QIQIAOB SV608

QIQIAOB 95kpa Commercial Vacuum Sealer Machine Instruction Manual

Model: SV608 | Brand: QIQIAOB

1. Introduction

Thank you for choosing the QIQIAOB 95kpa Commercial Vacuum Sealer Machine. This full automatic food sealer is designed to preserve food freshness up to 8 times longer than traditional methods, offering a powerful 95kpa vacuum pressure. With its 10-in-1 functions, easy-lock handle, double heat seal, built-in bag storage, and integrated cutter, it provides a convenient and efficient solution for all your food preservation needs. Please read this manual thoroughly before operation to ensure safe and optimal use.

The QIQIAOB Automatic Vacuum Sealer helps lock in freshness with ease.

2. Setup

Before first use, ensure all packaging materials are removed. Place the vacuum sealer on a flat, stable surface.

2.1 Creating a Custom-Sized Bag

1. Open the lid of the vacuum sealer.
2. Place the vacuum bag roll into the roll storage area.
3. Pull out the desired length of bag material.
4. Use the built-in cutter to cut the bag to your custom size.
5. Place one end of the cut bag onto the heating bar.
6. Close the lid by pulling down the handle until it locks.
7. Press the "Manual Seal" button to seal one side of the bag. The indicator light will illuminate during the sealing process.

Detailed steps for creating a custom-sized bag with the integrated cutter and sealing bar.

2.2 Initial Bag Placement

Ensure the bag opening is placed correctly in the vacuum chamber, below the stopper, for effective vacuum sealing.

The vacuum sealer features a built-in cutter, bag storage, vacuum silicone pads, and a vacuum chamber for user-friendly operation.

3. Operating Instructions

The QIQIAOB vacuum sealer offers multiple functions for various food types and sealing needs.

The control panel provides multiple functions for different sealing requirements.

3.1 Vacuum Sealing Food

1. Insert the bag's opening end into the vacuum chamber (under the stopper).
2. Close the lid by pulling down the handle until it clicks into place.
3. Select the appropriate mode:
   - **Dry:** For dry food items.
   - **Moist:** For moist food items.
   - **Damp:** For foods with high moisture content, requiring a high temperature seal. Long press the Manual Seal button for 4 seconds to switch to high temperature mode.
4. Then select "Single" or "Double" sealing line based on your preference.
5. Press the "Vac&Seal" button to start the vacuum and sealing process.
6. Once the countdown finishes, open the lid and check the seal.

Follow these simple steps to vacuum seal your food effectively.

3.2 Pulse Vacuum Mode

Use the "Pulse Vacuum" mode for delicate items like bread or pastries to control the vacuum pressure manually and prevent crushing.

3.3 Manual Seal Mode

The "Manual Seal" mode is ideal for sealing bags that do not require vacuuming, such as chip bags or snack bags. Simply place the bag opening on the sealing bar and press "Manual Seal".

3.4 External Vacuum Extraction (Canister Mode)

1. Insert the smaller end of the vacuum hose into the accessory port on the side of the sealer.
2. Connect the other end of the hose to your vacuum-sealable canister.
3. Select and press the "Canister" button to start the external vacuum process.

Instructions for using the vacuum sealer with external canisters.

3.5 Official Product Video Guide

This video demonstrates the setup, various sealing modes (dry, moist, pulse, manual), canister vacuuming, and cleaning of the QIQIAOB Vacuum Sealer Machine.

4. Maintenance

4.1 Cleaning the Detachable Drip Tray

The vacuum sealer features a detachable drip tray for easy cleaning. This tray collects any excess liquid during the vacuum sealing process, preventing spills and maintaining hygiene.

1. Open the lid of the vacuum sealer.
2. Carefully remove the drip tray by pulling it forward.
3. Wash the drip tray with warm, soapy water. Rinse thoroughly and dry completely before reinserting.
4. To reinsert, put the tray in place along the groove, aligning the Number 1 marks on both sides. Push the tray forward until the Number 2 marks are aligned, indicating complete installation.

The detachable vacuum chamber allows for easy and thorough cleaning.

5. Troubleshooting

If you encounter any issues with your QIQIAOB Vacuum Sealer, please refer to the following common troubleshooting tips:

- **No Power:** Ensure the power cord is securely plugged into both the unit and a working electrical outlet. Check the power switch.
- **Poor Vacuum/Seal:**
  - Ensure the bag is placed correctly within the vacuum chamber and is not wrinkled.
  - Check that the lid is fully closed and locked.
  - Inspect the sealing strip and gaskets for any debris or damage. Clean or replace if necessary.
  - Ensure you are using appropriate vacuum sealer bags.
- **Overheating:** If the unit stops operating during prolonged use, it may have overheated. Allow it to cool down for 20-30 minutes before attempting to use it again.
- **Bag Melting:** If the bag melts during sealing, the sealing time may be too long. Adjust the sealing mode or allow

the unit to cool slightly between seals.

For further assistance, please contact customer support.

6. Specifications

Feature	Detail
Product Dimensions	16.1 x 8.7 x 4.65 inches
Item Weight	6.54 pounds
ASIN	B0DN22X9LB
Item Model Number	SV608
Brand	QIQIAOB
Color	Black Gold
UPC	780748228033

7. Warranty and Support

This product comes with a standard manufacturer's warranty. For detailed warranty information, product registration, or technical support, please refer to the warranty card included with your purchase or visit the official QIQIAOB website. Keep your purchase receipt for warranty claims.
