Babysense HDS2 & Dreamer 2.0 Bundle

Babysense 2-in-1 Video Baby Monitor & Smart Sound Machine User Manual

Model: HDS2 & Dreamer 2.0 Bundle

INTRODUCTION

This user manual provides comprehensive instructions for the Babysense 2-in-1 Bundle, which includes the Babysense HDS2 Video Baby Monitor with two HD cameras and the Babysense Dreamer 2.0 Smart Sound and Light Machine. This integrated system is designed to provide peace of mind by allowing you to monitor your child and create a soothing environment for their rest and play.

The Babysense HDS2 monitor features a 5-inch HD display, two-way audio, night vision, and temperature sensing. The Babysense Dreamer 2.0 offers a variety of sounds and customizable lighting, controllable via an app. Both components are designed for ease of use and reliable performance.

PRODUCT OVERVIEW

Babysense HDS2 Video Baby Monitor

The HDS2 system includes a portable parent unit with a 5-inch HD LCD display and two HD cameras. Key features include:

- **5-inch HD LCD Display:** Provides a clear view of your baby.
- **Two HD Cameras:** Allows monitoring of multiple angles or children.
- **Two-Way Audio:** Enables communication with your baby.
- **Auto IR Night Vision:** Clear viewing in low light conditions.
- **Temperature Sensor:** Monitors the room temperature.
- **Sound-Activated LED Lights:** Visual alerts for baby's sounds.
- **Secure & Interference-Free Connection:** Ensures privacy and reliability.

Babysense Dreamer 2.0 Smart Sound and Light Machine

The Dreamer 2.0 is designed to create a calming environment with its sound and light features. Key features include:

- **28 Soothing Sounds:** Includes lullabies, white noise, and nature sounds.
- **Ambient Lighting:** Customizable RGB colors and adjustable brightness.
- **App Control:** Manage settings and features via a smartphone application.
- **Sleep Timer:** Program the duration of sounds and lights.

SETUP

Setting up the Babysense HDS2 Video Baby Monitor

1. **Charge the Parent Unit:** Connect the parent unit to a power outlet using the provided adapter. Allow it to fully charge before first use.
2. **Position the Cameras:** Place the cameras in a secure location within the baby's room, ensuring a clear view of the crib or play area. Avoid placing them within reach of the child.
3. **Connect Cameras to Power:** Plug each camera into a power outlet using its respective power adapter.
4. **Power On:** Turn on the parent unit and cameras. The units should automatically pair. If not, refer to the troubleshooting section for manual pairing instructions.

Split-screen feature

Keep an eye on both babies at once, while the audio focus remains on one camera. Use SCAN Mode to alternate audio between cameras every 15 seconds.

Figure 2: The 5-inch HD LCD monitor showing the split-screen feature, allowing simultaneous monitoring of two cameras.

Setting up the Babysense Dreamer 2.0 Smart Sound and Light Machine

1. **Connect to Power:** Plug the Dreamer 2.0 machine into a power outlet.
2. **Download the App:** Download the Babysense app from your device's app store.
3. **Pair with App:** Follow the in-app instructions to connect the Dreamer 2.0 to your smartphone via 2.4GHz WiFi.

OPERATING THE BABYSENSE HDS2 VIDEO BABY MONITOR

Basic Functions

- **Power On/Off:** Press and hold the power button on the parent unit.
- **Volume Control:** Use the dedicated volume buttons on the parent unit to adjust audio levels.
- **Two-Way Talk:** Press and hold the microphone button on the parent unit to speak to your baby through the camera's speaker.

Control Multiple Dreamers Via One App

Giving you total control, flexibility and unparalleled convenience at your fingertips, from a single app

Figure 3: The two-way talk feature allows you to comfort your baby remotely.

Advanced Features

- **Split-Screen View:** Access the menu to select the split-screen option, allowing you to view feeds from both cameras simultaneously. The audio focus can alternate between cameras every 15 seconds in SCAN mode.
- **Night Vision:** The cameras automatically switch to infrared (IR) night vision in low light conditions, providing a clear black and white image.
- **Zoom Function:** Use the zoom controls on the parent unit to digitally zoom in on the camera feed (2X or 4X magnification).
- **Pan and Tilt:** Remotely adjust the camera's viewing angle using the directional buttons on the parent unit.
- **Temperature Monitoring:** The current room temperature is displayed on the parent unit screen.

Day and Night Vision

Enjoy a clear image of your baby day and night,
thanks to Auto IR night vision!

MAINTENANCE

Cleaning

- **Parent Unit & Cameras:** Wipe surfaces with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Dreamer 2.0:** Clean the exterior with a soft, damp cloth. Ensure the device is unplugged before cleaning.

Battery Care (Parent Unit)

- To prolong battery life, avoid extreme temperatures.
- Charge the unit regularly, but avoid leaving it plugged in constantly for extended periods once fully charged.

TROUBLESHOOTING

No Signal/Poor Connection

- Ensure both the parent unit and cameras are powered on and within range (up to 1000ft in open space).
- Move the units closer to each other.
- Avoid placing units near other electronic devices that may cause interference (e.g., microwaves, Wi-Fi routers).
- If connection is lost, try re-pairing the camera to the parent unit by following the instructions in the monitor's settings menu.

No Audio/Poor Audio Quality

- Check the volume level on the parent unit.
- Ensure there are no obstructions blocking the microphone on the camera or the speaker on the parent unit.
- Verify the camera is properly connected and transmitting audio.

Dreamer 2.0 Not Connecting to App

- Ensure your smartphone is connected to a 2.4GHz Wi-Fi network. The Dreamer 2.0 does not support 5GHz networks.
- Restart the Dreamer 2.0 device and your smartphone.
- Follow the in-app pairing instructions carefully.
