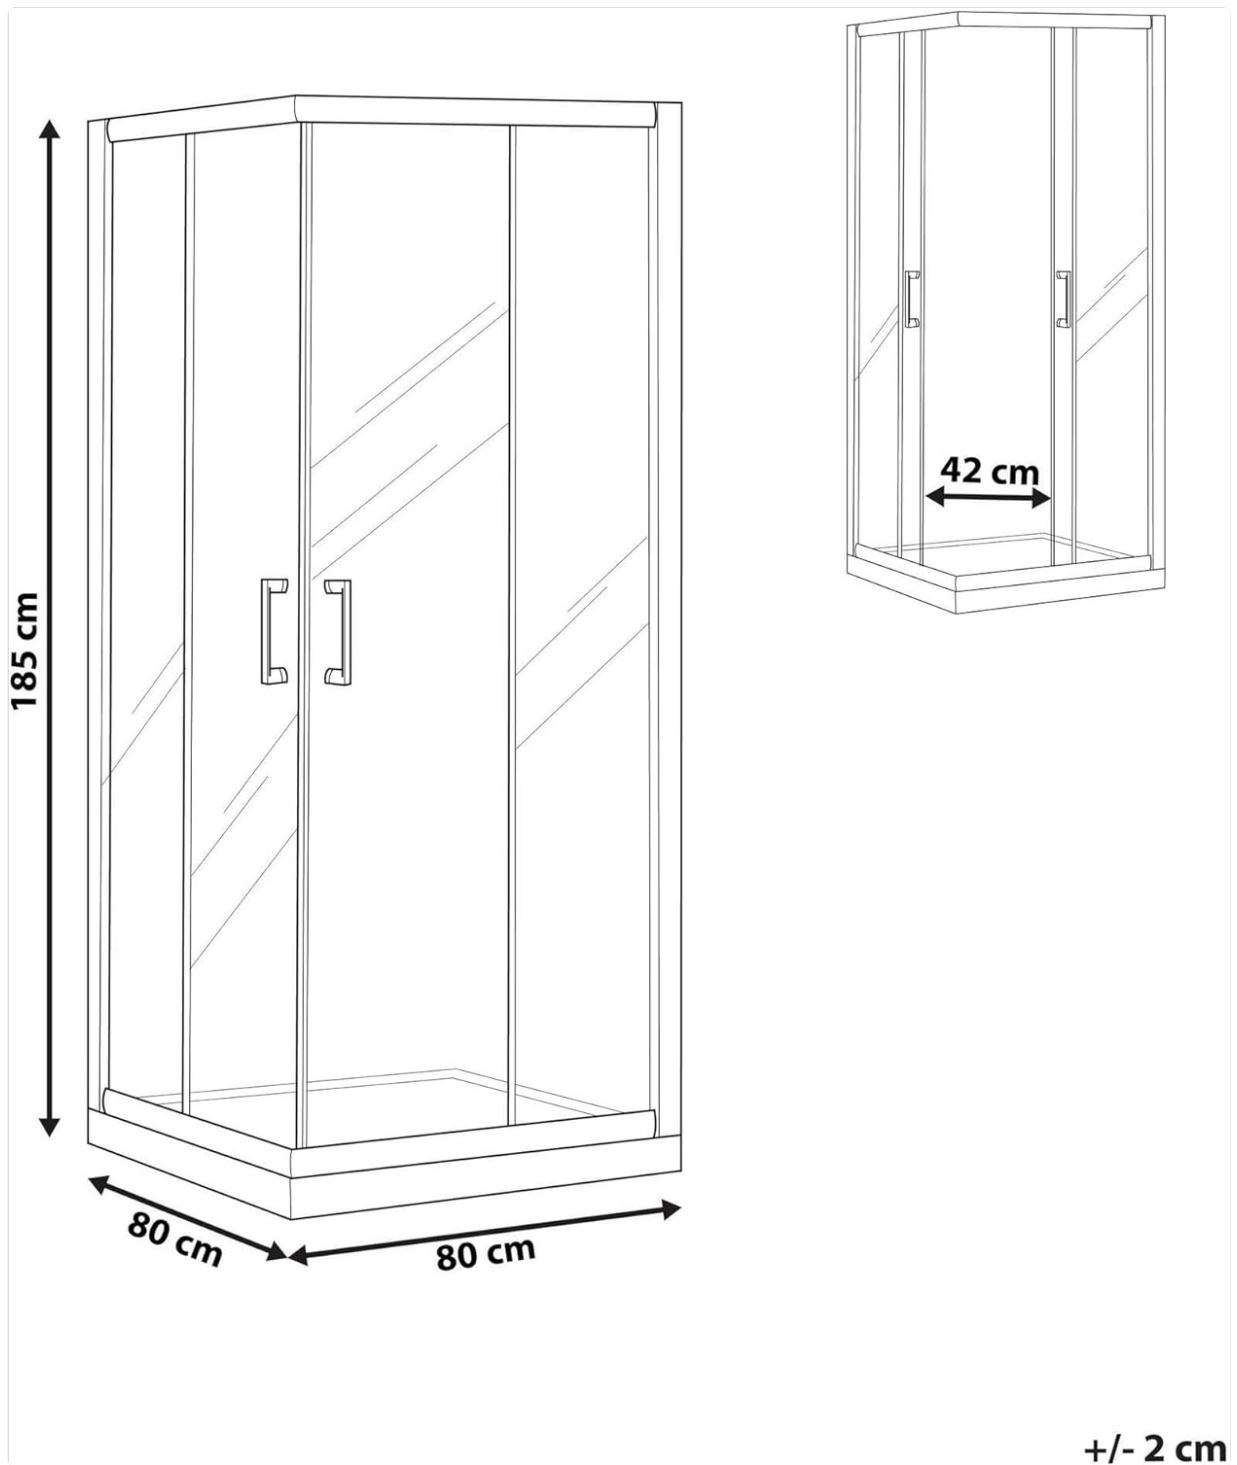

Image 2: Dimensional drawing of the shower cabin, indicating a width of 80 cm, a length of 80 cm, and a height of 185 cm.

#### 4.2 Assembly Steps (General Guidelines)

1. **Prepare the Base:** Install your shower tray (not included) according to its manufacturer's instructions, ensuring it is level and properly sealed.
2. **Assemble Frame:** Connect the aluminum profiles to form the frame of the shower cabin. Refer to the detailed assembly diagram provided in your physical manual for specific connections.
3. **Install Fixed Glass Panels:** Carefully insert the fixed glass panels into the designated channels of the aluminum frame. Secure them with the provided fasteners.
4. **Install Sliding Doors:** Mount the sliding door mechanisms and attach the sliding glass doors. Ensure they glide smoothly and align correctly.
5. **Attach Handles:** Secure the door handles to the sliding doors.
6. **Seal Joints:** Apply silicone sealant to all exterior joints between the shower cabin and the wall/shower tray to ensure a watertight seal. Allow adequate drying time before use.

Image 5: Close-up of the black, square-shaped handles on the sliding doors, designed for easy grip.

Image 6: Detail of the bottom corner connection, showing the secure fit of the glass panel into the frame.

## 5. OPERATING INSTRUCTIONS

---

The Beliani Tela Shower Cabin features double sliding doors for convenient access and to keep your bathroom dry.

- To open the doors, gently slide them along their tracks using the handles.
- To close the doors, slide them back until the magnetic strip engages, ensuring a secure and watertight seal.
- Avoid forcing the doors if they encounter resistance. Check for any obstructions in the tracks.

## 6. MAINTENANCE

---

