Weyot Smartwatch Model 7066241980573 User Manual

Comprehensive Guide for Setup, Operation, and Maintenance

1. INTRODUCTION

The Weyot Smartwatch Model 7066241980573 is designed to provide safety and communication features, particularly for the elderly. It integrates fall detection, SOS emergency calling, HD video and voice calls, and multi-mode GPS positioning. This manual provides instructions for setting up, operating, and maintaining your smartwatch.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Weyot Smartwatch
- 1 x Charging Cable (Magnetic)
- 1 x User Manual

3. SETUP

3.1. SIM Card Installation

The smartwatch requires a 4G SIM card for full functionality (not included). Ensure the SIM card is activated and has a data plan. Refer to the smartwatch's SIM card slot for correct orientation and insertion.

3.2. Initial Charging

Before first use, fully charge the smartwatch. Connect the magnetic charging cable to the charging port on the back of the watch and plug the USB end into a compatible power adapter (not included). A full charge typically takes a few hours.

3.3. App Installation and Pairing

Download the companion application on your Android or iOS smartphone. Follow the on-screen instructions within the app to pair your smartwatch. This app allows you to configure emergency contacts, safety zones, and other features.

4. OPERATING INSTRUCTIONS

4.1. Power On/Off

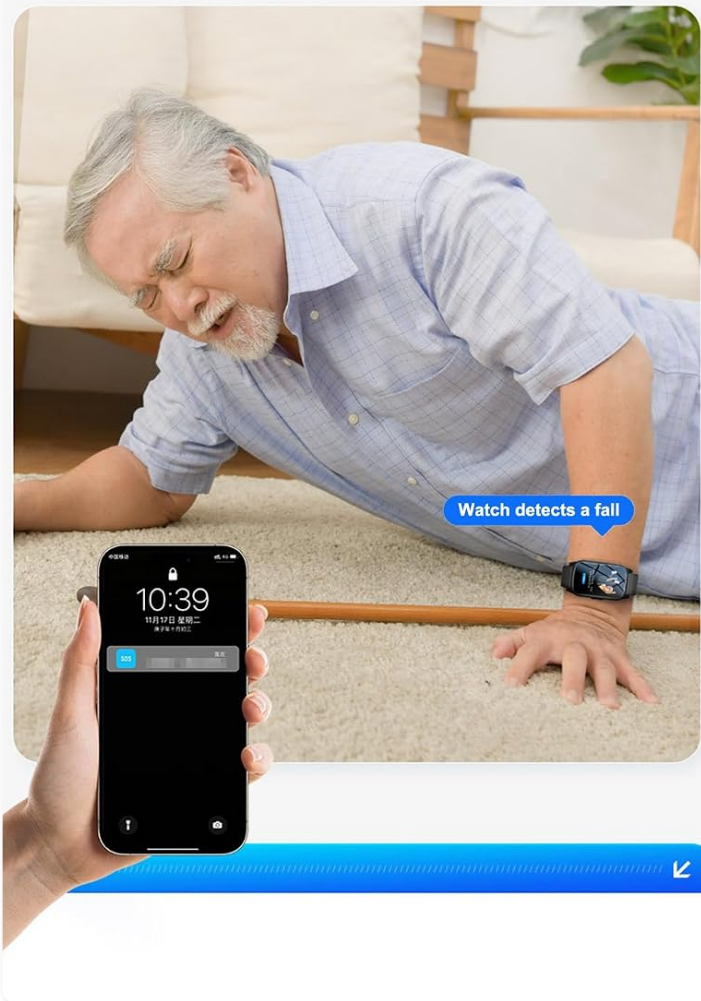

- **To Power On:** Press and hold the power button (usually located on the side) until the screen illuminates.
- **To Power Off:** Press and hold the power button, then select the 'Power Off' option on the screen.

4.2. Fall Detection and SOS Emergency Call

The smartwatch is equipped with intelligent fall detection. If an accidental fall is detected, the watch will automatically send an alarm to pre-set emergency contacts. For manual emergencies, press and hold the SOS button for 3 seconds to automatically dial the pre-configured emergency numbers. Up to three emergency numbers can be set via the companion application.

