Euker 10000-30

Euker Heavy Duty Garage Workbench

Model: 10000-30

Brand: Euker

INTRODUCTION

Thank you for choosing the Euker Heavy Duty Garage Workbench. This manual provides essential information for the safe assembly, operation, and maintenance of your new workbench. Please read these instructions thoroughly before beginning assembly or use to ensure proper function and longevity of the product. Keep this manual for future reference.

SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in serious injury or property damage.

- Always assemble the workbench on a flat, stable surface.
- Ensure all bolts and fasteners are securely tightened before use.
- Do not exceed the maximum load capacity of 1000 lbs (453 kg).
- Distribute weight evenly across the tabletop and shelves.
- Keep children and pets away from the workbench during assembly and use.
- Wear appropriate safety gear, such as gloves and eye protection, during assembly.
- Avoid placing hot items directly on the workbench surface without protection.
- Do not climb or stand on the workbench.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Workbench Frame (Metal)

- Work Tabletop
- Pegboard Panel
- Drawers (2 units)
- Lower Shelves (2 units)
- Hanging Hooks (30 units)
- Assembly Hardware (bolts, nuts, washers, etc.)
- Instruction Manual

SETUP AND ASSEMBLY

Assembly typically requires two people. Ensure you have adequate space and the necessary tools (e.g.,

screwdriver, wrench) before starting.

1. **Unpack Components:** Carefully remove all parts from the packaging. Check against the package contents list to ensure everything is present and undamaged.
2. **Assemble Frame:** Begin by assembling the main metal frame components. Secure all connections with the provided bolts, nuts, and washers. Do not fully tighten bolts until the entire frame is assembled to allow for adjustments.
3. **Attach Lower Shelves:** Install the two lower shelves into the designated slots or brackets on the frame. Ensure they are level and securely seated.
4. **Install Tabletop:** Place the main tabletop onto the upper frame structure. Secure it using the appropriate fasteners.
5. **Mount Pegboard:** Attach the pegboard panel to the back of the workbench frame. Ensure it is firmly secured and aligned.
6. **Insert Drawers:** Install the drawer slides into the workbench frame, then carefully insert the two drawers. Test their smooth operation.
7. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and fasteners. Do not overtighten.
8. **Attach Hooks:** Place the 30 hanging hooks onto the pegboard as desired for tool organization.

OPERATING INSTRUCTIONS

Using the Workbench Features

The Euker Heavy Duty Garage Workbench is designed for versatile use in various environments. Utilize its features to maximize organization and efficiency.

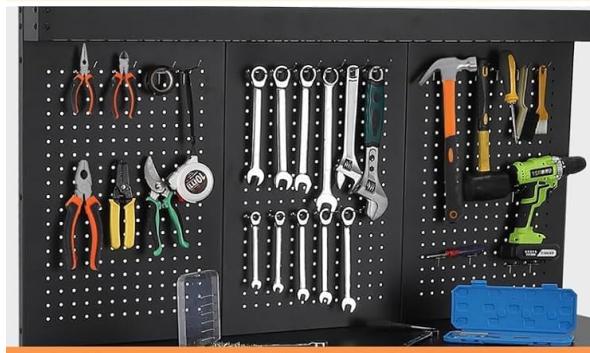

- **Work Tabletop:** The spacious 48" x 24" tabletop provides a durable surface for various projects. Ensure heavy items are placed centrally and weight is distributed to maintain stability.
- **Pegboard:** The integrated pegboard allows for convenient storage and quick access to frequently used tools. Use the included 30 hanging hooks to organize your tools efficiently. Periodically check that hooks are securely seated.
- **Drawers:** The two spacious drawers are ideal for storing smaller tools, hardware, and accessories, keeping them protected from dust and organized. The smooth drawer slides ensure easy access. Avoid overloading drawers to prevent damage to the slides.
- **Lower Shelves:** The two-tier open shelves provide additional storage for larger items, toolboxes, or supplies. Distribute weight evenly across these shelves, adhering to the workbench's overall load capacity.

MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your workbench.

- **Cleaning:** Wipe down all surfaces with a damp cloth and mild detergent as needed. Avoid abrasive cleaners or solvents that could damage the painted finish.
- **Inspection:** Periodically inspect all bolts and fasteners to ensure they remain tight. Retighten if necessary.
- **Drawer Slides:** If drawers become stiff, apply a small amount of silicone lubricant to the drawer slides.
- **Load Capacity:** Always adhere to the 1000 lbs (453 kg) load capacity. Overloading can compromise the structural integrity.

TROUBLESHOOTING

Common Issues and Solutions

- **Workbench is Unstable:**

Solution: Ensure all assembly bolts are fully tightened. Verify the workbench is on a flat, level surface. Adjust anti-slip foot pads if present and adjustable.

- **Drawers are Stiff or Stick:**

Solution: Check for obstructions in the drawer slides. Ensure drawers are not overloaded. Apply a silicone-based lubricant to the drawer slides.

- **Tools Fall from Pegboard:**

Solution: Ensure hooks are correctly inserted and securely seated in the pegboard holes. Use appropriate hooks for the weight and shape of the tools.

SPECIFICATIONS

Brand	Euker
Model Number	10000-30
Assembled Dimensions (W x D x H)	47.32" x 23.85" x 61" (approx.)
Color	Black
Item Weight	105.05 Pounds (approx. 47.65 kg)
Finish Type	Painted
Frame Material	Metal
Load Capacity	1000 lbs (approx. 453 kg)
UPC	198723939032