Regular cleaning and maintenance will ensure the longevity and appearance of your shower cabin.

### 6.1 Tempered Safety Glass

- Clean with a soft cloth and a mild glass cleaner or glass conditioner.
- Wipe immediately after cleaning to prevent water spots.
- To avoid scratches, do not use abrasive cream cleaners or harsh scrubbing pads.

## 6.2 Aluminum Profiles

- Clean with a soft cloth and a mild detergent.
- Wipe thoroughly dry afterward to prevent water marks.
- To avoid scratches, do not use abrasive cleaners.
- For copper or chrome-plated elements (if applicable), use a specialized polishing product.

## 6.3 General Tips

- Regularly check the silicone seals for any signs of wear or damage and re-seal if necessary to prevent leaks.
- Keep the sliding door tracks clean and free of debris to ensure smooth operation.

## 7. TROUBLESHOOTING

This section addresses common issues you might encounter with your shower cabin.

Problem	Possible Cause	Solution
Water leakage from the cabin.	Damaged or improperly applied sealant; loose connections; worn door seals.	Inspect all silicone seals and reapply if necessary. Check that all frame connections are tight. Ensure door seals are clean and intact.
Sliding doors are stiff or do not move smoothly.	Debris in the tracks; misaligned rollers; damaged rollers.	Clean the door tracks thoroughly. Check rollers for alignment and adjust if needed. Replace any damaged rollers.
Doors do not close completely or seal properly.	Misaligned doors; magnetic strip issues; obstructions.	Adjust door alignment. Clean the magnetic strip and ensure it is free from obstructions.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact customer support.

## 8. SPECIFICATIONS

Feature	Detail
Brand	Beliani
Model Number	567871
