

AGM AGM BUDS 3

AGM Buds 3 True Wireless Bluetooth Earbuds User Manual

Model: AGM BUDS 3

1. INTRODUCTION

Thank you for choosing the AGM Buds 3 True Wireless Bluetooth Earbuds. This manual provides detailed instructions on how to set up, operate, and maintain your earbuds to ensure optimal performance and longevity. Please read this manual thoroughly before using the product.

2. WHAT'S IN THE BOX

- AGM Buds 3 True Wireless Earbuds
- Wireless Charging Case
- Charging Cable
- User Manual

3. PRODUCT OVERVIEW

Image 3.1: AGM Buds 3 earbuds resting inside their open charging case. The earbuds are black with orange ear tips, and the case is black with an orange interior. The AGM Mobile logo is visible on the front of the case.

Image 3.2: The AGM Buds 3 charging case in a closed position, displaying its sleek black exterior with an orange LED indicator strip and the AGM Mobile logo.

Image 3.3: A close-up view of the two AGM Buds 3 earbuds, showcasing their black body and distinctive orange ear tips. The 'R' and 'L' markings for right and left earbuds are visible.

The AGM Buds 3 feature a compact design for comfortable in-ear wear. The charging case provides portable power, ensuring your earbuds are ready for use.

4. SETUP INSTRUCTIONS

4.1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case.

1. Place the earbuds into the charging case.
2. Connect the charging cable to the case's charging port and a USB power source.
3. The LED indicators on the case will show charging status. Once fully charged, the indicators will change or turn off.

A full charge provides approximately 20 hours of total playtime with the charging case.

4.2. Pairing with Your Device

Go the Distance with Bluetooth

Say goodbye to short-range frustrations! The AGM Buds 3 come with an extended Bluetooth range of over 10 meters. You can leave your device in the room and move freely while staying connected, enjoying a seamless audio experience.

Image 4.1: An image depicting an AGM Buds 3 earbud and its open charging case, accompanied by a wireless signal icon, illustrating the product's Bluetooth connectivity.

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), go to Bluetooth settings and enable Bluetooth.
3. Search for available devices and select "AGM BUDS 3" from the list.
4. Once connected, you will hear a confirmation tone, and the earbuds will be ready for use.

The earbuds feature Bluetooth 5.4 for a stable connection up to 10 meters.

5. OPERATING INSTRUCTIONS

5.1. Touch Controls

Tap & Go – Touch Control Made Easy

With the AGM Buds 3, control is literally at your fingertips. Want to pause the track, adjust the volume, or pick up a call? Just tap or press. No more fumbling with your phone—everything is smooth and effortless, right on the buds themselves.

Image 5.1: The AGM Buds 3 earbuds highlighting the touch control area with a fingerprint icon, indicating easy interaction for various functions.

The AGM Buds 3 utilize touch controls for various functions. Specific gestures may vary, but common controls include:

- **Single Tap:** Play/Pause music, Answer/End call.
- **Double Tap:** Next track (Right earbud), Previous track (Left earbud).
- **Triple Tap:** Activate voice assistant.
- **Long Press:** Reject call, Switch ANC/Transparency mode.

Refer to the quick start guide included in the packaging for detailed touch control mapping.

5.2. Active Noise Cancellation (ANC) and Environmental Noise Cancellation (ENC)

Block Out the World with ANC + ENC Combo

Image 5.2: An illustration of a person wearing an earbud, with circular sound waves emanating from the ear, symbolizing the noise cancellation effect.

The AGM Buds 3 feature Active Noise Cancellation (ANC) to reduce ambient noise, allowing for a more immersive audio experience. The noise cancellation depth is between -30 to -35 dB.

ANC lets you hear your favorite songs while blocking all the annoying background noises.

Image 5.3: Two images side-by-side. The left image shows people sitting at an outdoor cafe, and the right image shows a busy street scene. Text explains that ANC blocks background noise for music listening.

Environmental Noise Cancellation (ENC) is integrated to ensure clear voice transmission during calls by isolating your voice from surrounding noise.

Image 5.4: An earbud positioned next to a smartphone screen displaying an active video call, with text explaining that ENC ensures clear voice during calls by isolating your voice.

To toggle between ANC, Transparency Mode (if available), and Normal Mode, use the designated touch control gesture (typically a long press on one of the earbuds).

5.3. Battery Life

All Day Play

4 Hours

Music playback

6 Hours

Talk time

180 Days

Standby

Image 5.5: An infographic showing the battery performance of the AGM Buds 3: 4 hours for music playback, 6 hours for talk time, and 180 days for standby, with earbuds and sound waves depicted below.

The AGM Buds 3 offer up to 4 hours of music playback and 6 hours of talk time on a single charge. With the charging case, the total playtime extends to 20 hours. The standby time is approximately 180 days.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the earbuds and charging case. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged. Store in a cool, dry place.
- **Water Resistance:** The earbuds are not waterproof. Avoid exposure to excessive moisture or submersion in water.

7. TROUBLESHOOTING

Problem	Solution
Earbuds not pairing	Ensure earbuds are charged. Turn off and on your device's Bluetooth. Place earbuds back in case, close, then reopen to re-enter pairing mode.
No sound from one earbud	Check battery level of both earbuds. Try re-pairing the earbuds with your device.
Poor sound quality	Ensure earbuds are clean and properly seated in your ears. Move closer to your connected device to reduce interference.
Charging case not charging	Verify the charging cable and power adapter are working correctly. Ensure the cable is securely connected.

8. SPECIFICATIONS

- Model Name:** AGM BUDS 3
- Connectivity Technology:** Wireless, Bluetooth 5.4
- Wireless Communication Technology:** True Wireless, Bluetooth
- Noise Control:** Active Noise Cancellation (ANC)
- Noise Cancellation Depth:** -30 to -35 dB
