Mirightone twin kids bed

Mirightone Twin Size Montessori Bed with Guardrails Instruction Manual

Model: twin kids bed

INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your Mirightone Twin Size Montessori Bed with Guardrails. Please read all instructions carefully before assembly and retain this manual for future reference.

SAFETY INFORMATION

Important Safety Warnings:

- Always follow the assembly instructions carefully to prevent instability or collapse.
- Do not exceed the weight limit of 250 lbs.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Keep small parts away from children during assembly to prevent choking hazards.
- Do not allow children to jump on the bed.
- The bed is designed with a low profile and guardrails for safety. Do not modify the structure.
- Ensure the mattress fits snugly within the frame to prevent gaps where a child could become entrapped.

PRODUCT FEATURES

- **Low to Ground Design:** The bed frame is positioned 5.5 inches from the floor, facilitating easy access for children and promoting independence.
- **Enhanced Safety Environment:** Features a fence with headboard, footboard, and side rails. Rounded corners and inward-set legs minimize bump hazards. Guardrail gaps are 2.8 inches to prevent pinch hazards.
- **Kids Sleep Transition Bed:** Versatile design allows for use as a standalone bed, a daybed, or positioned against a

wall. The right-side rails are removable to adapt to a child's changing needs.

- **Superior Quality Crafted:** Constructed from high-quality solid wood, plywood, and MDF for durability. Includes 9 reinforced plywood slats for stable mattress support.
- **Adaptable to Various Occasions:** Its functional design makes it suitable for children's bedrooms, guest rooms, or studies, especially where space is limited.

Manufacturer	Mirightones

Note: Mattress not included. Recommended mattress thickness: 6-8 inches.

ASSEMBLY INSTRUCTIONS

Please ensure all parts are present and undamaged before beginning assembly. It is recommended to assemble the bed with two adults.

Step 1: Unpack and Identify Components

Carefully unpack all components from the box. Lay them out on a soft, clean surface to prevent scratches. Refer to the included parts list to identify each piece and ensure nothing is missing.

Low to Ground Design

There is 5.5 inch from the kids bed frame to the floor which is low profile design makes this twin kids bed easy for your child to get in and out of bed on their own

5.5 inch

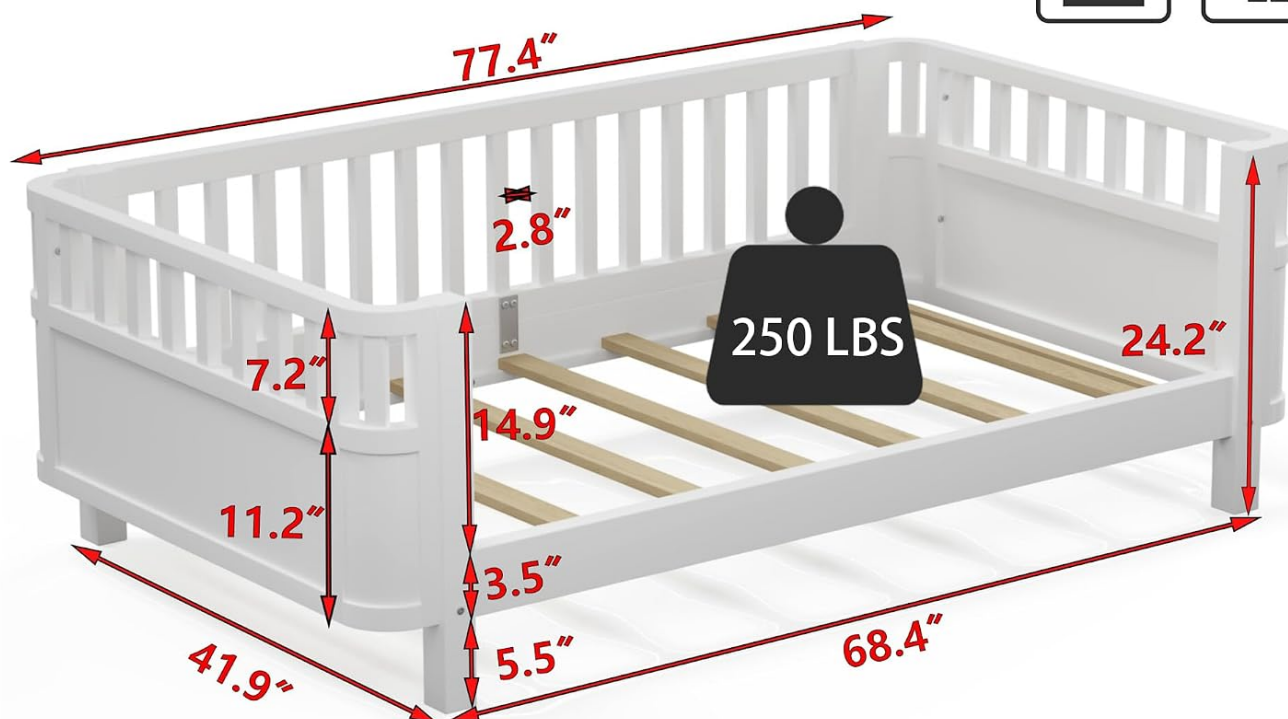

Image Description: An exploded diagram of the Mirightone Twin Size Montessori Bed, illustrating all individual components, their dimensions, and the maximum weight capacity of 250 lbs. The image also highlights the overall product dimensions: 77.4"L x 41.9"W x 24.2"H.

