## SETUP AND ASSEMBLY

---

Your YIZEMEIJIA 3-Door Shutter Wardrobe comes flat-packed and requires assembly. Please follow these general steps. Refer to the detailed assembly instructions included in your product packaging for specific diagrams and hardware identification.

1. **Unpack and Identify Parts:** Carefully unpack all components and hardware. Lay them out on a clean, soft surface. Compare all parts against the parts list provided in your assembly guide to ensure nothing is missing or damaged.
2. **Assemble the Base Frame:** Begin by assembling the base frame of the wardrobe according to the instructions. Ensure all connections are firm and stable.
3. **Attach Side Panels and Back Panel:** Securely attach the side panels to the base. Then, slide or fasten the back panel into place. This will start forming the main structure of the wardrobe.
4. **Install Internal Shelves and Hanging Rod:** Insert the fixed and adjustable shelves into their designated slots or attach them using the provided hardware. Install the hanging rod in the compartment designed for clothing.
5. **Assemble and Attach Doors:** Assemble the louvered doors. Attach the door hardware (handles, sliding mechanisms, hinges) as per the instructions. Carefully mount the doors onto the wardrobe frame. For sliding doors, ensure they glide smoothly along their tracks.
6. **Final Adjustments and Placement:** Once assembled, gently move the wardrobe to its desired location. Ensure it is level. If applicable, install anti-tip hardware to secure the wardrobe to the wall.
