4. SETUP AND ASSEMBLY

The sanipoe 360 Rotating Makeup Organizer is designed for easy assembly. Follow these steps:

- 1. Identify Components:** Lay out all components and identify the top base, plate base, trays, partitions, and rubber rings. Refer to the 'Package Contents' section for a visual guide.
- 2. Attach Partitions to Plate Base:** Insert the two partition pieces into the designated slots on the plate base. Ensure they are securely interlocked to form the central support structure.
- 3. Install Trays:** Slide the trays into the slots on the partitions at your desired height. The partitions have multiple slots, allowing for customizable shelf spacing. Secure each tray with two rubber rings on each side, placing them into the grooves on the partitions to prevent the trays from slipping.
- 4. Attach Top Base:** Place the top base onto the upper end of the assembled partitions. Secure it with rubber rings as you did with the trays.
- 5. Final Check:** Gently rotate the organizer to ensure all parts are securely in place and the rotation is smooth.

SIMPLE TO ASSEMBLE AND DISASSEMBLE

WASHABLE MATERIAL MAKES IT EASY TO CLEAN

5. OPERATING INSTRUCTIONS

Using your sanipoe 360 Rotating Makeup Organizer is straightforward:

1. **Placement:** Place the organizer on a flat, stable surface such as a vanity, bathroom countertop, or dresser.
2. **Loading Items:** Arrange your cosmetics, skincare products, brushes, and other items on the adjustable trays. Utilize the different height settings to accommodate taller bottles and smaller items.
3. **Rotation:** Gently rotate the organizer to access items stored on any side. The smooth 360-degree rotation allows for convenient retrieval of products.
4. **Brush Holder:** Use the designated sections on the top layer for makeup brushes and other slender tools.

6. MAINTENANCE

To ensure the longevity and cleanliness of your organizer:

- **Cleaning:** The organizer is washable. For general cleaning, wipe with a dry cloth. For a more thorough clean, disassemble the unit and wash the plastic components with mild soap and water. Rinse thoroughly and allow to air dry completely before reassembling.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these may damage the acrylic material.
- **Handle with Care:** While durable, avoid dropping the organizer or placing excessively heavy items on it to prevent damage.

7. TROUBLESHOOTING

Organizer is not rotating smoothly:

- **Check for Obstructions:** Ensure no items are blocking the rotation mechanism at the base or between the trays.

- **Even Weight Distribution:** Redistribute items to ensure weight is evenly balanced across the trays. Uneven loading can affect rotation.
- **Clean Base:** Check the rotating base for any debris or dust that might be hindering smooth movement. Wipe clean if necessary.

Trays are unstable or slipping:

- **Secure Rubber Rings:** Verify that all 16 rubber rings are correctly installed in the grooves of the partitions, securing each tray.
- **Correct Assembly:** Ensure the partitions and bases are correctly interlocked and fully seated.
- **Overloading:** Avoid exceeding the maximum recommended load of 600 grams per tray.

8. SPECIFICATIONS

- **Brand:** sanipoe
- **Model Number:** EK-huise-1028-ma
- **Material:** Plastic (Acrylic)
- **Color:** Grey
- **Product Dimensions:** 9.1"D x 9.1"W x 12.2"H (23cm D x 23cm W x 31cm H)
