## Homy Casa 75" x 38" (Twin)

# Homy Casa Folding Bed with Mattress (75" x 38" Twin) Instruction Manual

## PRODUCT OVERVIEW

The Homy Casa Folding Bed with Mattress is designed to provide a comfortable and convenient sleeping solution while maximizing space efficiency. This portable bed features a high-density memory foam mattress and a robust steel frame, making it suitable for guests, small living areas, or temporary use.

- **Comfortable Memory Foam Mattress:** Equipped with a 5-inch high-density memory foam mattress for superior support and a restful sleep experience.
- **Compact & Foldable Design:** Easily folds for storage in closets, under beds, or in corners when not in use.
- **Easy to Move & Store:** Features built-in wheels for effortless movement and enhanced portability.
- **Durable Steel Frame:** Constructed with a robust steel frame to ensure strength, stability, and support for up to 250 pounds.
- **Space-Saving Solution:** Ideal for apartments, dorms, RVs, or any living space with limited room.

## SETUP INSTRUCTIONS

---

The Homy Casa Folding Bed is designed for quick and straightforward setup with minimal assembly required.

1. **Unpack the Bed:** Carefully remove the folding bed from its packaging. Retain all packaging materials until you have confirmed all parts are present and the bed is functioning correctly.
2. **Position the Folded Bed:** Place the folded bed in the desired location where it will be used or unfolded. Ensure there is enough clear space around the bed for unfolding.
3. **Unfold the Frame:** Gently pull the two halves of the bed frame apart. The frame will extend and the support legs will automatically deploy. Ensure all locking mechanisms (if present) click into place to secure the frame in its fully extended position.
4. **Mattress Decompression:** The memory foam mattress may be compressed for shipping. Allow the mattress to decompress for 24-48 hours in a well-ventilated area for optimal comfort and full expansion.

5. **Secure the Wheels:** If the bed is equipped with locking wheels, engage the wheel locks to prevent unintended movement once the bed is in position.

## OPERATING INSTRUCTIONS

### Unfolding the Bed for Use

1. Ensure the bed is on a flat, stable surface.
2. Locate the locking mechanism that holds the bed in its folded position. Release this lock.
3. Gently pull the two ends of the bed frame away from each other until the frame is fully extended and the support legs are securely in place.
4. Confirm that all legs are stable and the frame is level before placing the mattress and bedding.

## Folding the Bed for Storage

1. Remove all bedding and the mattress from the bed frame.
2. Lift the center of the bed frame, bringing the two ends together. The frame will begin to fold inward.
3. Once fully folded, engage the locking mechanism to secure the bed in its compact position.
4. Utilize the built-in wheels to easily move the folded bed to your desired storage location.

## MAINTENANCE

---

Proper maintenance will extend the life and performance of your Homy Casa Folding Bed.

### Frame Care

- Wipe the metal frame with a soft, damp cloth to remove dust and dirt.

- Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the finish.
- Periodically inspect all bolts, screws, and connections. Re-tighten any loose fasteners to maintain stability.

## Mattress Care

- The mattress cover can be spot cleaned using a mild detergent and a damp cloth. Allow to air dry completely.
- Do not machine wash, tumble dry, or dry clean the memory foam mattress itself.
- Rotate the mattress regularly (e.g., every 3-6 months) to ensure even wear and prolong its lifespan.
- Allow the mattress to air out periodically by removing bedding to maintain freshness and prevent moisture buildup.

## TROUBLESHOOTING

---

This section addresses common issues you might encounter with your folding bed.

## Bed Does Not Unfold/Fold Smoothly

- **Check for Obstructions:** Ensure there are no objects or debris caught in the folding mechanism.
- **Verify Locking Pins:** Make sure any locking pins or levers are fully disengaged before unfolding and fully engaged after folding.
- **Lubrication:** If the mechanism feels stiff, apply a small amount of silicone-based lubricant to the moving joints.

## Bed Feels Unstable

- **Ensure Legs are Locked:** Confirm that all support legs are fully extended and securely locked into their operating position.
- **Level Surface:** Place the bed on a flat, even surface. Uneven flooring can cause instability.
- **Tighten Connections:** Check all frame connections and bolts for tightness. Re-tighten if any are loose.

## Mattress Odor

- New memory foam mattresses may emit a slight, harmless odor upon unpacking. This is normal and typically dissipates within 24-72 hours in a well-ventilated room.
- To accelerate dissipation, remove all bedding and allow the mattress to air out in a room with open windows or good airflow.

## SPECIFICATIONS

<b>Brand Name</b>	Homy Casa
<b>Model</b>	75" x 38" (Twin)
<b>Style</b>	Contemporary
<b>Color</b>	Black and White
<b>Frame Material</b>	Metal
<b>Mattress Type</b>	Memory Foam
