SETUP AND INSTALLATION

Follow these simple steps to install your Premium Plus Stove Protectors:

1. Remove grates and burners from your gas stovetop.
2. Align the liners starting with the left panel, followed by the right panel, making sure both panels overlap on your stovetop for complete protection.
3. Reassemble the accessories (grates and burners).

OPERATING YOUR COOKTOP WITH PROTECTORS

Once installed, your Premium Plus Stove Protectors will seamlessly integrate with your cooking routine. They are designed to catch spills, drips, and food debris, preventing them from reaching the stovetop's metal surface. This allows for a cleaner cooking environment and significantly reduces the effort required for post-cooking cleanup.

CARE AND MAINTENANCE

Maintaining your stove protectors is simple and convenient:

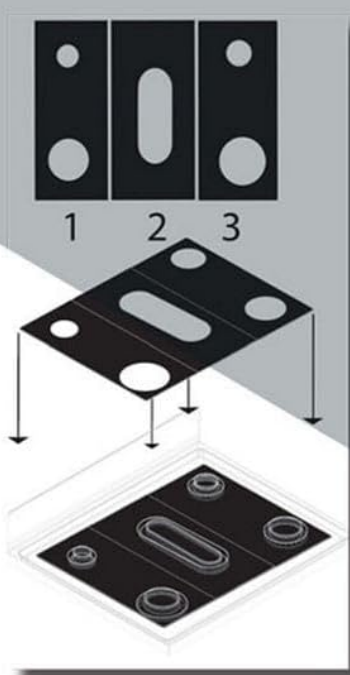

- **Daily Cleaning:** For localized spills, simply remove the affected liner, wipe away spills and grease with a damp sponge or cloth, and replace it.
- **Deep Cleaning:** For a more thorough clean, place the liners in the dishwasher on the top rack. They are completely dishwasher safe.
- **Hand Washing:** The liners can also be easily hand-washed with soap and water.

TROUBLESHOOTING

Liner Does Not Fit Properly

These stove protectors are custom-cut for the Whirlpool Gas Cooktop 36" Model WCGK5036PS. If you have a different model, the fit may not be exact. Please ensure your cooktop model matches WCGK5036PS. For other models, search for 'Premium Plus' followed by your specific model number on Amazon to find compatible liners.

Stains or Spills Sticking to Liner

While the liners are non-stick, some stubborn spills may require immediate attention or a more thorough cleaning. For best results, wipe spills as soon as possible. For dried or sticky residue, a gentle scrub with a sponge and dish soap during handwashing, or a cycle in the dishwasher, should remove it.
