CARE AND MAINTENANCE

Proper care will extend the life and appearance of your ohlob Cloud Sectional Sofa.

Cleaning Instructions:

- **Removable Covers:** The pillow covers are removable for easy cleaning. Refer to the care tag on the covers for specific washing instructions.
- **Spot Cleaning:** For minor spills, gently blot the affected area with a clean, damp cloth. Use a mild, pH-neutral fabric cleaner if necessary, testing on an inconspicuous area first. Avoid harsh chemicals.
- **Regular Vacuuming:** Vacuum the sofa regularly using a soft brush attachment to remove dust and debris, preventing dirt buildup in the fabric fibers.
- **Fluffing Cushions:** Periodically fluff and rotate cushions to maintain their shape and even out wear.

General Care:

- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sun exposure or use curtains/blinds.
- **Keep Away from Heat Sources:** As per important safety information, keep the sofa away from open flames or high heat sources to prevent damage and fire hazards.

- **Protect from Pets:** While durable, pet claws can damage fabric. Consider using throws or covers if pets frequently use the sofa.

TROUBLESHOOTING

Here are solutions to common concerns you might encounter with your ohlob Cloud Sectional Sofa:

Problem	Solution
Cushions appear flat or wrinkled upon arrival.	This is normal due to vacuum packaging. Allow 48-72 hours for the high-resilience foam to fully expand and regain its shape. Fluffing the cushions periodically can also help.
Boxes arrived on different days.	The sofa is shipped in 4 separate boxes, which may be delivered independently. Please wait for all boxes to arrive before attempting full setup. If a box is missing after several days, contact customer support.
Sofa modules slide apart on smooth floors.	The sofa modules are designed to be independent for versatility. For increased stability on smooth surfaces, consider placing a non-slip rug underneath or using furniture grippers between modules.
