## 2. SAFETY INFORMATION

### WARNING:

- **CHOKING HAZARD:** This kit contains small parts. Not suitable for children under 3 years. Adult supervision is required during assembly.
- **COIN BATTERY WARNING:** This product contains a button or coin cell battery. A swallowed button or coin cell battery can cause internal chemical burns and lead to death. Dispose of used batteries immediately. Keep new and used batteries away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.
- Exercise caution when using sharp tools such as scissors, precision knives, and pliers during assembly.
- Keep glue and paints away from eyes and mouth. Use in a well-ventilated area.

### 3. PARTS OVERVIEW

Your Rolife DIY kit includes a variety of materials and components necessary for assembly. Please refer to the detailed instruction booklet provided in your kit for a complete and illustrated parts list. Key components generally include:

- Pre-cut wooden sheets for structural elements and furniture.
- Paper sheets with printed designs for walls, floors, and decorative items.
- Small plastic, metal, and fabric pieces for miniature accessories and details.
- LED lighting components, wires, and battery box (batteries may be included or sold separately).
- Paints and a paintbrush for coloring specific parts.
- Adhesive (glue) for assembly.

### 4. SETUP AND ASSEMBLY

## **4.1. Recommended Tools (Not Included)**

While some basic tools are provided, the following additional tools are highly recommended for a smoother assembly process:

- Ruler
- Scissors
- Precision Knife (e.g., X-Acto knife)
- Diagonal Pliers
- Round Nose Pliers
- Sandpaper (fine-grit)

## **4.2. General Assembly Tips**

- Read the entire instruction manual thoroughly before beginning.
- Organize all parts by their corresponding bag numbers or labels as indicated in the manual.
- Use the provided diagrams to identify and match each piece.
- Apply glue sparingly to avoid excess and ensure clean assembly. Allow adequate drying time for each glued component before proceeding.
- Some wooden pieces may require gentle sanding for a perfect fit.
- Follow the painting instructions carefully, allowing paint to dry completely between coats.

## **4.3. Emily's Flower Shop Assembly**

This section covers the general assembly of the miniature flower shop. Detailed, step-by-step instructions with illustrations are provided in the kit's manual. Pay close attention to the numbering and diagrams for each part.

## 5. OPERATING THE LED LIGHTS

Emily's Flower Shop includes LED lighting to enhance its charm. Follow these steps to operate the lights:

1. **Battery Installation:** Locate the battery box. Insert the required coin cell batteries (CR2032, typically 3V) into the battery compartment, ensuring correct polarity (+/-).
2. **Connecting Lights:** Carefully connect the LED wires to the designated points on the battery box or circuit board as shown in your detailed manual.
3. **Activating Lights:** Once batteries are installed and connections are secure, use the switch on the battery box to turn the lights on or off.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry brush or a microfiber cloth to gently dust the miniature models. Avoid using water or chemical cleaners, as they may damage the materials.
- **Storage:** Store your finished models in a dry, cool place away from direct sunlight to prevent fading or warping of materials.
- **Handling:** Handle the models with care, as small components can be delicate.

## 7. TROUBLESHOOTING

- **Missing or Damaged Parts:** Carefully check all bags and packaging. If any parts are genuinely missing or damaged, please contact customer support with your purchase details.
- **Pieces Not Fitting:** Ensure you are using the correct pieces as indicated by the manual's diagrams. Gentle sanding may be required for a snug fit. Do not force pieces together, as this may cause damage.
- **Glue Not Holding:** Ensure surfaces are clean and dry before applying glue. Apply a thin, even layer and hold pieces firmly together for the recommended drying time. Humidity can affect drying time.
- **Lights Not Working:** Check that batteries are correctly installed with the right polarity and are not depleted. Verify all wire connections are secure and properly attached to the battery box and LED components.
