SAFETY INFORMATION

Your safety is paramount. Please adhere to the following safety guidelines to prevent injury or damage to the product.

- **Anti-Tipping Hardware:** Always secure the cabinet to the wall using the provided anti-tipping hardware. This is crucial to prevent the cabinet from falling over, especially in households with children or pets.
- **Weight Capacity:** Do not exceed the specified weight capacity for the cabinet (143 lbs overall) or its individual shelves (33 lbs per shelf) and drawer (11 lbs). Overloading can lead to structural damage or tipping.
- **Assembly:** Follow all assembly instructions carefully. Ensure all fasteners are tightened securely before use.
- **Placement:** Place the cabinet on a flat, stable, and level surface. Avoid placing it in high-traffic areas where it might

be easily bumped.

- **Children and Pets:** Keep children and pets away from the cabinet during assembly. Do not allow children to climb on or play with the cabinet.

PRODUCT OVERVIEW

Features

- **Ample Storage:** Features four doors and a central drawer, providing extensive storage for kitchen items, dining essentials, or other household goods.
- **Adjustable Shelves:** Includes two 3-level adjustable shelves, allowing customization of storage space to accommodate items of various heights, such as pitchers or blenders.
- **Versatile Design:** Designed with a painted finish, recessed door panels, and antique metal hardware, making it suitable for kitchens, dining rooms, living rooms, entryways, or garages.

- **Safety Mechanism:** Equipped with anti-tipping hardware for secure wall attachment, enhancing stability and safety.
- **Durable Construction:** Made from engineered wood, ensuring a sturdy and long-lasting structure.

ADJUSTABLE SHELVES

Adjustable or removable shelves in the cabinet to accommodate items of different sizes

6.4cm / 2.5"

Overall Weight Capacity	143 lbs.
Shelf Weight Capacity	33 lbs. per shelf
Drawer Weight Capacity	11 lbs.
Item Weight	77 lbs.
Material	Engineered Wood
Finish Type	Painted
Number of Shelves	4 (2 adjustable)
Assembly Required	Yes
Mounting Type	Floor Mount (with wall anchor)

Image: Detailed diagram showing the overall dimensions of the cabinet: 23.5 inches wide, 15 inches deep, and 67 inches tall, along with internal shelf dimensions.

SETUP AND ASSEMBLY

Assembly of your HOMCOM pantry cabinet is required. Please ensure you have all parts and tools before beginning. It is recommended to assemble the cabinet with at least two people due to its size and weight.

1. **Unpack and Verify:** Carefully unpack all components and hardware. Compare them against the parts list provided in your separate assembly instruction booklet to ensure nothing is missing or damaged.
2. **Prepare Workspace:** Choose a clean, flat, and spacious area for assembly. Lay down a blanket or cardboard to protect the cabinet parts and your floor from scratches.
3. **Follow Instructions:** Refer to the detailed step-by-step assembly instructions and diagrams included in the separate assembly manual that came with your product. Each step is clearly illustrated.
4. **Assemble Frame:** Begin by assembling the main frame of the cabinet, ensuring all connections are secure but do

not overtighten screws until the entire section is aligned.

5. **Install Shelves and Drawer:** Install the fixed and adjustable shelves as per the instructions. Assemble and insert the central drawer.
6. **Attach Doors:** Mount the four doors, ensuring they are properly aligned and swing freely. Adjust hinges if necessary for proper closure.
7. **Install Anti-Tipping Hardware:** This is a critical safety step. Once the cabinet is in its final desired location, use the provided anti-tipping hardware to secure the cabinet to a wall stud. This prevents accidental tipping.
8. **Final Check:** Double-check all screws and connections to ensure they are tight and secure.

Note: If you encounter any difficulties during assembly, please refer to the troubleshooting section or contact customer support.

OPERATING INSTRUCTIONS

Using your HOMCOM pantry cabinet is straightforward. It is designed for organized storage in various rooms.

- **Loading the Cabinet:** Distribute weight evenly across shelves. Place heavier items on lower shelves to maintain stability. Do not exceed the maximum weight capacities.
- **Adjusting Shelves:** To adjust the height of the movable shelves, carefully remove the shelf and reposition the shelf pegs into the desired holes. Ensure all four pegs are securely inserted before placing items on the shelf.
- **Drawer Usage:** The central drawer is ideal for smaller items like utensils, napkins, or other accessories. Ensure it slides smoothly.
- **Door Operation:** Open and close doors gently. Avoid slamming to prevent wear and tear on hinges and the cabinet structure.

MAINTENANCE AND CARE

Proper care will extend the life and maintain the appearance of your HOMCOM pantry cabinet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the painted finish and engineered wood.
- **Spills:** Clean up spills immediately to prevent staining or swelling of the wood material.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Sunlight and Heat:** Avoid prolonged exposure to direct sunlight or extreme heat, which can cause fading or warping.
- **Moving the Cabinet:** If you need to move the cabinet, empty it first to reduce weight. Lift the cabinet rather than dragging it to prevent damage to the legs and floor.

TROUBLESHOOTING

If you encounter any issues with your HOMCOM pantry cabinet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable.	Not level; screws loose; anti-tipping hardware not installed or secured.	Ensure cabinet is on a level surface. Tighten all assembly screws. Install or properly secure the anti-tipping hardware to the wall.
Doors do not close properly or are misaligned.	Hinges are loose or require adjustment.	Tighten hinge screws. Adjust hinge settings (usually via screws on the hinge itself) to align the doors.
Drawer sticks or does not slide smoothly.	Drawer slides are misaligned or obstructed.	Ensure drawer slides are correctly installed and free of debris. Check that the drawer is not overloaded.
Chipping or minor cosmetic damage on feet/edges.	Occurred during shipping or assembly.	For minor chips, a touch-up pen matching the cabinet color can be used. Contact customer support for significant damage.

WARRANTY AND SUPPORT

HOMCOM products are designed for quality and durability. For any concerns regarding your product, please refer to the following information:

- **Return Policy:** This product is eligible for a 30-day return policy from the date of purchase. Please refer to the retailer's return policy for specific terms and conditions.
- **Protection Plans:** Extended protection plans may be available for purchase, offering additional coverage beyond the standard return period. Options include 2-Year and 3-Year Protection Plans. Please check with your retailer for details.
- **Customer Support:** For assembly assistance, missing parts, or any other product-related inquiries, please contact HOMCOM customer support. You can typically find contact information on the packaging or the retailer's website.
- **Manufacturer:** Aosom LLC
