Casfuy N70 / N75 / N90

Casfuy Dog Nail Grinder Replacement Head Instruction Manual

Models N70, N75, N90

Introduction

This manual provides essential information for the proper installation, use, and maintenance of your Casfuy Dog Nail Grinder Replacement Head. This replacement head is compatible with Casfuy Dog Nail Grinder models N70, N75, and N90. Please read these instructions carefully before use to ensure optimal performance and safety.

Product Features

- **Compatibility:** Specifically designed for Casfuy Dog Nail Grinder Models N70, N75, and N90.
- **High-Quality Material:** Constructed with durable diamond grinding heads for effective and long-lasting performance.
- **Reduced Vibration and Noise:** Features high-quality rubber rings wrapped around copper shafts, engineered to minimize operational vibration and noise, contributing to a more comfortable experience for your pet.

Setup: Replacing the Grinding Head

Follow these steps to safely replace the grinding head on your Casfuy Dog Nail Grinder:

1. **Power Off:** Ensure the dog nail grinder is turned off and disconnected from any power source before attempting to replace the head.
2. **Remove Old Head:** Gently twist or pull the existing grinding head off the grinder shaft. Refer to your specific grinder model's manual for precise removal instructions if needed.
3. **Install New Head:** Align the new Casfuy replacement head with the grinder shaft. Push or twist it firmly into place until it is securely seated. Ensure it does not wobble.
4. **Verify Installation:** Lightly tug on the new grinding head to confirm it is properly attached before turning on the device.

Operating Instructions

Once the replacement head is securely installed, you can proceed with grinding your dog's nails. Always refer to your main Casfuy Dog Nail Grinder manual for detailed operating procedures, safety precautions, and tips for acclimating your pet to the grinder.

- **Acclimation:** Allow your dog to get used to the sound and vibration of the grinder before direct contact with their nails.
- **Grinding Technique:** Hold your dog's paw and gently place the nail against the rotating grinding head. Grind a small amount at a time, checking frequently to avoid grinding too far and reaching the quick.
- **Avoid Overheating:** Apply light pressure and grind for only a few seconds per nail to prevent heat buildup, which can cause discomfort to your pet.

Maintenance

Proper maintenance extends the life of your grinding head and ensures consistent performance:

- **Cleaning After Each Use:** After each grinding session, wipe the grinding wheel thoroughly with a wet wipe or a damp cloth. This removes nail dust and debris, helping to maintain the sharpness and effectiveness of the grinding surface.
- **Replacement Frequency:** The frequency of replacement for the grinding head depends on your actual usage, including the number of pets, nail hardness, and grinding duration. Replace the head when you notice a decrease in grinding efficiency or

visible wear.

- **Storage:** Store the grinder and replacement heads in a clean, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

If you encounter issues with your Casfuy Dog Nail Grinder Replacement Head, consider the following:

- **Grinding Inefficiency:** If the grinding head is not effectively trimming nails, it may be worn out or clogged with debris. Ensure it is clean (refer to Maintenance section) or consider replacing it.
- **Excessive Vibration/Noise:** Check if the grinding head is securely installed. A loose head can cause increased vibration and noise. If the issue persists after re-securing, the head may be damaged and require replacement.
- **Head Not Attaching Securely:** Ensure you are using the correct replacement head for your Casfuy grinder model (N70, N75, or N90). Inspect the grinder shaft and the replacement head for any damage that might prevent a secure fit.

Specifications

Brand Name	Casfuy
Item Model Number	N90-grinderhead (Compatible with N70, N75, N90 grinders)
Item Weight	0.352 ounces
Item Package Dimensions (L x W x H)	3.66 x 2.87 x 0.47 inches
