## Setup

### 1. Charging the Smart Watch

Before first use, fully charge your PEJE Smart Watch.

1. Connect the magnetic charging cable to the charging points on the back of the watch.
2. Plug the USB end of the cable into a standard USB power adapter (not included) or a computer's USB port.
3. The watch will display a charging indicator. A full charge takes approximately 2.5 hours.

A full charge provides 5-7 days of typical use and up to 7-15 days of standby time.

### 2. App Installation and Pairing

To unlock the full potential of your PEJE Smart Watch, download and install the "PEJE" app on your smartphone.

1. Scan the QR code in the watch's manual or search for "PEJE" in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. Install the app and open it.
3. Enable Bluetooth on your smartphone.
4. In the PEJE app, follow the on-screen instructions to search for and connect to your smartwatch. Ensure the watch is powered on and within Bluetooth range.
5. Once paired, the watch will synchronize data with your phone, and you can customize settings through the app.

## Operating Instructions

### 1. Display and Watch Faces

## Maintenance

### IP68 Water Resistance

The PEJE Smart Watch is IP68 water-resistant, meaning it can withstand splashes, hand washing, and light rain.

- You can wear it while washing your hands or doing dishes.
- It is resistant to sweat.

**Note:** It is not recommended to use the watch during diving, sauna, hot showers, or in environments with high water pressure or steam, as this may compromise the water resistance. Avoid prolonged submersion.

### Cleaning

To clean your watch, wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.

## Troubleshooting

If you encounter any issues with your PEJE Smart Watch, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.

- **Cannot pair with phone:**
  - Ensure Bluetooth is enabled on your phone and the watch.
  - Make sure the watch is within the Bluetooth range of your phone.
  - Restart both your phone and the watch.
  - Clear the Bluetooth cache on your phone (if applicable) and try pairing again.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors regularly. Remember that data is for reference only.
- **Notifications not appearing:**
  - Check notification permissions for the PEJE app in your phone's settings.
  - Ensure the PEJE app is running in the background.
  - Verify that notifications are enabled within the PEJE app for specific applications.
- **Short battery life:** Reduce screen brightness, disable unnecessary features, and limit continuous heart rate monitoring if not needed.

If the issue persists, please contact customer support for further assistance.
