GarveeHome 5-Tier Adjustable Storage Shelving Unit Instruction Manual

Model: NVESpaKogwEr4On4bAV66gcw3m

1. PRODUCT OVERVIEW

The GarveeHome 5-Tier Adjustable Storage Shelving Unit is a heavy-duty metal organizer designed for versatile storage in various environments such as kitchens, pantries, basements, and garages. It features 5 adjustable shelves, each capable of supporting up to 400 lbs, with a total unit capacity of 2000 lbs. Its boltless design allows for easy assembly without the need for tools.

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use.

- Always follow the assembly instructions provided in this manual.
- Do not exceed the weight limit of **400 lbs (181 kg) per shelf**. The total unit capacity is **2000 lbs (907 kg)**.
- Ensure the unit is properly mounted and balanced on a level surface to prevent tipping or collapse. Use the included anti-tipping brackets for added stability.
- Keep the area around the unit clear of flammable materials.
- Maintain a safe distance from the unit when adjusting shelves or loading/unloading items.
- Do not allow children to climb on or play with the shelving unit.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly.

- 1 x Metal Shelving Unit (disassembled components)
- 1 x User Manual
- 8 x Rubber Foot Pads
- 2 x Anti-Tipping Brackets
- 4 x Pole Connection Blocks

4. SETUP AND ASSEMBLY

The GarveeHome shelving unit features a boltless assembly design, requiring no tools for setup. Assembly typically takes approximately 10 minutes.

Assembly Steps:

1. Begin by connecting the vertical posts using the provided pole connection blocks.
2. Attach the horizontal beams to the vertical posts at your desired shelf height. Ensure they are securely slotted into place.
3. Place the wire mesh shelves onto the horizontal beams.
4. Repeat for all five tiers.
5. Install the rubber foot pads on the bottom of the vertical posts to protect your floor.
6. Secure the unit to a wall using the anti-tipping brackets for enhanced stability, especially in areas with heavy traffic or uneven floors.

5-Tier Metal Shelving Unit

-  Thickened & Roughened
-  Strong Load-Bearing
-  Space-Saving Storage

Each Shelf Load: 400 lbs **Total Load:** 2000 lbs

Adjustable Shelf Spacing: 1 in/25mm (5 Shelves)

Material: SPCC Carbon Steel+Powder Spraying

Accessories: 8 x RubberPads

- Each Shelf Load: 400 Ibs
- 2 x Anti-Tipping Brackets
- 4 x Pole Connection Blocks

5. OPERATING INSTRUCTIONS

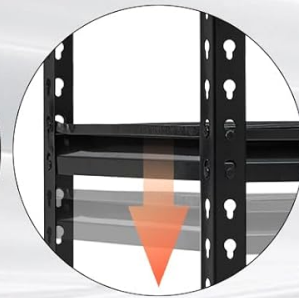

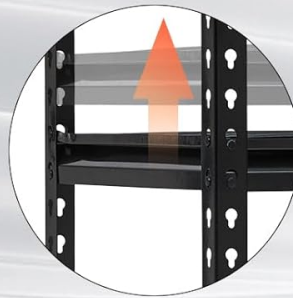

Adjusting Shelf Height:

The shelving unit features adjustable shelves, allowing you to customize the storage space to accommodate items of various sizes. Each shelf can be freely adjusted to suit different heights.

- To adjust a shelf, carefully unload all items from the shelf.
- Disengage the horizontal beams from the vertical posts by lifting them slightly.
- Re-engage the horizontal beams into the desired slots on the vertical posts. Ensure all four corners are securely seated at the same height.
- Place the wire mesh shelf back onto the beams.

Adjustable Shelf Height, DIY Free Combination

Each layer can be freely adjusted to suit different heights

Adjust upward

Adjust downward

Cleaning:

- Wipe down the shelves and frame with a soft, damp cloth.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the powder coating.
- Dry thoroughly after cleaning to prevent water spots.

Inspection:

- Periodically inspect the unit for any signs of wear, damage, or loose connections.
- Ensure all shelf beams are securely seated in their slots.
- Check that the anti-tipping brackets remain firmly attached to the wall and the unit.

7. TROUBLESHOOTING

- **Unit is unstable:** Ensure the unit is placed on a level surface. Verify that all horizontal beams are fully engaged in the vertical post slots. Confirm that the anti-tipping brackets are correctly installed and secured to a wall stud.
- **Shelf sags under weight:** Check that the weight on the shelf does not exceed the 400 lbs capacity. Redistribute items to ensure even weight distribution.
- **Difficulty assembling:** Refer to the assembly steps and diagrams in Section 4. Ensure components are oriented correctly before attempting to connect them. No tools are required for assembly, so excessive force should not be necessary.

8. SPECIFICATIONS

Brand	GarveeHome
Model Number	NVESpaKogwEr4On4bAV66gcw3m
Material	SPCC Carbon Steel, Powder Coated Metal
Number of Shelves	5
Shelf Type	Storage System Shelf
Weight Capacity per Shelf	400 lbs (181 kg)
Total Weight Capacity	2000 lbs (907 kg)
