TROUBLESHOOTING

Most issues with the beanie are related to fit or care. Here are some common concerns:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Hat feels too tight/loose	Incorrect size for baby's head circumference.	Ensure the correct size (One Size, suitable for 0-2 years) is being used. While it's one size, head sizes vary. If consistently too tight or loose, consider if it's appropriate for the baby's current growth stage.
Fabric feels rough after washing	Harsh detergent or incorrect drying method.	Re-wash using a mild, baby-safe detergent and ensure it is air-dried or tumble-dried on very low heat. Avoid fabric softeners if baby has sensitive skin.
Hat loses shape	Improper washing or drying.	Always follow machine wash instructions (gentle cycle, cold water) and air dry flat to maintain original shape.
