HearSound GOLD

HearSound Gold Digital Wireless Headset System for TV

Model: GOLD

Brand: HearSound

1. PRODUCT OVERVIEW

The HearSound Gold Digital Wireless Headset System offers an unparalleled TV listening experience, specifically designed for seniors and individuals with hearing challenges. This system provides a fully digitally enhanced audio experience, delivering crystal-clear sound amplified up to 120dB, allowing for effortless TV enjoyment without disturbing others. Its 100-foot wireless range ensures uninterrupted listening from anywhere in your home, operating without the need for a direct line of sight. The discreet, hide-away transmitter can be neatly placed behind your TV. The headset itself is feather-light, weighing just under 2 ounces, ensuring hours of comfortable wear. With a 12-hour rechargeable battery and independent volume and tone controls, the HearSound Gold provides personalized sound for extended viewing sessions. It is compatible with all types of TVs, from the latest digital models to classic analog sets, and includes all necessary cables for a seamless setup.

3. SETUP GUIDE

The HearSound Gold system is designed for easy Plug & Play setup. Follow these steps to get started:

1. **Connect the Transmitter to Your TV:** Identify the audio output ports on your television. The HearSound Gold transmitter supports Optical Audio and 3.5mm stereo audio connections. Use the appropriate cable provided to connect the transmitter to your TV's audio output. Ensure a secure connection.
2. **Power the Transmitter:** Connect one of the USB power adapters to the transmitter and plug it into a power outlet. The transmitter's indicator light should illuminate, indicating it is powered on.
3. **Charge the Headset:** Place the headset on the charging base. Connect the second USB power adapter to the charging base and plug it into a power outlet. Allow the headset to fully charge before first use (approximately 2-3 hours for a full 12-hour listening time). The headset can be conveniently charged bedside or chairs-side.

4. **Adjust TV Audio Settings (if necessary):** For some TV models, you may need to access your TV's audio settings menu using its original remote control. Adjust the audio output setting to