Fall Reminder Careful Care

Intelligent identification of accidental falls, the watch automatically sends a fall alarm for help. Notify family members in time, and the safety of the elderly is more guaranteed

SOS Emergency Call

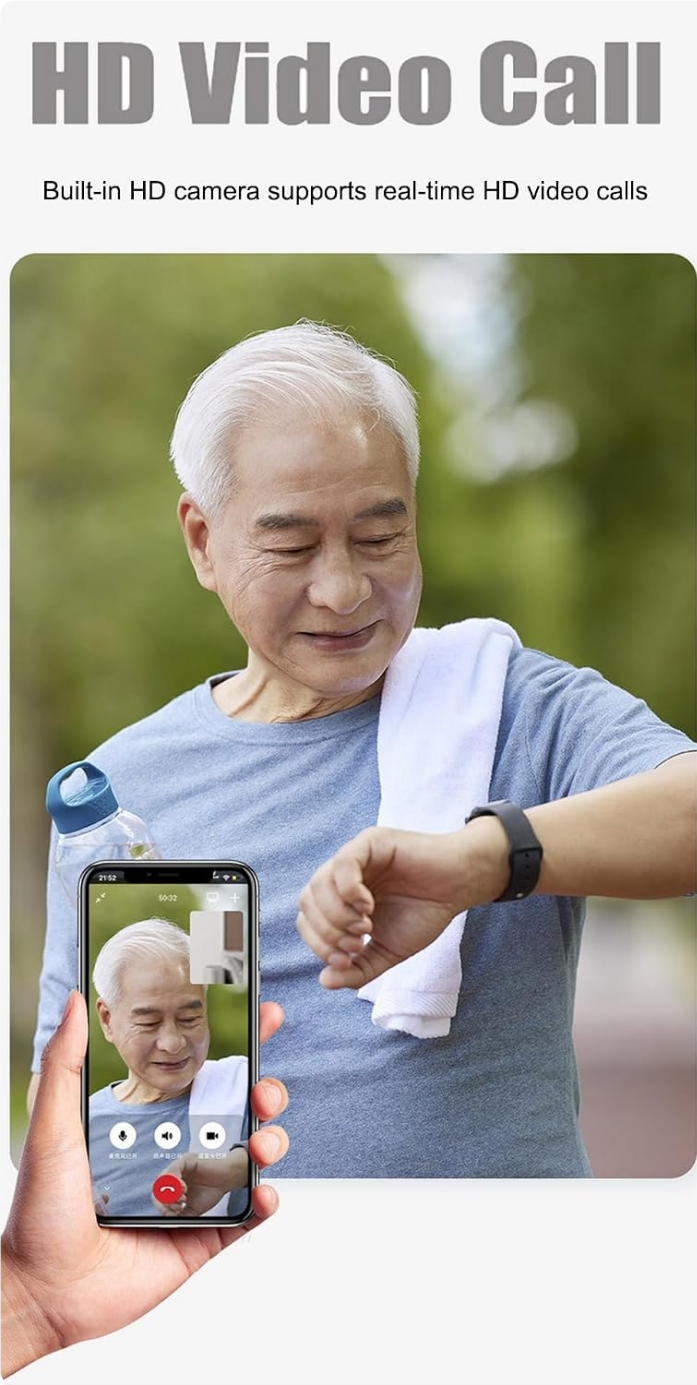

The APP can preset 3 emergency numbers, Press and hold the SOS button for 3 seconds to automatically dial the number. No manual input is required, which is convenient and fast.

The image illustrates the fall detection system and the SOS emergency call function, highlighting how the watch detects a fall and allows for quick emergency contact.

4.3. HD Video and Voice Calls

The integrated HD camera supports real-time HD video calls. The smartwatch also provides HD voice call functionality with dual reminders for incoming calls (vibration and ringtone). Automatic answering for incoming calls can be configured for family numbers through the companion app, ensuring ease of use and reliability.

Built-in HD camera supports real-time HD video calls

HD Voice Call

- Vibration + Ring Double Reminder

Automatic call answering can be set, and family numbers can be contacted. The operation is simple and easy to understand, safer and more reliable.

This image shows the smartwatch being used for HD video calls and highlights the HD voice call feature with vibration and ringtone reminders.

4.4. Safety Positioning (GPS)

The smartwatch utilizes multiple positioning modes including GPS, Beidou, LBS, Wi-Fi, TDOA, and inertial gyroscope for accurate location tracking. Through the companion app, you can define safe zones and review track records to monitor the wearer's movements and quickly locate them if needed.

