Bextgoo BF-A10

Bextgoo 1440P Body Camera User Manual

Model: BF-A10 | Brand: Bextgoo

1. INTRODUCTION

Thank you for choosing the Bextgoo 1440P Body Camera. This device is designed for reliable video and photo recording in various situations, including personal security, outdoor activities, and professional use. It features high-definition recording, enhanced night vision, and a long-lasting battery. Please read this manual carefully to ensure proper use and maintenance of your device.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- Bextgoo Body Camera (x1)
- 64GB Memory Card (x1)
- Shoulder Clip (x1)
- USB Cable (x1)
- User Manual (x1)

Image: A police officer is shown reviewing footage on the 2-inch LCD screen of the Bextgoo Body Camera, demonstrating its immediate playback capability.

4. SETUP

- 1. Charging the Battery:** Before first use, fully charge the camera using the provided USB cable. Connect the USB cable to the camera's USB-C port and a power source. The charging indicator will show the charging status.
- 2. Inserting the Memory Card:** The camera comes with a pre-installed 64GB memory card. If you need to replace it, ensure

the camera is off, then open the memory card slot cover and insert a compatible micro SD card (up to 256GB, not included) with the contacts facing down.

3. **Attaching the Clip:** Secure the shoulder clip to the back of the camera. This allows for easy attachment to clothing or gear.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press and hold the Power button for a few seconds to turn the camera on or off.

5.2 Recording Video

From the main screen, press the Video Record button to start recording. Press it again to stop. The camera records in 1440P HD resolution.

5.4 Night Vision

The camera features enhanced IR cut night vision, providing clear images in low-light or dark conditions, up to 3 times clearer than standard night vision.

5.5 Loop Recording

When the memory card is full, the loop recording function automatically overwrites the oldest files, ensuring continuous recording

without manual deletion.

5.6 Timestamp

The camera can embed a customizable timestamp (date and time) onto your recordings. This feature can be toggled on or off in the settings menu.

5.7 Flashlight and Alarm

In emergency situations, you can activate the red flashing lights and a loud alarm with a single touch. The camera also has a bright white light that can be used as a flashlight in dark environments.

強力な懐中電灯とアラーム、 緊急時にワンクリックで起動

Image: The Bextgoo Body Camera is depicted with its emergency red and blue flashing lights activated, alongside an image demonstrating its use as a flashlight in a dark setting.

5.8 Viewing Footage

You can review recorded videos and photos directly on the 2-inch LCD screen. Navigate through your files using the control buttons.

6. CHARGING AND BATTERY

The Bextgoo Body Camera is equipped with a powerful 3500mAh battery, providing extended usage times. A full charge takes approximately 4 hours. Once fully charged, the camera can record video for 8-10 hours or take photos for up to 15 hours. The camera supports recording while charging, ensuring you don't miss critical moments due to low battery.

7. MAINTENANCE

- Keep the camera clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the camera to extreme temperatures or direct sunlight for prolonged periods.
- Ensure the USB-C port cover is securely closed when not charging to maintain waterproof integrity.
- Regularly back up your important recordings to a computer or external storage device.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera does not power on	Low battery; Device malfunction	Charge the battery fully; Contact customer support
Cannot record video/take photos	Memory card full; Memory card error; Incorrect mode	Check memory card storage or format; Ensure correct mode is selected
Poor night vision quality	Lens obstruction; Extreme darkness	Clean the lens; Ensure there is some ambient light if possible
Short battery life	Battery not fully charged; Frequent use of power-intensive features	Ensure full charge; Reduce use of flashlight/alarm if not needed
