KOMFOTT Twin Over Full Metal Bunk Bed Instruction Manual

MODEL: 10873-HU-KT

Product Overview

The KOMFOTT Twin Over Full Metal Bunk Bed is designed for functionality and durability, maximizing vertical space with a twin bed on top and a full bed on the bottom. Constructed from sturdy, rustproof metal, it ensures resilience against daily use. Safety features include a secure full-length guardrail and a conveniently inclined ladder for easy access. An ample 11.5-inch under-bed clearance provides storage space and allows for easy cleaning. The noise-free bar system ensures undisturbed sleep, making it an ideal space-saving solution for various living arrangements.

Fully assembled KOMFOTT Twin Over Full Metal Bunk Bed, showcasing its sturdy metal construction and integrated ladder.

Important Safety Information

- **Weight Capacity:** Do not exceed the maximum weight capacity of 330 lbs for the upper bed and 440 lbs for the lower bed.
- **Ladder Safety:** The ladder is not suitable for children under 6 years old. Ensure children use the ladder safely and under supervision.
- **Guardrails:** Always ensure the full-length guardrail on the top bunk is securely in place to prevent falls.
- **Assembly:** Follow all assembly instructions carefully. Improper assembly can lead to instability and injury.
- **Maintenance:** Regularly check all bolts and connections to ensure they remain tight. Loose parts can compromise safety.
- **Mattress Size:** Use only mattresses of the specified size (Twin for upper, Full for lower) to ensure proper fit and safety.

Parts List

Before beginning assembly, please identify and count all parts and hardware components using the diagram below. If any parts are damaged or missing, please contact customer support for assistance.

This diagram illustrates all components included in the package, labeled with letters and quantities. Please verify all parts are present before beginning assembly.

Assembly Instructions

Important Note: Please do not fully tighten any bolts until all components are fixed in place. This allows for easier alignment and adjustment during assembly.

Step-by-Step Assembly Video

This official video provides a step-by-step guide for assembling a similar KOMFOTT Metal Bunk Bed (Model 759). It illustrates how to connect the various parts, including the bed ends, side rails, slats, and ladder, ensuring a secure and

stable structure. Follow along for a smooth assembly experience.

General Assembly Steps:

1. **Assemble Bed Ends:** Connect the horizontal bars to the vertical posts of both the upper and lower bed ends using the provided hardware.
2. **Attach Side Rails:** Secure the long side rails to the assembled bed ends for both the upper and lower bunks. Ensure the connection points are aligned.
3. **Install Slats:** Place and secure the metal slats onto the designated supports for both the twin and full bed frames. These slats eliminate the need for a box spring.
4. **Attach Guardrails:** Install the full-length guardrails on the upper bunk, ensuring they are firmly attached to prevent accidental falls.
5. **Install Ladder:** Attach the inclined ladder to the side of the bunk bed, making sure it is stable and securely hooked onto the upper bunk frame.
6. **Final Tightening:** Once all components are in place and aligned, go back and securely tighten all bolts and screws.

Operating Instructions

- **Accessing Upper Bunk:** Use the inclined ladder to safely climb to and descend from the upper bunk. Always face the ladder when climbing.
- **Weight Distribution:** Distribute weight evenly on both bunks. Avoid jumping or excessive movement on the beds.
- **Under-bed Storage:** Utilize the 11.5-inch clearance beneath the lower bunk for storage bins, suitcases, or other items to keep the room tidy.
- **Noise-Free Design:** The integrated mute bars are designed to minimize noise. If squeaking occurs, check and tighten all connections.