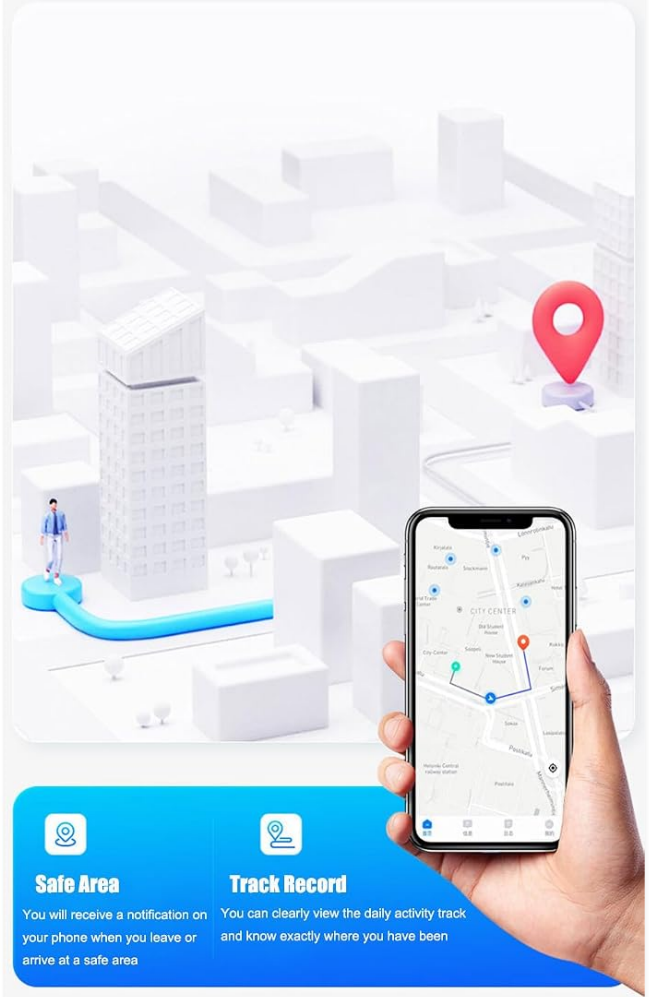

IP67 Level Deen Waterproof

The watch has a highly sealed precision structure, waterproof and dustproof, and can easily pass the rain and short-term immersion test.

Multiple Safety Positioning APP can Check at Any Time

4.6. Language Settings

The smartwatch supports multiple languages. You can adjust the language settings according to your preference, ensuring comfortable communication and interaction with the device.

Low Power Consumption Long Battery Life

Multiple working modes are available,
free control, longer battery life

Normal mode

Automatically send positioning
10 minutes/time

Power saving mode

Automatically send positioning
60 minutes/time

Follow mode

Automatically send positioning
1 minute/time

Supports Global Frequency Bands Adjustable in Multiple Languages

English	Turkish	Italian	Dutch
Portuguese	Vietnamese	Russian	Spanish
Polish	German	French	Thai
Lithuanian	Estonian	Hindi	Czech
Hungarian	Slovak	Latvian	Chinese

The image illustrates the smartwatch's support for various languages and different power consumption modes for extended battery life.

5. MAINTENANCE

5.1. Water Resistance (IP67)

The smartwatch features an IP67 water and dust resistance rating, meaning it can withstand splashes, rain, and short-term immersion up to 1 meter. **Important: Swimming and hot bathing are prohibited as these activities can compromise the device's water resistance.**

5.2. Cleaning

To clean the smartwatch, gently wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, which can damage the device's finish or components.

5.3. Battery Care

To maximize battery life, avoid extreme temperatures. Charge the device regularly, but do not leave it fully discharged for extended periods. The smartwatch offers multiple working modes to optimize battery consumption.

6. TROUBLESHOOTING

- **Device not powering on:** Ensure the battery is charged. Connect the charging cable and attempt to power on again.
- **No network connectivity:** Verify that the 4G SIM card is correctly inserted, activated, and has an active data plan. Check network coverage in your area.
- **Inaccurate GPS:** Ensure the smartwatch has a clear view of the sky for optimal GPS signal reception. Multi-mode positioning (GPS+Beidou+LBS+WIFI+TDOA) helps improve accuracy.
- **Fall detection not working:** Ensure the feature is enabled in the companion app and the watch is worn correctly. Accidental falls are detected based on specific motion patterns.
- **Cannot make/receive calls:** Check SIM card status and ensure emergency numbers are correctly configured in the app.
- **Screen unresponsive:** Try restarting the device. If the issue persists, ensure the screen is clean and dry.

7. SPECIFICATIONS

Feature	Detail
Model Number	7066241980573
Brand	Weyot
Operating System	Android Wear OS
Screen Size	1.47 inches
Battery Capacity	600 mAh
Average Battery Life	Up to 5 days
Connectivity Technology	Bluetooth, Wi-Fi, GPS, 4G Cellular
