2. Power Connection

Connect the power adapter to the fan unit and then plug it into a standard electrical outlet. The fan will typically power on automatically.

3. App Installation & Wi-Fi Connection

Download the compatible mobile application (e.g., 5D Display) from your iPhone or Android device's app store. Connect your mobile device to the fan's Wi-Fi network. The Wi-Fi network name will typically start with '3D-' followed by a unique identifier. Once connected, open the app to manage content.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

1. Content Upload & Management

Use the mobile app to upload your desired video or image content to the fan. The app allows you to select files from your device's gallery or access a library of 700 preloaded 3D video assets. You can adjust the display area within the app to fit the fan's circular projection. Once content is selected and adjusted, send it to the fan for display.

2. Remote Control Functions

The included remote control allows for convenient operation. Functions typically include power on/off, play/pause, previous/next content, repeat modes, and brightness adjustment. Ensure the remote's battery is functional.

3. Bluetooth Audio Synchronization

The fan supports Bluetooth connectivity. Pair the fan with external Bluetooth speakers or audio devices to synchronize sound with your 3D visual content, creating a more immersive experience.

MAINTENANCE

Keep the fan and its protective cover clean using a soft, dry cloth. Avoid using abrasive cleaners or solvents. Ensure the fan is unplugged before cleaning. Regularly check for any loose connections or debris that might obstruct the fan's operation.

TROUBLESHOOTING

- **Fan not spinning:** Check power connection and ensure the remote control battery is working.
- **No 3D image:** Verify content has been successfully uploaded and selected in the app. Ensure the fan is spinning at full speed.
- **Image distortion:** Check content resolution and format compatibility. Adjust the image within the app if necessary.
- **Wi-Fi connection issues:** Restart the fan and your mobile device. Ensure you are connecting to the correct Wi-Fi network.
