## 1. INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your DWVO MADWVFaoCV Cat Litter Box Enclosure with Shelves. This multifunctional furniture piece is designed to discreetly house cat litter boxes while offering additional storage and a comfortable space for your cats. Please read this manual thoroughly before assembly and use to ensure proper function and longevity of the product.

## 2. SAFETY INFORMATION

---

Please observe the following safety precautions to prevent injury or damage to the product:

- Keep all small parts and packaging materials away from children and pets during assembly.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not overload the shelves or the top surface. Refer to the specifications for weight limits.
- Place the enclosure on a flat, stable surface to prevent tipping.
- Avoid exposing the product to excessive moisture or direct sunlight to prevent material degradation.

- This product is intended for indoor use only.

### 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

While a detailed parts list is not provided here, typically the package includes:

- Wooden panels (side panels, back panels, shelves, doors, top panel, base)
- Hardware pack (screws, dowels, hinges, magnetic catches, handles)
- Assembly instructions (this manual)

### 4. SETUP & ASSEMBLY

---

Assembly typically requires two adults and basic tools such as a screwdriver. Follow the steps carefully.

#### 4.1. Preparation

- Clear a spacious area for assembly.
- Lay out all components and hardware, identifying each piece.

#### 4.2. Assembly Steps (General Guide)

1. **Assemble the Base Unit:** Attach the side panels to the bottom panel and the central divider for the litter box compartments. Ensure the arched cat entryways are correctly oriented.
2. **Install Litter Box Doors:** Attach hinges to the lower doors and then to the base unit. Install handles and magnetic catches to secure the doors.
3. **Construct the Upper Storage Section:** Assemble the side panels, shelves, and the central cat bed compartment. The cat bed features a paw print design.
4. **Install Upper Cabinet Doors:** Attach hinges to the upper cabinet doors and then to the upper storage section. Install handles and magnetic catches.
5. **Attach Back Panels:** Secure the back panels to both the base and upper sections. Ensure ventilation holes are clear.
6. **Connect Upper and Lower Units:** Carefully align and secure the upper storage section onto the base unit.
7. **Final Checks:** Verify all connections are tight and the unit is stable.

# Cat Box Enclosure with Storage Cabinet

- ✓ Ample storage space
- ✓ Cat can move freely inside the cabinet
- ✓ Reasonably sized to fit most litter boxes
- ✓ High load-bearing capacity and durability

## 5. OPERATING INSTRUCTIONS

## 5.1. Placing Litter Boxes

Open the lower cabinet doors. Place standard-sized litter boxes into the two designated compartments. The internal dimensions of each compartment are approximately 16.7" L x 18.1" W x 19.7" H. Ensure there is enough space for your cat to comfortably enter and exit through the side arched openings.

Figure 5.1: The lower section accommodates two litter boxes, providing privacy for your cats.

## 5.2. Using Storage Cabinets

The upper section features two storage cabinets and an open shelf area. Use these for storing cat food, treats, toys, or other household items. The raised edges on the top surface help prevent items from falling off.

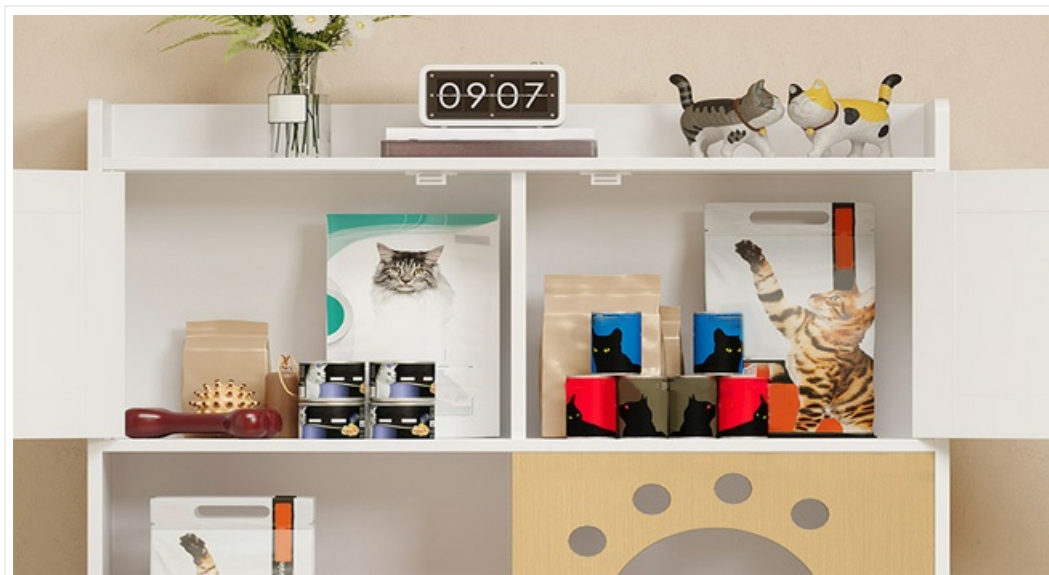

Figure 5.2: Upper cabinets provide convenient storage for various items.

## 5.3. Cat Bed Area

The central open compartment in the upper section is designed as a comfortable cat bed area. You may place a small cushion or blanket inside for your cat's comfort.

Figure 5.3: The integrated cat bed offers a cozy resting spot.

## 6. MAINTENANCE

---

### 6.1. Cleaning

The enclosure is made from engineered wood, which is designed for easy cleaning. Wipe down all surfaces with a damp cloth. For stubborn stains, a mild, non-abrasive cleaner can be used, followed by wiping with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaning tools that could damage the finish.

Regularly clean the litter box compartments to maintain hygiene and minimize odors. The integrated ventilation holes in the back panel assist in air circulation.

### 6.2. Inspection

Periodically inspect the enclosure for any signs of wear, loose fasteners, or damage. Tighten any loose screws. If significant damage occurs, discontinue use and consider replacement.

## 7. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Doors do not close properly or stay shut.	Misaligned hinges or magnetic catches.	Adjust hinge screws or reposition magnetic catches. Ensure the unit is on a level surface.
Unit feels wobbly or unstable.	Loose fasteners; uneven floor.	Tighten all assembly screws. Move the unit to a level surface or use shims if necessary.
Odor retention within the enclosure.	Infrequent cleaning; inadequate ventilation.	Increase frequency of litter box cleaning. Ensure ventilation holes are not blocked. Consider using odor-absorbing products inside the enclosure.

Problem	Possible Cause	Solution
Litter spills outside the enclosure.	Cat tracking litter; litter box too small or low-sided.	Use a litter mat at the entrance. Consider a litter box with higher sides.

## 8. SPECIFICATIONS