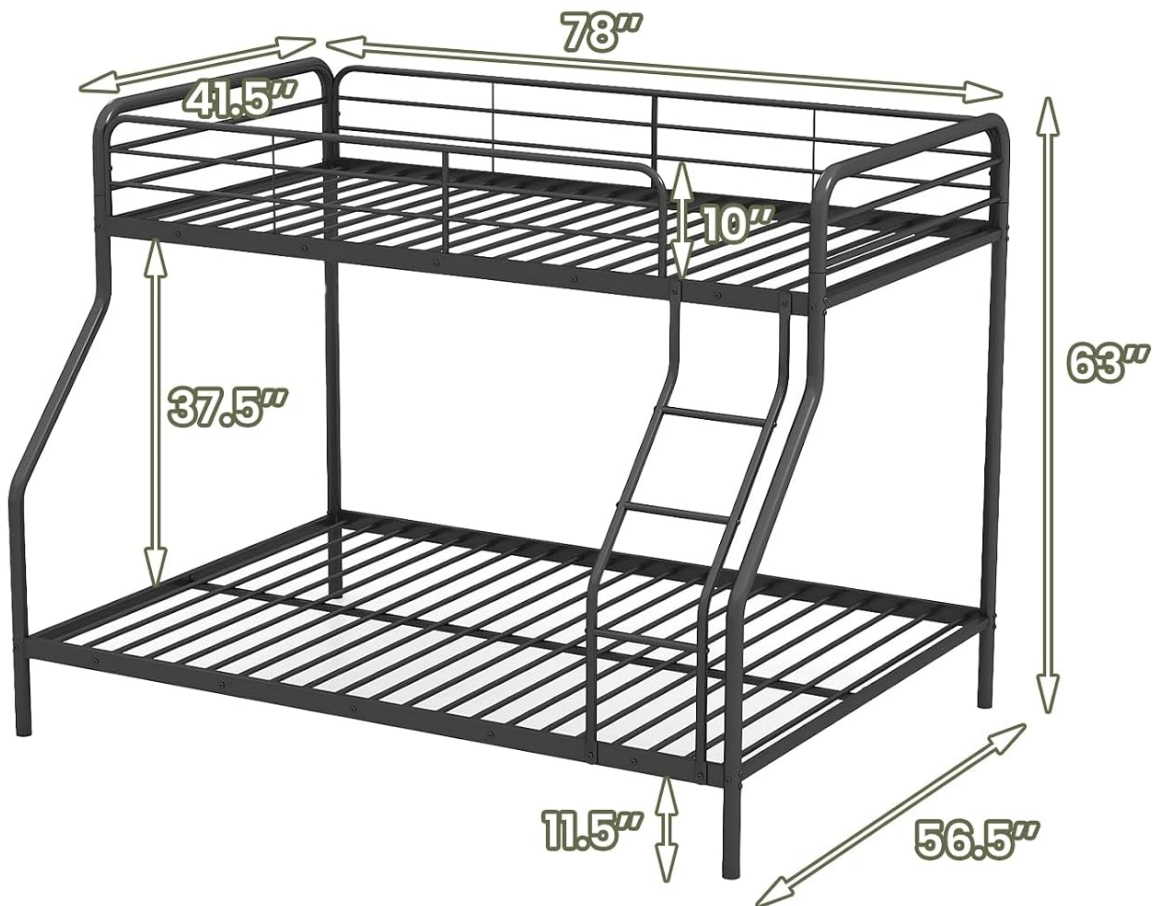

Product Information

**330
lbs**

**Weight Capacity
of Upper Bed**

**440
lbs**

**Weight Capacity
of Lower Bed**

This image provides key dimensions of the bunk bed, including length, width, and height, along with the maximum weight capacity for both the twin upper bed (330 lbs) and the full lower bed (440 lbs).

Maintenance

- **Cleaning:** Wipe the metal frame with a damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Inspection:** Periodically inspect all structural components, bolts, and connections to ensure they are secure. Tighten any loose hardware immediately.
- **Prevent Rust:** Keep the bed in a dry environment to prevent rust. If scratches occur, touch up with appropriate metal paint to protect the surface.

Troubleshooting

- **Squeaking Noises:** If the bed makes squeaking noises, check all bolts and connections. Loosen slightly, adjust the frame, and then re-tighten firmly. Ensure mute bars are correctly installed.

- **Instability/Wobbling:** If the bed feels unstable, ensure all bolts are fully tightened. Verify that the bed is placed on a flat, level surface.
- **Difficulty Assembling:** Refer to the assembly video and parts list. Ensure you are using the correct hardware for each step and that parts are oriented correctly. Do not force components together.

Product Specifications

Feature	Detail
Model Number	10873-HU-KT
Size	Twin Over Full
Material	Metal
Colour	Black
Overall Dimensions (L x W x H)	198L x 143W x 160H Centimetres (78" x 56.5" x 63")
