DoCred Garden Planters OR6

DoCred Raised Garden Bed Planter Box with Trellis - Instruction Manual

Model: Garden Planters OR6

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your DoCred Raised Garden Bed Planter Box with Trellis. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

- Ensure all components are securely fastened before use.
- Do not overload the planter box with excessive soil or plants, as this may compromise stability.
- When moving the planter, ensure the path is clear and stable. Lock the wheels once in the desired position.
- Keep small parts away from children to prevent choking hazards.

PACKAGE CONTENTS

Please verify that all parts are present before assembly. If any parts are missing or damaged, please contact customer support.

Part	Description	Quantity
Planter Box Panels	Side and bottom panels for the planter.	Varies by model
Trellis Frame Components	Vertical and horizontal bars for the trellis.	Varies by model
Wheels with Brakes	Casters for mobility, two with locking brakes.	4 or 6
Drain Stoppers	White stoppers for the self-watering reservoir.	2
Connectors & Fasteners	Various clips, screws, and rods for assembly.	1 set
Assembly Instructions	Printed guide for step-by-step assembly.	1

SETUP & ASSEMBLY

Assembly typically takes around 10 minutes. Refer to the included printed instructions for detailed diagrams. Ensure all connections are secure.

Assembly Steps:

1. Unpack all components and verify against the package contents list.
2. Assemble the planter box base using the provided panels and connectors.
3. Attach the wheels to the bottom of the planter box. Ensure the two wheels with brakes are positioned for easy access.
4. Construct the trellis frame according to the diagrams in the separate instruction sheet.
5. Securely attach the assembled trellis to the planter box.
6. Insert the white drain stoppers into the designated holes at the bottom of the planter box.

INTERCONNECTED AND EXTENDED DESIGN

If you buy more than two sets, the planter box can be interconnected and extended to meet your various DIY requirements.

OPERATING INSTRUCTIONS

Self-Watering System

The planter features a self-watering reservoir at the bottom to keep soil consistently moist. This reduces the frequency of watering and maintenance. The white stoppers on each side allow for easy draining or retention of

excess water, promoting healthy plant growth.

- To fill the reservoir, water your plants from the top until water begins to collect in the bottom reservoir.
- To retain water, ensure the white stoppers are securely in place.
- To drain excess water, remove the white stoppers. This is recommended during periods of heavy rainfall or if the soil becomes waterlogged.

Image: Cross-section view illustrating the self-watering reservoir and drainage holes at the base of the planter.

Mobility with Wheels

The raised garden bed is equipped with wheels, two of which have brakes, allowing for easy repositioning and secure placement. This feature is suitable for both indoor and outdoor use.

- To move the planter, unlock the wheels by disengaging the brakes.
- Carefully push or pull the planter to its new location.
- Once in position, engage the brakes on the two locking wheels to secure the planter.

PLANTER BOX WITH WHEELS

Easy to move from one place to another

Image: The planter box demonstrating its mobility, transitioning from a paved surface to a grassy area, highlighting the wheels.

Extensible Design

For larger gardening projects, multiple DoCred Raised Garden Bed units can be interconnected and extended. The sliding panels and corner connector rods allow for various configurations to suit your space and planting needs.

- To connect multiple units, align the sliding panels and use the designated corner connector rods.
- Ensure all connections are firm to maintain structural integrity.

MAINTENANCE

Cleaning

- Clean the planter box periodically with mild soap and water. Avoid harsh chemicals that could damage the material or harm plants.
- Rinse thoroughly after cleaning.

Drainage Check

- Regularly check the drainage holes and stoppers to ensure they are clear of debris and functioning correctly.
- If the self-watering system appears to be malfunctioning, inspect the reservoir for blockages.

Seasonal Care

- For prolonged outdoor use, especially in harsh weather conditions, consider covering the planter or moving it to a sheltered location.

- Inspect the trellis and planter structure for any signs of wear or damage before each planting season.

TROUBLESHOOTING

- **Planter feels unsteady:** Ensure all assembly fasteners are tightened. Verify that the planter is placed on a level surface.
- **Water not draining or draining too quickly:** Check if the white drain stoppers are correctly inserted or removed as desired. Clear any soil or root blockages from the drainage holes.
- **Wheels not rolling smoothly or locking:** Clean any debris from the wheel casters. Ensure the brake mechanism is fully engaged or disengaged. If a wheel is damaged, contact support for replacement options.
- **Trellis appears weak:** Ensure all trellis frame components are securely connected. For heavy climbing plants, additional support may be required.

SPECIFICATIONS

Feature	Detail
Brand	DoCred
Model Number	Garden Planters OR6
Product Dimensions	16"D x 32"W x 73"H
Material	Alloy Steel, Plastic
Color	Medium Brown
Special Feature	Cordless (referring to no electrical components)
Planter Form	Raised Bed
Shape	Rectangular
Indoor/Outdoor Usage	Outdoor
Mounting Type	Floor Standing
Number of Levels	1
Item Weight	16.37 pounds

WARRANTY AND SUPPORT

Warranty Information

DoCred products are manufactured to high-quality standards. For specific warranty details, please refer to the documentation included with your purchase or contact DoCred customer support.

Customer Support

If you have any questions regarding assembly, operation, missing parts, or require technical assistance, please contact us through Amazon messages. Our support team will respond promptly to assist you.
