## SKKSource 5V USB-C Type C Adapter

# SKKSource 5V USB-C Type C Adapter Instruction Manual

For RENPHO Reach C007, R-C007, RC007 Muscle Massage Guns

## 1. PRODUCT OVERVIEW

---

This manual provides essential information for the safe and effective use of your SKKSource 5V USB-C Type C Adapter. This adapter is designed to provide reliable power for compatible devices, specifically the RENPHO Reach C007, R-C007, and RC007 Muscle Massage Guns.

**Image 1.1:** The SKKSource 5V USB-C Type C Adapter. This image displays the compact black adapter unit with its integrated USB-C cable, neatly coiled and secured with a hook-and-loop strap.

## 2. SAFETY INFORMATION

Your safety is paramount. Please read and adhere to the following safety guidelines before using the adapter.

- The adapter is manufactured with multiple smart features to safeguard against incorrect voltage (IV), short circuits (SC), and internal overheating (IO).
- It includes protection against overcharge, over voltage, short-circuit, over current, and over temperature.
- This charger is certified with CE and FCC standards, ensuring compliance with safety regulations.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Do not attempt to disassemble, modify, or repair the adapter. Refer servicing to qualified personnel.

- Ensure the adapter is used within its specified input voltage range (100-240V).

### 3. SETUP AND CONNECTION

Follow these steps to properly set up and connect your adapter:

1. Uncoil the integrated USB-C cable from the adapter unit.
2. Insert the adapter's prongs into a standard electrical wall outlet (100-240V AC).
3. Connect the USB-C end of the cable to the charging port of your compatible RENPHO Reach C007, R-C007, or RC007 Muscle Massage Gun.
4. Ensure both connections are secure.

**Image 3.1:** Adapter Dimensions and Cable Length. This image provides a side view of the adapter, illustrating its compact size and indicating a cable length of approximately 4 feet (L: 4 Ft).

#### 4. OPERATING INSTRUCTIONS (CHARGING)

Once connected, the adapter will begin charging your RENPHO muscle massage gun. The charging indicator on your massage gun (if present) will typically illuminate or change color to show that charging is in progress.

- Allow the device to charge fully before its first use or as recommended by the massage gun's own instruction manual.
- Disconnect the adapter from the massage gun once charging is complete to conserve energy.
- Always unplug the adapter from the wall outlet when not in use.

On a business trip

in the car

in the office

Exquisite and compact body,  
carry it with you to meet your needs

**Image 4.1:** Adapter in Use. This composite image shows the compact adapter being used in various settings, including on a business trip, during a travel vacation, in a car, and in an office, highlighting its portability and versatility.

## 5. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your adapter:

- **Cleaning:** Disconnect the adapter from both the power outlet and the device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and moisture. When storing, gently coil the cable without sharp bends or kinks to prevent damage.
- **Cable Care:** Avoid pulling the cable forcefully or bending it excessively, especially near the connectors, as this can damage the internal wiring. The high-quality copper core wire is designed for durability, but proper handling is still essential.

## 6. TROUBLESHOOTING

If you encounter issues with your adapter, consider the following:

- **Device Not Charging:**

- Ensure the adapter is securely plugged into a working wall outlet.
- Verify the USB-C cable is firmly connected to your massage gun.
- Check if the wall outlet is functional by plugging in another device.
- Confirm that your massage gun is indeed compatible with a 5V USB-C power input.

- **Slow Charging:**

- Ensure the cable is not damaged.
- Charging speed can be affected by the device's battery status or environmental factors.

- **Adapter Overheating:**

- While the adapter has over-temperature protection, if it feels excessively hot, unplug it immediately.
- Ensure adequate ventilation around the adapter and avoid covering it during use.

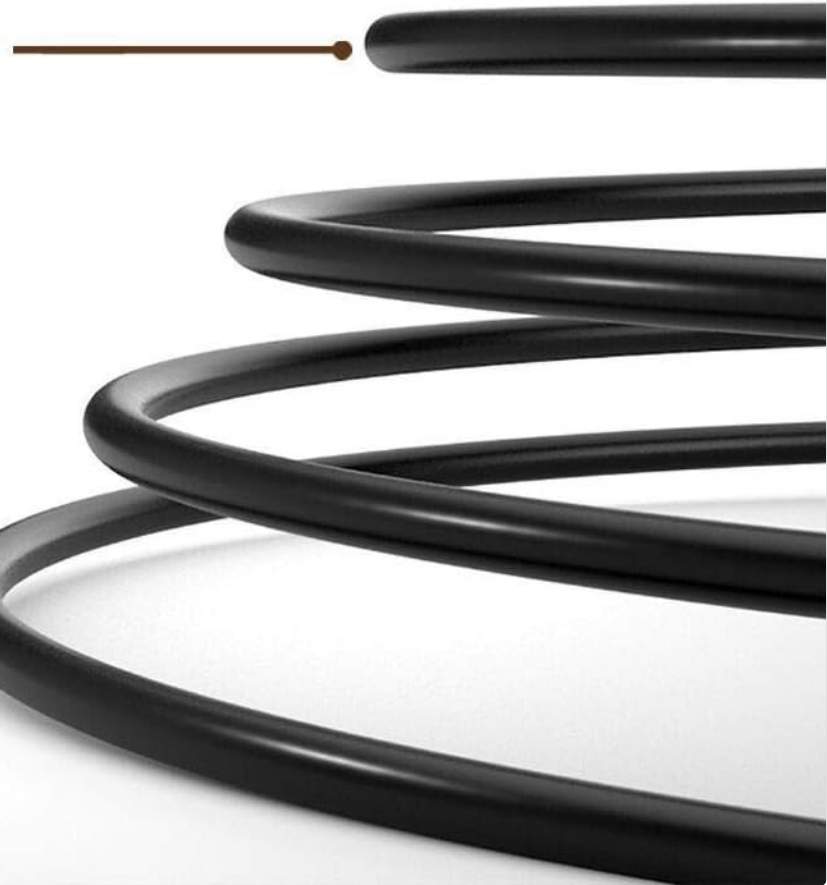

If problems persist after attempting these steps, please contact the seller for further assistance.

## 7. SPECIFICATIONS

<b>Brand</b>	SKKSource
<b>Model</b>	5V USB-C Type C Adapter
<b>Input Voltage</b>	100-240V AC
<b>Output Voltage</b>	5V DC (Nominal)
<b>Connector Type</b>	USB-C
<b>Cable Length</b>	Approximately 4 feet (1.2 meters)
<b>Material</b>	Composite, Metal, Plastic
<b>Color</b>	Black
<b>Manufacturer</b>	Shenzhen AiNaU Technological Co., Ltd
<b>Certifications</b>	CE, FCC

- Prevent Leakage and Breakdown
- Ensure Efficient Stable Current
- Strong Power Output
