# Tectake 3-Piece Hardshell Luggage Set Instruction Manual

Model: 405581

## INTRODUCTION

Thank you for choosing the Tectake 3-Piece Hardshell Luggage Set. This set includes three durable suitcases (Medium, Large, and Extra Large) designed for comfortable and secure travel. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your luggage set to ensure a pleasant travel experience.

The suitcases feature robust ABS plastic shells, 360° swivel wheels, adjustable telescopic handles, and integrated TSA combination locks for enhanced security and convenience.

## PRODUCT FEATURES

- **3-Piece Stackable Set:** Includes Medium, Large, and Extra Large suitcases that can be nested for space-saving storage.
- **Durable Hardshell Construction:** Made from robust ABS plastic, resistant to shocks, scratches, and water.
- **Adjustable Telescopic Handle:** Lightweight aluminum frame with 3-position adjustment and ergonomic rubberized grips for comfortable handling.
- **Integrated TSA Combination Lock:** Three-digit lock provides reliable security while allowing airport authorities to inspect luggage without damage.
- **Expandable Interior:** Features an expansion zipper for additional storage capacity when needed.
- **Organized Interior:** Separable compartments with integrated packing straps and mesh pockets to keep belongings secure and organized.
- **Smooth 360° Swivel Wheels:** Four quiet, durable, and removable rubber wheels for effortless mobility across various surfaces.
- **Side Support Feet:** Additional feet provide stability when the suitcase is placed on its side.

# DE PERFECTE REISGENOOT

## Op elke reis

Image: The Tectake 3-piece luggage set, showcasing the Medium, Large, and Extra Large suitcases. They are designed to be stackable for convenient storage.

## SETUP

### 1. Setting the TSA Combination Lock

Your Tectake luggage comes with an integrated TSA-approved combination lock. The default combination is typically 0-0-0.

1. Open the lock by sliding the release button (usually located next to the numbers) or by entering the default combination (0-0-0) and then sliding the release button.
2. With the lock open, locate a small reset button or lever. This is often a small, recessed button that requires a pen or pointed object to press.
3. Press and hold the reset button/lever. While holding it, set your desired 3-digit combination by rotating the number dials.
4. Release the reset button/lever. Your new combination is now set. Test it by scrambling the numbers and then

entering your new combination to open the lock.

5. Remember your combination. Do not write it down inside the suitcase.

## MAXIMALE Veiligheid

**tectake**  
travel & outdoor

Met deze 3 kras-, schok- en waterbestendige reiskoffers ben je altijd stressvrij onderweg! Dankzij het duurzame ABS-kunststof en de betrouwbare 3-cijferige TSA-sloten zijn je bezittingen optimaal beschermd tegen stoten en externe invloeden.

Image: Detail of the TSA combination lock and double zipper on the suitcase. The lock allows for secure closure and airport inspection.

## 2. Adjusting the Telescopic Handle

The telescopic handle can be adjusted to three different heights for comfortable maneuvering. To adjust:

- Press the button located on the top of the handle grip.
- While holding the button, extend or retract the handle to your desired height.
- Release the button to lock the handle in place. Ensure it is securely locked before moving the suitcase.

De ergonomische telescopische handgrepen zijn in lengte verstelbaar voor optimaal comfort.

Het praktische uitbreidingsgedeelte biedt extra ruimte in de koffer wanneer nodig.

Rubberen steundoppen aan de zijkant zorgen voor stabiliteit wanneer de koffers worden neergelegd.

De 360° draaibare comfortwielen van rubber zijn uiterst soepel en stil op alle ondergronden.

## OPERATING INSTRUCTIONS

### 1. Packing Your Suitcase

- **Utilize Interior Straps:** Use the integrated cross-straps to secure your clothing and prevent shifting during transit.
- **Use Mesh Pockets:** Store smaller items, toiletries, or documents in the zippered mesh pockets for easy access and organization.
- **Expand for More Space:** If you need additional capacity, unzip the expansion zipper located around the perimeter of the suitcase to increase its depth.
- **Balance Weight:** Distribute weight evenly within the suitcase to maintain stability and ease of rolling.

# SLIMME Indeling

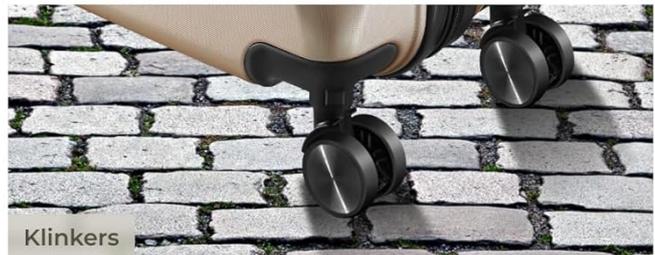

Image: The interior of the suitcase, highlighting the practical packing straps and the large mesh pocket for organized storage.

## 2. Maneuvering Your Suitcase

- **Rolling:** Extend the telescopic handle to a comfortable height. Tilt the suitcase slightly and pull it behind you, or push it upright using all four 360° swivel wheels for effortless movement.
- **Lifting:** Use the top or side carry handles for lifting the suitcase onto luggage racks, into overhead compartments, or when navigating stairs.
- **Parking:** When stationary, utilize the side support feet to keep the suitcase stable and prevent it from tipping over.

# KLAAR VOOR Nieuwe doelen

**tectake**  
travel & outdoor

De 3 trolleykoffers glijden moeiteloos over elk oppervlak. De rubberen wielen zijn niet alleen 360° draaibaar en stil, maar kunnen ook worden verwijderd om bijvoorbeeld ruimte in de kofferbak te besparen. Zo wordt je volgende reis nog comfortabeler, waar de reis ook naartoe gaat.

Image: The 360° swivel wheels are designed for smooth movement on diverse surfaces, including wood, cobblestones, and asphalt, ensuring easy navigation.

## MAINTENANCE

- **Exterior Cleaning:** Wipe the ABS hardshell exterior with a damp cloth and mild soap. Avoid abrasive cleaners or solvents that could damage the finish.
- **Interior Cleaning:** Vacuum the interior lining to remove dust and debris. Spot clean any stains with a gentle fabric cleaner. Ensure the interior is completely dry before closing the suitcase for storage.
- **Wheel Care:** Periodically check the wheels for any tangled hair or debris. Clean them as needed. The wheels are removable for easier cleaning or replacement if necessary.
- **Zipper Maintenance:** Keep zippers clean and free of obstructions. If a zipper becomes stiff, apply a small amount of zipper lubricant or wax.
- **Storage:** Store the suitcases in a cool, dry place away from direct sunlight. For space efficiency, the smaller suitcases can be nested inside the larger ones.

## TROUBLESHOOTING

- **Lock Not Opening:** Ensure you are entering the correct 3-digit combination. If you forgot your combination, there is no master key provided to the user. You may need to try common combinations or contact customer support for assistance.
- **Telescopic Handle Sticking:** Check for any debris or obstructions in the handle mechanism. Ensure the release button is fully pressed when extending or retracting. Avoid forcing the handle.
- **Wheels Not Rolling Smoothly:** Inspect the wheels for tangled hair, lint, or small objects. Remove any obstructions. If a wheel is damaged, it can be removed and potentially replaced.
- **Zipper Malfunction:** If a zipper is stuck, try gently wiggling the slider. Ensure no fabric is caught in the teeth. Do not force the zipper, as this can cause permanent damage.

## SPECIFICATIONS

The Tectake 3-Piece Hardshell Luggage Set (Model 405581) includes three suitcases with the following approximate dimensions and weights:
