## SAFETY INFORMATION

Always read and follow all label directions and precautions before using this product. Keep out of reach of children and pets. Avoid contact with skin, eyes, and clothing. In case of contact, rinse thoroughly with water. Do not use spoons or measuring cups for food after use with this product. Store in a cool, dry place away from food and feedstuffs.

### First Aid:

- **If swallowed:** Call a poison control center or doctor immediately for treatment advice.
- **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

For additional medical information, contact a medical professional or refer to the product label.

## WHERE TO USE

---

This product is intended for residential use in and around homes, apartments, animal quarters, household greenhouses, mobile homes, and recreational vehicles. It can also be applied on ornamental plants and listed vegetables.

### Indoor Application Areas:

- Cracks and crevices.
- Behind and under sinks, stoves, refrigerators.
- Around garbage cans.
- In and around floor drains.
- Between cabinets and along baseboards.
- In attics and crawl spaces.

### Outdoor Application Areas:

- As a perimeter treatment around the foundation of homes.
- On ornamental plants, shrubs, and vegetable gardens (refer to label for specific listed vegetables).
- Around window and door frames.
- Under porches and other outdoor structures.

# WHERE TO USE

**FOR RESIDENTIAL USE,  
IN AND AROUND HOMES,  
ORNAMENTALS, SHRUBS, AND  
VEGETABLE GARDENS**

Image: Depiction of indoor application along kitchen baseboards and outdoor application around a garden bed, illustrating the product's versatility.

## APPLICATION INSTRUCTIONS

Apply Ortho Orthene Ant and Roach Killer when insects or their damage first appear. This product is a dust formula and should be applied lightly and uniformly to infested areas.

### Preparation:

- Ensure the area to be treated is dry.
- Remove any food items, utensils, or food preparation surfaces before indoor application.
- Wear appropriate protective gear, such as gloves, during application.

### Application Method:

To apply, use a bulbous hand duster or other suitable means, or sprinkle directly from the container. Application rates vary by insect and placement. Always refer to the product label for specific instructions and recommended application rates for different pests and areas.

# **READY-TO-USE DUST FORMULA**

**TIP: AVOID RAINFALL AFTER APPLICATION  
FOR A MINIMUM OF 24 HOURS**

Image: A gloved hand sprinkling the dust product onto a garden bed, demonstrating outdoor application.

# APPLY LIGHTLY AND UNIFORMLY TO INFESTED AREA

**SEE PRODUCT LABEL FOR COMPLETE INSTRUCTIONS.**

Image: A hand applying the dust product lightly and uniformly inside a kitchen cabinet, illustrating indoor application.

**Important:** Avoid rainfall after outdoor application for a minimum of 24 hours to ensure product effectiveness.

## MAINTENANCE AND STORAGE

### Storage:

Store the product in its original container in a cool, dry area inaccessible to children and pets. Do not store near food or feed. Keep container tightly closed when not in use.

### Disposal:

**Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

## TROUBLESHOOTING

If you are not observing the expected results after application, consider the following:

- **Application Rate:** Ensure the product was applied at the recommended rate for the specific pest and area. Refer to the product label for detailed instructions.
- **Coverage:** Verify that the dust was applied uniformly to all infested areas, including cracks, crevices, and entry points.
- **Environmental Factors:** For outdoor applications, ensure no rainfall occurred within 24 hours of treatment, as this can reduce effectiveness.
- **Pest Type:** Confirm that the target pests are listed on the product label. This product is specifically formulated for ants, roaches, fleas, ticks, spiders, scorpions, and stink bugs.
- **Reapplication:** While the product offers long-lasting control, severe infestations may require reapplication after a suitable interval as indicated on the label.

If issues persist, contact customer support for further assistance.