Step 2: Assemble the Bed Frame Base

Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are snug but do not overtighten until the frame is fully assembled.

Easy to assemble

Mattress not included

TWIN SIZE

Overall Product Dimension: 77.4L * 41.9W * 24.2"H

Recommend Mattress Thickness: 6-8 inch

Product Weight: N.W: 46.29 LBS G.W: 56.21 LBS

Image Description: A view of the fully assembled Mirightone Twin Size Montessori Bed frame, showcasing the sturdy wooden construction and the integrated slat support system. This image demonstrates the bed's robust design before a mattress is added.

Step 3: Install Slats

Place the wooden slats across the bed frame. Secure them according to the instructions to ensure proper mattress support and stability. The bed features 9 reinforced plywood slats.

3-Sided Guardrail

Provides additional safety to protect children during sleep.

As Platform Bed

The right side rails of the bed can be taken off when no need.

Image Description: A close-up view highlighting the low-to-ground design of the bed, showing the 5.5-inch clearance from the floor. The image also details the wooden slats that provide mattress support, emphasizing the bed's accessibility and safety features.

Step 4: Secure Guardrails

Attach the guardrails to the bed frame. The bed is designed with a 3-sided guardrail system for enhanced safety. Ensure all guardrail connections are firm.

Low height & fence design can prevent children from falling off the bed.

Semi-closed design help children fall asleep as a mate bed

Image Description: This image displays the bed's 3-sided guardrail system and its semi-closed design, which helps prevent falls and provides a secure sleeping environment. It shows the bed from an angle, emphasizing the protective barriers.

Step 5: Final Tightening and Inspection

Once all components are in place, go back and tighten all screws and fasteners completely. Do not overtighten. Inspect the entire bed frame to ensure it is stable and all parts are correctly aligned. The right-side rails can be removed if desired for a platform bed configuration.

Strong Wooden Construction

Sturdy & Noise free

Healthy

No Breaking

Sturdy

Image Description: An illustration of the bed's versatility, showing how the right-side rails can be removed to convert it into a platform bed. This highlights the adaptable design for different stages of a child's growth.

OPERATING AND USAGE

The Mirightone Montessori Bed is designed for children transitioning from cribs to independent sleeping. Its low-to-ground design allows children to safely enter and exit the bed on their own.

- **Independent Access:** The 5.5-inch height from the floor to the bed frame allows young children to easily climb in and out, fostering independence.
- **Guardrail Configuration:** The bed comes with three guardrails. The fourth side can be placed against a wall for added security, or the right-side rail can be removed to create an open platform bed style as your child grows.
- **Mattress Placement:** Use a twin-size mattress with a recommended thickness of 6-8 inches to ensure the guardrails provide adequate protection.

Kids Sleep Transition

Make the transition from co-sleeping to independent sleep

Image Description: A graphic illustrating the progression of a child's sleep development, from infancy to independent sleeping, emphasizing how the Montessori bed supports this transition. It shows a child sleeping comfortably in the bed.

MAINTENANCE

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the painted finish.
- **Regular Inspection:** Periodically check all bolts, screws, and fasteners to ensure they are tight. Re-tighten if necessary to maintain stability and safety.
- **Avoid Moisture:** Keep the bed away from excessive moisture or direct sunlight to prevent warping or fading of the wood.
- **Weight Limit:** Adhere strictly to the 250 lbs weight limit to prevent structural damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Bed feels wobbly or unstable	Loose fasteners or incorrect assembly.	Check all bolts and screws and tighten them securely. Review assembly steps to ensure all parts are correctly installed.
Squeaking noises	Loose connections or friction between wood parts.	Tighten all fasteners. If squeaking persists, apply a small amount of paraffin wax or silicone spray to contact points between wood pieces.
Mattress does not fit properly	Incorrect mattress size or thickness.	Ensure you are using a standard twin-size mattress. The recommended thickness is 6-8 inches.
Chemical smell from new bed	New product off-gassing from paint or materials.	Ventilate the room thoroughly. If possible, allow the bed to air out in a well-ventilated area (e.g., garage) for a few days before use.

WARRANTY AND SUPPORT

Return Policy: This product is covered by a 30-day return policy for refund or replacement.

Customer Support: For any questions, missing parts, or assistance, please contact Mirightone Customer Care. You can reach us via your Amazon Order Page:

1. Go to "Your Orders".
