HOMSHADE 9FT 3-Tiers Outdoor Patio Umbrella

HOMSHADE 9FT 3-Tiers Outdoor Patio Umbrella

INSTRUCTION MANUAL

Introduction

Thank you for choosing the HOMSHADE 9FT 3-Tiers Outdoor Patio Umbrella. This manual provides essential information for the proper setup, operation, and maintenance of your new patio umbrella. Designed for durability and optimal shade, this umbrella enhances your outdoor living space with its advanced features and robust construction.

Key Features

- **3-Tier Vented Design:** The unique 3-tier top vents allow hot air to escape and cool breezes to circulate, enhancing stability against wind and providing a cooler environment underneath.
- **Premium Canopy Fabric:** Constructed from high-quality 220gsm solution-dyed fabric with UPF50+ anti-UV coating, offering 5-year fade resistance, 99.9% UV protection, and water-repellent properties.
- **High-Quality Frame:** Features a durable 8-rib steel alloy frame with a 1.5-inch pole. The 8 heavy-duty ribs are 20% thicker (12x18mm) for superior support and balance, capable of withstanding winds up to 30 MPH. Double powder-coated steel alloy surface ensures excellent rust resistance.
- **Easy Crank/Tilt Adjustment:** A smooth crank system allows for effortless opening and closing. The reinforced zinc alloy tilting mechanism provides 1.5X the hardness and 2X the tensile strength compared to aluminum alloy, doubling its service life.
- **Convenient Storage:** Includes strap ties on the canopy for secure and compact storage when the umbrella is folded.

Setup Instructions

- Unpack Components:** Carefully remove all parts from the packaging. Ensure all components are present: umbrella canopy with upper pole section, and lower pole section.
- Assemble Pole:** Connect the upper pole section (attached to the canopy) with the lower pole section. Ensure the push-button connector pin snaps securely into place.
- Insert into Base:** Place the assembled umbrella pole into a suitable patio umbrella base (base not included). Ensure the base is heavy and stable enough to support a 9ft umbrella, especially in windy conditions.
- Unstrap Canopy:** Release the strap ties that secure the folded canopy.

Operating Instructions

- Opening the Umbrella:** Locate the crank handle on the pole. Turn the crank clockwise to smoothly open the umbrella canopy until it is fully extended.
- Closing the Umbrella:** Turn the crank counter-clockwise to retract the canopy until it is fully closed. Secure the canopy with the strap ties for compact storage.
- Tilting the Umbrella:** To adjust the tilt, locate the push-button mechanism on the upper pole. Press the button and gently tilt the canopy to your desired angle. Release the button to lock the tilt in place.

Maintenance

- Cleaning:** Wipe the canopy and frame with a damp cloth as needed. For stubborn dirt, use a mild soap solution and rinse thoroughly. Allow to air dry completely before folding.
- Storage:** Always close and tie the umbrella when not in use or during extreme weather conditions (high winds, heavy rain, snow). For long-term storage, consider using a protective cover and storing in a dry, sheltered area.
- Inspection:** Periodically inspect the frame, ribs, and crank mechanism for any signs of wear or damage.

Troubleshooting

- Umbrella not opening/closing smoothly:** Check for any obstructions in the canopy or around the crank mechanism. Ensure the crank is clean and free of debris.
- Umbrella is unstable:** Verify that the umbrella pole is securely seated in a sturdy, weighted base. Ensure the base is appropriate for a 9ft umbrella. Always close the umbrella during high winds.
- Canopy fading:** While the canopy is fade-resistant for 5 years, prolonged exposure to intense sunlight can still cause some color degradation over time. Follow maintenance instructions for optimal longevity.

Specifications

Brand	HOMSHADE
Model	9FT 3-Tiers Outdoor Patio Umbrella

Canopy Diameter	9 feet
Overall Height	8.8 feet
Pole Diameter	1.5 inches
Ribs	8 heavy-duty steel alloy ribs (12x18mm, 20% thicker)
Canopy Material	220gsm Solution-Dyed Polyester
UV Protection	UPF50+, 99.9% UV-resistant
Fade Resistance	5-Year Fade Resistant
Wind Resistance	Up to 30 MPH
Tilt Mechanism	Reinforced Zinc Alloy Push-Button Tilt
Crank System	Smooth Crank System
