

## HAVA TDJR09

# HAVA Dishwasher 2025 - User Manual

Model: TDJR09

## 1. INTRODUCTION

The HAVA Dishwasher 2025 is a compact and portable appliance designed for efficient dish cleaning in various settings, including small homes, apartments, dorms, boats, caravans, and RVs. This model features an improved water softener, optimal energy efficiency with an ECO mode, and a user-friendly interface with 8 wash programs, child lock, and delayed start functions.

Figure 1: HAVA Dishwasher 2025. This image displays the HAVA Dishwasher 2025 from the front, with its door open to reveal a rack filled with dishes. The control panel with various program icons is visible above the door, and the interior is illuminated.

## 2. SETUP AND INSTALLATION

The HAVA Dishwasher 2025 is designed for hassle-free installation, making it highly portable. It features a built-in 5-liter water tank, eliminating the need for permanent plumbing connections. This allows you to place the dishwasher almost anywhere, providing flexibility for small spaces or temporary setups.

# Kompakte Größe, große Kapazität

Innengröße (B/T/H): 33,02 x 35 x 27,51 cm

- Measuring Jug
- Cutlery Basket
- Dish Basket
- Fruit Basket
- Drain Hose
- Inlet Hose
- Power Cord
- User Manual

### 3. OPERATING INSTRUCTIONS

---

The HAVA Dishwasher features an easy-to-use touch interface with 8 wash programs to meet various cleaning needs. These programs include:

- Standard
- ECO (Optimized for water and energy saving)
- Quick
- Strong
- Glass
- Fruit
- Self-Clean
- Dry

Additional user-friendly functions include a child lock for safety and an 18-hour delayed start function for flexible operation.

The integrated water softener effectively addresses hard water issues. To ensure optimal cleaning results and prevent limescale buildup, adjust the rinse aid setting according to your local water hardness. The redesigned dish basket offers increased capacity and ensures a complete 360-degree cleaning of all items.

### 4. MAINTENANCE

---

Regular maintenance is crucial for the longevity and performance of your dishwasher. The built-in water softener helps prevent limescale deposits, but it is important to periodically check and adjust the rinse aid setting based on your water hardness to maintain its effectiveness.

As part of quality control, each HAVA unit undergoes rigorous testing, which may result in a small amount of residual water inside the unit. This is normal and does not indicate a defect.

For optimal performance, regularly clean the filters and spray arms to ensure unobstructed water flow and efficient cleaning.

### 5. TROUBLESHOOTING

---

Should you encounter any issues with your HAVA Dishwasher, please refer to the following general advice. For persistent problems, contact customer support.

- Ensure the dishwasher is properly connected to a power source.
- Verify that the water tank is filled or the inlet hose is correctly connected.
- Check for any blockages in the spray arms or filters.
- Confirm that the door is securely closed and latched.

### 6. TECHNICAL SPECIFICATIONS

---

Feature	Specification
Model Name	R09
Item Number	TDJR09

Feature	Specification
Product Dimensions (L x W x H)	42.5 x 42.8 x 45.8 cm
Item Weight	13 kg
Capacity	5 Liters
Voltage	220 Volts
Annual Energy Consumption	150 Kilowatt-hours per year
Energy Efficiency Rating	Class D
Noise Level	60 dB
Number of Wash Programs	8
